Weekly Update: Saturday December 10 2022 to Saturday December 17 2022

Azure Updates (31 new azure updates)

Name	Link	Description	Publication Day	Category
Public preview: Performance improving features for Azure Service Bus premium	https://azure.microsoft.com/en-us/updates/announcing-public-preview-of-higher-throughput-for-azure-service-bus-premium-through-partitioning/	Scale your Azure Service Bus premium namespaces far beyond the current limitations with two new features.	Tuesday	Azure Updates
Public preview: Log compaction support in Azure Event Hubs	https://azure.microsoft.com/en-us/updates/public-preview-log-compaction-support-in-azure-event-hubs/	Retain the latest events of an event log by using compacted event hubs or Kafka topics in Azure Event Hubs.	Tuesday	Azure Updates
Public preview: Use tag inheritance for cost management	https://azure.microsoft.com/en-us/updates/preview-use-tag-inheritance-for-cost-management/	Use tag inheritance preview to automatically apply subscription and resource group tags to child resource usage records.	Tuesday	Azure Updates, AzurePortal
General availability: Stream Analytics no-code editor updates in December 2022	https://azure.microsoft.com/en-us/updates/general-availability-stream-analytics-no-code-editor-updates-in-december-2022/	New features are now available in Stream Analytics no-code editor GA including multiple parameter built-in functions support, Delta Lake format support in ADLS Gen2 output sink.	Tuesday	Azure Updates
Azure SQL—General availability updates for mid-December 2022	https://azure.microsoft.com/en-us/updates/azure-sql-general-availability-updates-for-middecember-2022/	General availability enhancements and updates released for Azure SQL in mid-December 2022.	Thursday	Azure Updates
Generally Available: Kubernetes 1.25 support in AKS	https://azure.microsoft.com/en-us/updates/generally-available-kubernetes-125-support-in-aks/	You can now benefit from Kubernetes 1.25 enhancements in AKS.	Thursday	Azure Updates
Generally available: Static Web Apps Diagnostics	https://azure.microsoft.com/en-us/updates/generally-available-static-web-apps-diagnostics/	You can now access guided troubleshooting information related to specific issues detected within your Azure Static Web Apps service configuration.	Thursday	Azure Updates
Public preview: New UX for the AKS DevX Extension for Visual Studio Code	https://azure.microsoft.com/en-us/updates/public-preview-new-ux-for-the-aks-devx-extension-for-visual-studio-code/	Easily containerize non-container applications using Draft.	Thursday	Azure Updates
Generally Available: Azure Functions support for Java 17	https://azure.microsoft.com/en-us/updates/generally-available-azure-functions-support-for-java-17/	You can now use the latest LTS version of Java with Azure Functions.	Thursday	Azure Updates
Generally Available: Durable Functions support for Java	https://azure.microsoft.com/en-us/updates/generally-available-durable-functions-support-for-java/	Durable Functions make it easy to orchestrate stateful workflows as-code in a serverless environment.	Thursday	Azure Updates
Generally Available: Azure Functions Extension Bundle v4	https://azure.microsoft.com/en-us/updates/generally-available-azure-functions-extension-bundle-v4/	The latest Azure Functions Extension Bundle is now generally available.	Thursday	Azure Updates
Public preview: Azure Functions support for Python 3.10	https://azure.microsoft.com/en-us/updates/public-preview-azure-functions-support-for-python-310-2/	You can now take advantage of Python 3.10 features with Azure Functions.	Thursday	Azure Updates
Public preview: Azure NetApp Files cross-zone replication	https://azure.microsoft.com/en-us/updates/public-preview-azure-netapp-files-crosszone-replication/	Replicate Azure NetApp Files volumes from one availability zone to another in a fast and cost-effective way, protecting your data from unforeseeable zone failures.	Thursday	Azure Updates
Public Preview: Azure Site Recovery Higher Churn Support	https://azure.microsoft.com/en-us/updates/public-preview-azure-site-recovery-higher-churn-support/	Azure Site Recovery High Churn Support	Thursday	Azure Updates
General availability: Improved geo-replication for Azure Cache for Redis	https://azure.microsoft.com/en-us/updates/general-availability-improved-georeplication-for-azure-cache-for-redis/	Utilize new functionality that makes passive geo-replication more seamless and transparent.	Thursday	Azure Updates
General availability: JSON support in Azure Cache for Redis Enterprise tiers	https://azure.microsoft.com/en-us/updates/general-availability-json-support-in-azure-cache-for-redis-enterprise-tiers/	Gain powerful tools for working with JSON formatted data in Azure Cache for Redis through the RedisJSON module.	Thursday	Azure Updates

Public Preview: Materialized view for Azure Cosmos DB for Apache Cassandra	https://azure.microsoft.com/en-us/updates/public-preview-materialized-view-for-azure-cosmos-db-for-apache-cassandra/	Experience even greater compatibility for native Apache Cassandra with materialized view.	Thursday	Azure Updates
General availability: Azure Cosmos DB for PostgreSQL now available in new regions	https://azure.microsoft.com/en-us/updates/general-availability-azure-cosmos-db-for-postgresql-now-available-in-new-regions/	Create Azure Cosmos DB for PostgreSQL clusters now in the Sweden Central and Switzerland West regions.	Thursday	Azure Updates
Generally available: Updated API names for Azure Cosmos DB	https://azure.microsoft.com/en-us/updates/generally-available-updated-api-names-for-azure-cosmos-db/	See multiple updated API names in Azure Cosmos DB on product pages, in technical documentation, and billing that will not impact your experience, product functionality, or [...]	Thursday	Azure Updates
General availability: Azure Cosmos DB Azure Functions extension version 4	https://azure.microsoft.com/en-us/updates/general-availability-azure-cosmos-db-azure-functions-extension-version-4/	Authenticate to Azure Functions with Azure Active Directory using the Azure Cosmos DB extension version 4.	Thursday	Azure Updates
General availability: Azure AD authentication with Azure Database for MySQL – Flexible Server	https://azure.microsoft.com/en-us/updates/general-availability-azure-ad-authentication-with-azure-database-for-mysql-flexible-server/	Simplify permission management by using Microsoft Azure Active Directory identities to authenticate with instances of Azure Database for MySQL – Flexible Server.	Thursday	Azure Updates
General availability: 32 TB storage in Azure Database for PostgreSQL – Flexible Server	https://azure.microsoft.com/en-us/updates/general-availability-32-tb-storage-in-azure-database-for-postgresql-flexible-server-2/	Extend storage up to 32 TB to host databases with a size greater than 16 TB for Azure Database for PostgreSQL – Flexible Server.	Thursday	Azure Updates
General availability: Azure Database for MySQL – Flexible Server data encryption with CMK	https://azure.microsoft.com/en-us/updates/general-availability-azure-database-for-mysql-flexible-server-data-encryption-with-cmk-2/	Encrypt your data with customer-managed keys to enable an extra layer of security for data at rest.	Thursday	Azure Updates
Public preview: Build a business case with Azure Migrate	https://azure.microsoft.com/en-us/updates/public-preview-build-a-business-case-with-azure-migrate/	Build a business case in Azure Migrate today to understand the return on investment for migrating your servers, SQL Server deployments and ASP.NET web apps running [...]	Thursday	Azure Updates, Azure Portal
General availability: Yocto recipes for IoT Edge 1.4 LTS	https://azure.microsoft.com/en-us/updates/general-availability-yocto-recipes-for-iot-edge-14-lts/	Announcing refreshed recipes for IoT Edge to build the latest 1.4 LTS release.	Thursday	Azure Updates
Generally available updates for mid-December 2022	https://azure.microsoft.com/en-us/updates/generally-available-updates-for-middecember-2022/	General availability enhancements and updates released for Azure SQL in mid-December 2022.	Thursday	Azure Updates
Public preview: Azure Arc enabled Azure Container Apps	https://azure.microsoft.com/en-us/updates/public-preview-azure-arc-enabled-azure-container-apps/	You can now run Azure Container Apps on your own Azure Arc-enabled Kubernetes clusters (AKS and AKS-HCI).	Thursday	Azure Updates
General availability: Azure Arc-enabled servers in Azure China	https://azure.microsoft.com/en-us/updates/general-availability-arc-servers-azure-china/	Secure, govern, and manage your hybrid servers from Azure	Friday	Azure Updates
Generally Available: Azure Dedicated Host – Restart	https://azure.microsoft.com/en-us/updates/generally-available-azure-dedicated-host-restart/	Introducing Azure dedicated host – Restart functionality	Friday	Azure Updates
General availability: Feature enhancements to Azure Web Application Firewall (WAF)	https://azure.microsoft.com/en-us/updates/general-availability-feature-enhancements-to-azure-web-application-firewall-waf/	Azure's WAF now supports multiple new features – SQLi and XSS detection queries, new built-in Azure policies, and increased exclusions limit with support for exclusions on [...]	Friday	Azure Updates
Public preview: Processor diagram in Physical Job Diagram for Stream Analytics job troubleshooting	https://azure.microsoft.com/en-us/updates/public-preview-processor-diagram-in-physical-job-diagram-for-stream-analytics-job-troubleshooting/	The processor diagram in physical job diagram provides you further insights within the streaming nodes of your stream analytics jobs.	Saturday	Azure Updates

Azure Architecture Center (5 new or updated articles)

Name	Link	Description	Publication Day	Category
Choose a data transfer technology	https://learn.microsoft.com/azure/architecture/data-guide/scenarios/data-transfer	Learn about data transfer options like the Azure Import/Export service, Azure Data Box, Azure Data Factory, and command-line and graphical interface tools.	Saturday	Azure Architecture,updated
Secure data solutions	https://learn.microsoft.com/azure/architecture/data-guide/scenarios/securing-data-solutions	Learn about data protection, access control, auditing, and Azure services and tools that help you secure data assets.	Saturday	Azure Architecture,updated
Extend on-premises data solutions to the cloud	https://learn.microsoft.com/azure/architecture/data-guide/scenarios/hybrid-on-premises-and-cloud	Learn about using hybrid cloud environments that span cloud and on-premises datacenters for migrating to the cloud or extending on-premises infrastructures.	Saturday	Azure Architecture,updated
Use a suitable data store	https://learn.microsoft.com/azure/architecture/guide/design-principles/use-best-data-store	Pick the storage technology that's the best fit for how you use your data. Learn about alternatives to relational databases. Consider polyglot persistence.	Saturday	Azure Architecture,updated
Hybrid ETL with Azure Data Factory	https://learn.microsoft.com/azure/architecture/example-scenario/data/hybrid-etl-with-adf	Create a hybrid ETL with existing on-premises SQL Server Integration Services (SSIS) deployments and Azure Data Factory.	Saturday	Azure Architecture,updated

Microsoft Learn (100 new or modified learn modules)

Name	Link	Description	Publication Day	Category
Write and test a program in Go	https://learn.microsoft.com/en-us/training/modules/go-write-test-program	By using what you've learned about Go, write and test a complete program.	Tuesday	Microsoft Learn,Azure
Monitor and report on security events in Azure Active Directory	https://learn.microsoft.com/en-us/training/modules/monitor-report-aad-security-events	Keep tabs on security events in your Azure Active Directory resources by using built-in reporting and monitoring capabilities. Respond to events as they happen, and address [...]	Tuesday	Microsoft Learn,Azure,Azure Active Directory,Azure Monitor
Manage end-to-end deployment scenarios by using Bicep and Azure Pipelines	https://learn.microsoft.com/en-us/training/modules/manage-end-end-deployment-scenarios-using-bicep-azure-pipelines	Build a deployment pipeline for Bicep infrastructure as code templates. Create a single pipeline to deploy infrastructure, applications, and data.	Tuesday	Microsoft Learn,Azure DevOps,Azure Pipelines,Azure Resource Manager
Introduction to Azure Machine Learning	https://learn.microsoft.com/en-us/training/modules/intro-to-azure-ml	Azure Machine Learning provides your software with automated data identification and extraction from your documents. Using an SDK or REST, the AI-powered service decreases, or can [...]	Tuesday	Microsoft Learn,Azure,Azure Machine Learning
Fundamentals of Azure RTOS NetX Duo	https://learn.microsoft.com/en-us/training/modules/azure-rtos-netx-duo-fundamentals	Fundamental concepts of Azure RTOS Duo	Tuesday	Microsoft Learn,Azure,Azure IoT,Azure RTOS
Build an industrial strength brain	https://learn.microsoft.com/en-us/training/modules/build-industrial-brain	Learn the concept of Machine Teaching to create a modular brain with an example.	Tuesday	Microsoft Learn,Azure,Project Bonsai
Create and deploy an Azure Logic Apps workflow using Azure Resource Manager templates	https://learn.microsoft.com/en-us/training/modules/create-deploy-logic-apps-using-arm-templates	Define an Azure Logic Apps workflow declaratively as a Resource Manager template and deploy the app using the Azure Command Line Interface (CLI).	Tuesday	Microsoft Learn,Azure,Azure Logic Apps,Azure Resource Manager
Create the first Azure RTOS NetX Duo project	https://learn.microsoft.com/en-us/training/modules/create-first-netx-duo-project	The first Azure RTOS NetX Duo project is built and run	Tuesday	Microsoft Learn,Azure,Azure IoT,Azure IoT Hub
Monitor and report on authentication methods used in Azure AD	https://learn.microsoft.com/en-us/training/modules/monitor-authentication-methods	This module teaches you how to create an Azure AD workbook that helps you to create a report of the authentication methods used in your tenant.	Tuesday	Microsoft Learn,Azure,Windows Active Directory
Introduction to Azure RTOS NetX Duo	https://learn.microsoft.com/en-us/training/modules/introduction-azure-rtos-netx-duo	Introduction to the module covering Azure RTOS NetX Duo.	Tuesday	Microsoft Learn,Azure,Azure IoT,Azure RTOS
Python functions	https://learn.microsoft.com/en-us/training/modules/functions-python	Functions are a foundational knowledge for writing modular code. Understanding inputs and outputs in functions will help you write better software that's reusable and readable.	Tuesday	Microsoft Learn,Azure
Train and evaluate clustering models	https://learn.microsoft.com/en-us/training/modules/train-evaluate-cluster-models	Clustering is a kind of machine learning that is used to group similar items into clusters.	Tuesday	Microsoft Learn,Azure
Describe Azure compute and networking services	https://learn.microsoft.com/en-us/training/modules/describe-azure-compute-networking-services	Introduction to Azure compute services (virtual machines, Azure Virtual Desktop, Azure Functions) and networking services (virtual networks, ExpressRoute, DNS, etc.).	Tuesday	Microsoft Learn,Azure
JavaScript arrays and loops	https://learn.microsoft.com/en-us/training/modules/web-development-101-arrays	JavaScript is a programming language used for web development as well as the server. Learn how to manipulate and store data within JavaScript.	Tuesday	Microsoft Learn,Azure
Code control statements in Python	https://learn.microsoft.com/en-us/training/modules/intermediate-python-nasa	Learn more advanced topics of Python.	Tuesday	Microsoft Learn,Azure
Test your Bicep code by using Azure Pipelines	https://learn.microsoft.com/en-us/training/modules/test-bicep-code-using-azure-pipelines	Build a deployment pipeline for Bicep infrastructure as code templates. Lint, validate, preview, and test your Bicep code by using Azure DevOps and Azure Pipelines.	Tuesday	Microsoft Learn,Azure DevOps,Azure Pipelines,Azure Resource Manager
Count the number of Moon rocks by type using Python	https://learn.microsoft.com/en-us/training/modules/count-moon-rocks-python-nasa	Use Python to make a simple program to count the number of each type of space rock.	Tuesday	Microsoft Learn,Azure
Use generic views in Django	https://learn.microsoft.com/en-us/training/modules/django-generic-views	Learn how to use generic views in the Python framework Django.	Tuesday	Microsoft Learn,Azure,Azure App Service

Declare variable types in TypeScript	https://learn.microsoft.com/en-us/training/modules/typescript-declare-variable-types	Learn about the available types and how to associate them with variables.	Tuesday	Microsoft Learn,Azure
Implement error handling and logging in Go	https://learn.microsoft.com/en-us/training/modules/go-errors-logs	Understand how to handle errors and log helpful information in your Go programs.	Tuesday	Microsoft Learn,Azure
React state and events	https://learn.microsoft.com/en-us/training/modules/react-states-events	Work with state and events in React and JavaScript.	Tuesday	Microsoft Learn,Azure App Service Static Web Apps
Introduction to rocket launches	https://learn.microsoft.com/en-us/training/modules/introduction-rocket-launch-nasa	Get an introduction to how NASA chooses dates for a rocket launch and discover machine learning fundamentals.	Tuesday	Microsoft Learn,Azure
Use control flows in Go	https://learn.microsoft.com/en-us/training/modules/go-control-flow	Learn to use control flows in Go.	Tuesday	Microsoft Learn,Azure
Automate machine learning workflows	https://learn.microsoft.com/en-us/training/modules/automate-machine-learning-workflows	Learn about automation for machine learning, machine learning operations, and MLOps.	Tuesday	Microsoft Learn,Azure DevOps,Azure Machine Learning,GitHub
Manage AD DS domain controllers and FSMO roles	https://learn.microsoft.com/en-us/training/modules/manage-active-directory-domain-services-flexible-single-master-operation-roles	Manage AD DS domain controllers and FSMO roles	Tuesday	Microsoft Learn,Windows Server
Test conditions with if/else expressions in Rust	https://learn.microsoft.com/en-us/training/modules/rust-if-else-expressions	Explore Rust compound data types like arrays, vectors, and hash maps. Discover how to use if/else statements to test conditions.	Tuesday	Microsoft Learn,Azure
Publish an API to Azure Static Web Apps	https://learn.microsoft.com/en-us/training/modules/publish-static-web-app-api-preview-url	Publish an Angular, React, Svelte, or Vue JavaScript app and API with Azure Static Web Apps and Azure Functions. Deploy your code from GitHub to a [...]	Tuesday	Microsoft Learn,Azure,Azure App Service,Azure App Service Static Web Apps,Azure Functions
Getting started with Vue CLI and single-file components in Vue.js.	https://learn.microsoft.com/en-us/training/modules/vue-cli-components	Learn to create components with Vue CLI and JavaScript.	Tuesday	Microsoft Learn,Azure App Service Static Web Apps
Replicate and monitor an Azure Cosmos DB for MongoDB account	https://learn.microsoft.com/en-us/training/modules/replicate-monitor-azure-cosmos-db-api-mongodb-account	Replicate and monitor an Azure Cosmos DB for MongoDB account	Tuesday	Microsoft Learn,Azure Cosmos DB
Configure Azure App Service plans	https://learn.microsoft.com/en-us/training/modules/configure-app-service-plans	Configure Azure App Service plans	Tuesday	Microsoft Learn,Azure App Service
Organize code using TypeScript namespaces	https://learn.microsoft.com/en-us/training/modules/typescript-namespaces-organize-code	Learn how to use TypeScript namespaces' to organize code.	Tuesday	Microsoft Learn,Azure
Data collection and manipulation	https://learn.microsoft.com/en-us/training/modules/collect-manipulate-data-python-nasa	Learn about the steps to import data into Python and clean the data for use in creating machine learning models.	Tuesday	Microsoft Learn,Azure
Manage meetings and events experiences	https://learn.microsoft.com/en-us/training/modules/manage-meetings-virtual-events-experiences	Learn about different meeting solutions in Microsoft Teams, various settings and policies for Teams meetings and live events, and configuration for Audio Conferencing.	Wednesday	Microsoft Learn,Microsoft 365,Microsoft Teams
Manage Teams Phone settings and policies	https://learn.microsoft.com/en-us/training/modules/manage-phone-system-for-microsoft-teams	Learn about various features in the Teams Phone and how to configure those features, including call queues, auto attendants, caller ID, and call park.	Wednesday	Microsoft Learn,Microsoft 365,Microsoft Teams
Develop for storage on CDNs	https://learn.microsoft.com/en-us/training/modules/develop-for-storage-cdns	Develop for storage on CDNs	Wednesday	Microsoft Learn,Azure Content Delivery Network
Manage apps for Microsoft Teams	https://learn.microsoft.com/en-us/training/modules/manage-apps-for-microsoft-teams	Manage apps for Microsoft Teams	Wednesday	Microsoft Learn,Microsoft 365,Microsoft Teams
Implement integrated cache in Azure Cosmos DB for NoSQL	https://learn.microsoft.com/en-us/training/modules/implement-integrated-cache	Implement integrated cache in Azure Cosmos DB for NoSQL	Wednesday	Microsoft Learn,Azure Cosmos DB
Introduction to blockchain on Azure	https://learn.microsoft.com/en-us/training/modules/intro-to-blockchain	Introduction to blockchain on Azure. See how blockchain allows business partners to trust each other's data without a central authority. You'll also learn a bit about [...]	Wednesday	Microsoft Learn,Azure
Plan and implement entitlement management	https://learn.microsoft.com/en-us/training/modules/plan-implement-entitlement-management	Plan and implement entitlement management	Wednesday	Microsoft Learn,Azure,Azure Active Directory

Implement Azure Synapse Link for SQL	https://learn.microsoft.com/en-us/training/modules/implement-synapse-link-for-sql	Implement Azure Synapse Link for SQL	Wednesday	Microsoft Learn,Azure SQL Database,Azure Synapse Analytics,SQL Server
Explore Microsoft Graph	https://learn.microsoft.com/en-us/training/modules/microsoft-graph	Explore Microsoft Graph	Wednesday	Microsoft Learn,Azure SDKs,Microsoft Graph
Implement security for Microsoft Teams	https://learn.microsoft.com/en-us/training/modules/implement-security-for-microsoft-teams	Implement security for Microsoft Teams	Wednesday	Microsoft Learn,Microsoft 365,Microsoft Teams
Plan, implement, and manage access review	https://learn.microsoft.com/en-us/training/modules/plan-implement-manage-access-review	Once identity is deployed, proper governance using access reviews is necessary for a secure solution. Explore how to plan for and implement access reviews.	Wednesday	Microsoft Learn,Azure,Azure Active Directory
Manage phone numbers and settings	https://learn.microsoft.com/en-us/training/modules/manage-phone-numbers	Learn about the calling solutions in Microsoft Teams and how to get and manage phone numbers with Calling Plans. You will also learn to manage voice [...]	Wednesday	Microsoft Learn,Microsoft 365,Microsoft Teams
Implement app registration	https://learn.microsoft.com/en-us/training/modules/implement-app-registration	Implement app registration	Wednesday	Microsoft Learn,Azure,Azure Active Directory
Manage access for external users	https://learn.microsoft.com/en-us/training/modules/manage-access-for-external-users	Manage access for external users	Wednesday	Microsoft Learn,Microsoft 365,Microsoft Teams
Plan and configure network settings for Microsoft Teams	https://learn.microsoft.com/en-us/training/modules/plan-configure-network-settings-for-microsoft-teams	Plan and configure network settings for Microsoft Teams	Wednesday	Microsoft Learn,Microsoft 365,Microsoft Teams
Select, sort, and measure objects using the pipeline	https://learn.microsoft.com/en-us/training/modules/select-sort-measure-objects-use-pipeline	Select, sort, and measure objects using the pipeline	Wednesday	Microsoft Learn,Azure,Azure Active Directory,Azure Cloud Shell,Azure PowerShell,Azure Virtual Machines,Microsoft 365,Visual Studio Code
Plan and implement privileged access	https://learn.microsoft.com/en-us/training/modules/plan-implement-privileged-access	Plan and implement privileged access	Wednesday	Microsoft Learn,Azure,Azure Active Directory
Configure and manage Microsoft Teams Room and Teams devices	https://learn.microsoft.com/en-us/training/modules/configure-manage-microsoft-teams-devices	Learn about the process to deploy and manage Teams devices, including devices selection, required resource accounts, devices provision, and devices management with configuration profiles and device [...]	Wednesday	Microsoft Learn,Microsoft 365,Microsoft Teams
Use Delta Lake in Azure Synapse Analytics	https://learn.microsoft.com/en-us/training/modules/use-delta-lake-azure-synapse-analytics	Delta Lake is an open source relational storage area for Spark that you can use to implement a data lakehouse architecture in Azure Synapse Analytics.	Wednesday	Microsoft Learn,Azure Synapse Analytics
Get started with testing in Python	https://learn.microsoft.com/en-us/training/modules/python-get-started-testing	Use Python's standard library module to write unit tests, and then get exposed to the concepts of other types of testing and how to apply them.	Wednesday	Microsoft Learn,Azure
Determine your endpoint management implementation	https://learn.microsoft.com/en-us/training/modules/determine-endpoint-implementation	After completing this module, you'll have a better understanding of your endpoint management objectives, device inventory considerations, licensing needs, infrastructure objectives, and rollout plans.	Wednesday	Microsoft Learn,Microsoft 365,Microsoft Endpoint Manager
Configure Azure App Service	https://learn.microsoft.com/en-us/training/modules/configure-azure-app-services	Configure Azure App Service	Thursday	Microsoft Learn,Azure App Service - Web Apps
Introduction to Azure Network Watcher	https://learn.microsoft.com/en-us/training/modules/intro-to-azure-network-watcher	This module explains what Azure Network Watcher does, how it works, and when you should choose to use Network Watcher as a solution to meet your [...]	Thursday	Microsoft Learn,Azure Network Watcher
Introduction to Azure ExpressRoute	https://learn.microsoft.com/en-us/training/modules/intro-to-azure-expressroute	This module explains what Azure ExpressRoute does, how it works, and when you should choose to use Azure ExpressRoute as a solution.	Thursday	Microsoft Learn,Azure ExpressRoute
Create your first Q# program by using the Quantum Development Kit	https://learn.microsoft.com/en-us/training/modules/qsharp-create-first-quantum-development-kit	Get started with Q# programming by building a quantum random number generator.	Thursday	Microsoft Learn,Azure Quantum,Quantum Development Kit

Getting Started with Microsoft Identity	https://learn.microsoft.com/en-us/training/modules/getting-started-identity	Getting Started with Microsoft Identity	Thursday	Microsoft Learn,entra Azure Active Directory,Microsoft 365
Permissions and Consent Framework	https://learn.microsoft.com/en-us/training/modules/identity-permissions-consent	Permissions and Consent Framework	Thursday	Microsoft Learn,entra Azure Active Directory,Microsoft 365
Get started with project accounting in Dynamics 365 Project Operations	https://learn.microsoft.com/en-us/training/modules/get-started-project-accounting	Microsoft Dynamics 365 Project Operations delivers a business solution complete with project accounting capabilities at every project phase.	Thursday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Finance and Operations,Dynamics 365 Project Operations
Guided project – Automate Node.js deployments with Azure Pipelines	https://learn.microsoft.com/en-us/training/modules/deploy-nodejs	Implement CI/CD pipeline for Node.js applications. Automate deployment of Vue, React, Angular or Webpack apps with Azure Pipelines.	Thursday	Microsoft Learn,Azure,Azure DevOps
Work with travel requisitions in Dynamics 365 Project Operations	https://learn.microsoft.com/en-us/training/modules/work-travel-requisitions	Learn how to work with travel requisitions in Microsoft Dynamics 365 Project Operations.	Thursday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Finance and Operations,Dynamics 365 Project Operations
Create and process expense reports in Dynamics 365 Project Operations	https://learn.microsoft.com/en-us/training/modules/create-process-expense-reports	Learn how to create and process expense reports in Microsoft Dynamics 365 Project Operations.	Thursday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Finance and Operations,Dynamics 365 Project Operations
Explore the architecture of Dynamics 365 Project Operations	https://learn.microsoft.com/en-us/training/modules/explore-architecture-project-operations	Learn about the architecture of Dynamics 365 Project Operations.	Thursday	Microsoft Learn,Dynamics 365,Dynamics 365 Field Service,Dynamics 365 Finance,Dynamics 365 Finance and Operations,Dynamics 365 Project Operations,Dynamics 365 Sales,Dynamics 365 Supply Chain Management
Deploy Dynamics 365 Project Operations scenarios	https://learn.microsoft.com/en-us/training/modules/deploy-project-operations	Microsoft Dynamics 365 Project Operations supports multiple deployment options for new and existing Dynamics 365 customers.	Thursday	Microsoft Learn,Dynamics 365,Dynamics 365 Project Operations
Automate Docker container deployments with Azure Pipelines	https://learn.microsoft.com/en-us/training/modules/deploy-docker	Implement a CI/CD pipeline for Docker containers.	Thursday	Microsoft Learn,Azure,Azure DevOps
Get started with invoicing in Dynamics 365 Project Operations	https://learn.microsoft.com/en-us/training/modules/get-started-invoicing-project-operations	Microsoft Dynamics 365 Project Operations for resource/non-stocked based scenarios offers comprehensive capabilities that are tailored to fit the needs of project managers and Accounts receivable clerk/project [...]	Thursday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Finance and Operations,Dynamics 365 Project Operations,Dynamics 365 Sales
Implement and manage hybrid identity	https://learn.microsoft.com/en-us/training/modules/implement-manage-hybrid-identity	Creating a hybrid-identity solution to use your on-premises active directory can be challenging. Explore how to implement a secure hybrid-identity solution.	Thursday	Microsoft Learn,Azure,entra Azure Active Directory
Set up and configure Expense management in Dynamics 365 Project Operations	https://learn.microsoft.com/en-us/training/modules/set-up-configure-expense-management	Learn how to set up and configure Expense management in Microsoft Dynamics 365 Project Operations.	Thursday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Finance and Operations,Dynamics 365 Project Operations
Create a release pipeline in Azure Pipelines	https://learn.microsoft.com/en-us/training/modules/create-release-pipeline	Set up a continuous delivery (CD) pipeline that automates the process of deploying your application.	Thursday	Microsoft Learn,Azure,Azure DevOps
Get started with project management in Dynamics 365 Project Operations	https://learn.microsoft.com/en-us/training/modules/get-started-project-management	The project management tools in Dynamics 365 Project Operations help you to run projects. The scheduling tools help project managers and teams stay productive.	Thursday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Finance and Operations,Dynamics 365 Project Operations
Get started with Expense management in Dynamics 365 Project Operations	https://learn.microsoft.com/en-us/training/modules/get-started-expense-management	Learn about the Expense management module in Microsoft Dynamics 365 Project Operations, which allows organizations to track and manage employee expenses.	Thursday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Finance and Operations,Dynamics 365 Project Operations
Get started with project sales management in Dynamics 365 Project Operations	https://learn.microsoft.com/en-us/training/modules/get-started-project-sales-management	The sales processes that are used in a project-based organization differ from the sales processes that are used in a product-based organization. The reason is because [...]	Thursday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Finance and Operations,Dynamics 365 Project Operations,Dynamics 365 Sales
Get started with work management in	https://learn.microsoft.com/en-us/training/modules/get-started-project-work-management	Simplify time tracking and expense management with Microsoft Dynamics 365 Project Operations.	Thursday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics

Dynamics 365 Project Operations		Submit, approve, process, and reconcile time and expense entries instantaneously for faster reimbursement and [...]		365 Finance and Operations,Dynamics 365 Project Operations
Get started with resource management in Dynamics 365 Project Operations	https://learn.microsoft.com/en-us/training/modules/get-started-project-resource-management	Resources are the most important assets of a service-based organization.	Thursday	Microsoft Learn,Dynamics 365,Dynamics 365 Field Service,Dynamics 365 Finance,Dynamics 365 Project Operations
Get started with Dynamics 365 Project Operations	https://learn.microsoft.com/en-us/training/modules/get-started-project-operations	Learn about Dynamics 365 Project Operations and how it empowers business users to adapt to rapidly changing business environments and manage the entire life cycle of [...]	Thursday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Finance and Operations,Dynamics 365 Project Operations
Administer Business Central online	https://learn.microsoft.com/en-us/training/modules/admin-online-dynamics-365-business-central	Learn how to administer your Business Central environment and tenants, from joining the Cloud Solution Provider program to configuring monitoring.	Thursday	Microsoft Learn,Dynamics 365,Dynamics 365 Business Central
Manage release cadence in Azure Pipelines by using deployment patterns	https://learn.microsoft.com/en-us/training/modules/manage-release-cadence	Choose and implement a deployment pattern that helps you smoothly roll out new application features to your users.	Thursday	Microsoft Learn,Azure,Azure DevOps
Automate Python deployments with Azure Pipelines	https://learn.microsoft.com/en-us/training/modules/deploy-python	Implement a CI/CD pipeline for Python.	Thursday	Microsoft Learn,Azure,Azure DevOps
Run nonfunctional tests in Azure Pipelines	https://learn.microsoft.com/en-us/training/modules/run-non-functional-tests-azure-pipelines	Run automated load tests by using Apache JMeter, a form of nonfunctional testing, in Azure Pipelines.	Thursday	Microsoft Learn,Azure,Azure DevOps
Run quality tests in your build pipeline by using Azure Pipelines	https://learn.microsoft.com/en-us/training/modules/run-quality-tests-build-pipeline	Find out about automated testing that proves your code to be maintainable, understandable, and functioning without repetitive manual testing.	Thursday	Microsoft Learn,Azure DevOps
Create a build pipeline with Azure Pipelines	https://learn.microsoft.com/en-us/training/modules/create-a-build-pipeline	Set up a continuous integration (CI) pipeline that automates the process of building your application.	Thursday	Microsoft Learn,Azure DevOps,Azure Pipelines
Create a multistage pipeline by using Azure Pipelines	https://learn.microsoft.com/en-us/training/modules/create-multi-stage-pipeline	Design and create a realistic release pipeline that promotes changes to various testing and staging environments.	Thursday	Microsoft Learn,Azure,Azure DevOps
Construct KQL statements for Microsoft Sentinel	https://learn.microsoft.com/en-us/training/modules/construct-kusto-query-language-statements	Construct KQL statements for Microsoft Sentinel	Friday	Microsoft Learn,Azure,Azure Sentinel
Introduction to Azure Load Balancer	https://learn.microsoft.com/en-us/training/modules/intro-to-azure-load-balancer	This module explains what Azure Load Balancer does, how it works, and when you should choose to use Load Balancer as a solution to meet your [...]	Friday	Microsoft Learn,Azure Load Balancer
Configure Azure Container Instances	https://learn.microsoft.com/en-us/training/modules/configure-azure-container-instances	Learn how to configure Azure Container Instances including container groups.	Friday	Microsoft Learn,Azure Container Instances
Work with Trade master data in Microsoft Dynamics 365 Business Central	https://learn.microsoft.com/en-us/training/modules/trade-master-data-dynamics-365-business-central	Learn about the master data that is important when you work with Trade in Business Central. This module also provides an overview of items, customers, and [...]	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Business Central
Use Azure and external tools to manipulate data	https://learn.microsoft.com/en-us/training/modules/understand-azure-dataverse	Learn how to use Azure and external tools to manipulate data.	Friday	Microsoft Learn,Microsoft Power Platform,Microsoft Power Platform Power Apps
Create your first route finding app with Azure Maps	https://learn.microsoft.com/en-us/training/modules/create-your-first-app-with-azure-maps	Learn about writing code to interact with Azure Maps. Develop and test a fun app using JavaScript and Visual Studio Code to find the best route [...]	Friday	Microsoft Learn,Azure IoT,Azure Maps
Identify abnormal time-series data with Anomaly Detector	https://learn.microsoft.com/en-us/training/modules/identify-abnormal-time-series-data-anomaly-detector	Learn how to detect anomalies in real-time from an IoT time-series data stream using univariate Azure Anomaly Detector API. In addition, users will learn how to [...]	Friday	Microsoft Learn,Azure,Azure Anomaly Detector,Azure Cloud Services,Azure Cognitive Services,Azure IoT Hub
Analyze your Microsoft 365 workplace data using Microsoft Viva Insights	https://learn.microsoft.com/en-us/training/modules/analyze-your-microsoft-365-employee-data-use-microsoft-viva-insights	Analyze your Microsoft 365 workplace data using Microsoft Viva Insights	Friday	Microsoft Learn,Microsoft 365,Office 365

Discover the potential of Azure for government	https://learn.microsoft.com/en-us/training/modules/discover-azure-government	Discussion of the benefits of the public cloud for public sector agencies, with special attention to how Azure can be helpful to them.	Friday	Microsoft Learn,Azure,Azure Blueprints,Azure FarmBeats,Azure IoT Hub,Azure Stack Hub
Set up and manage Dynamics 365 Marketing	https://learn.microsoft.com/en-us/training/modules/get-started-set-up-and-manage	Are you interested in marketing applications? This module explains how to sign up for a free trial or purchase Dynamics 365 Marketing. It also explains how [...]	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Marketing
Perform a bank reconciliation in Dynamics 365 Business Central	https://learn.microsoft.com/en-us/training/modules/bank-reconciliation-dynamics-365-business-central	Do you want to find out how to reconcile bank accounts in Dynamics 365 Business Central? Then this module is for you. The bank reconciliation feature [...]	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Business Central
Implement compliance for Microsoft Teams	https://learn.microsoft.com/en-us/training/modules/implement-compliance-for-microsoft-teams	Implement compliance for Microsoft Teams	Friday	Microsoft Learn,Microsoft 365,Microsoft Teams
Manage collaboration experiences for chat and channels	https://learn.microsoft.com/en-us/training/modules/manage-collaboration-experiences-for-chat-channels	Manage collaboration experiences for chat and channels	Friday	Microsoft Learn,Microsoft 365,Microsoft Teams
Create and manage teams	https://learn.microsoft.com/en-us/training/modules/create-manage-teams	Create and manage teams	Friday	Microsoft Learn,Microsoft 365,Microsoft Teams
Troubleshoot audio, video, and client issues	https://learn.microsoft.com/en-us/training/modules/troubleshoot-audio-video-client-issues	Learn about the troubleshooting approaches for audio, video, and client issues in Teams, including collecting appropriate logs and identifying problems with different reports and dashboards.	Friday	Microsoft Learn,Microsoft 365,Microsoft Teams
Enable and manage Microsoft Defender for Cloud	https://learn.microsoft.com/en-us/training/modules/azure-security-center	Use Azure Security Center, Azure Defender, and Secure Score to track and improve your security posture in Azure.	Friday	Microsoft Learn,Azure,Azure Defender,Azure Security Center
Secure your hybrid and multicloud machines through Azure Arc-enabled servers	https://learn.microsoft.com/en-us/training/modules/secure-azure-arc-enabled-servers	Understand the security capabilities of Azure Arc-enabled servers. Learn about the benefits of and how to onboard Azure Arc-enabled servers to Microsoft Defender for Cloud, Microsoft [...]	Friday	Microsoft Learn,Azure,azure-arc
