Weekly Update: Saturday September 10 2022 to Saturday September 17 2022

Azure Updates (26 new azure updates)

Name	Link	Description	Publication Day	Category
General availability: Standard network features for Azure NetApp Files	https://azure.microsoft.com/en-us/updates/general-availability-standard-network-features-for-azure-netapp-files/	Standard network features for Azure NetApp Files is generally available in 20 regions.	Tuesday	Azure Updates
Generally available: Reserved capacity for Azure Backup Storage	https://azure.microsoft.com/en-us/updates/reserved-capacity-pricing-for-backup-storage/	Reserved capacity for Azure Backup Storage is now available.	Tuesday	Azure Updates
Generally available: Azure Dedicated Host support for Ultra Disk Storage	https://azure.microsoft.com/en-us/updates/generally-available-azure-dedicated-host-support-for-ultra-ssd/	Introducing support for ultra disks on Azure dedicated host.	Wednesday	Azure Updates
General availability: Azure Sphere OS version 22.09 expected on September 22	https://azure.microsoft.com/en-us/updates/general-availability-azure-sphere-os-version-2209-expected-on-september-22/	Participate in the 22.09 retail evaluation now to ensure full compatibility. The OS evaluation period provides 14 days for backward compatibility testing.	Wednesday	Azure Updates
Public preview: Encrypt managed disks with cross-tenant customer-managed keys	https://azure.microsoft.com/en-us/updates/public-preview-encrypt-managed-disks-with-cross-tenant-customer-managed-keys/	Protect your data by encrypting Premium SSD, Standard SSD, and Standard HDD managed disks with customer-managed keys.	Thursday	Azure Updates
Generally available: API Management DevOps Resource Toolkit v1.0.0	https://azure.microsoft.com/en-us/updates/generally-available-api-management-devops-resource-toolkit-v100/	Easily deploy APIs in a CI/CD pipeline with API Management DevOps Resource Toolkit v1.0.0.	Thursday	Azure Updates
Generally available: Built-in Azure Monitor alerts for Azure Backup	https://azure.microsoft.com/en-us/updates/generally-available-built-in-azure-monitor-alerts-for-azure-backup/	Learn about the new and improved alerting capabilities offered for Azure Backup, via Azure Monitor.	Thursday	Azure Updates
Public preview: gRPC support in Azure App Service	https://azure.microsoft.com/en-us/updates/public-preview-grpc-support-in-azure-app-service/	gRPC support is enabled for Linux workloads across App Service.	Thursday	Azure Updates
Generally available: Action groups can now be saved and processed within Europe	https://azure.microsoft.com/en-us/updates/generally-available-action-groups-can-now-be-saved-and-processed-within-europe/	Action groups can now be saved in European regions Sweden Central and Germany West Central (in addition to the default "global" region).	Thursday	Azure Updates
General availability: Update on metric alert rules on custom metrics	https://azure.microsoft.com/en-us/updates/general-availability-update-on-metric-alert-rules-on-custom-metrics/	Metric alert rules that monitor custom metrics can now be saved in four European regions: North Europe, West Europe, Sweden Central, and Germany West Central	Thursday	Azure Updates
Public preview: Monitoring for Ampere Altra Arm-based VMs and AKS clusters	https://azure.microsoft.com/en-us/updates/public-preview-monitoring-for-ampere-altra-arm-based-vm-and-aks-clusters/	Azure Monitor now supports monitoring for Arm-based Azure Virtual Machines and Azure Kubernetes Service with Arm nodes.	Thursday	Azure Updates
Public preview: Soft delete in Azure Container Registry	https://azure.microsoft.com/en-us/updates/public-preview-soft-delete-in-azure-container-registry/	You can now restore deleted artifacts from your Azure Container Registry.	Thursday	Azure Updates
Public preview: Windows Network Policy Manager for Windows server 2022 in AKS	https://azure.microsoft.com/en-us/updates/public-preview-windows-network-policy-manager-for-windows-server-2022-in-aks/	You can now add Azure network policies to Windows 2022 server in AKS.	Thursday	Azure Updates
Public preview: Operation abort	https://azure.microsoft.com/en-us/updates/public-preview-operation-abort/	Stop an ongoing cluster or agentpool operation in emergency situations.	Thursday	Azure Updates
Generally available: Multi-instance GPU support in AKS	https://azure.microsoft.com/en-us/updates/generally-available-multiinstance-gpu-support-in-aks/	You can now run your AKS production workloads using the A100 GPU SKU.	Thursday	Azure Updates
Public preview: Azure Database for MySQL – Flexible Server major version upgrade	https://azure.microsoft.com/en-us/updates/public-preview-azure-database-for-mysql-flexible-server-major-version-upgrade/	Upgrade your instance of Azure Database for MySQL – Flexible Server from version 5.7 to 8.0.	Thursday	Azure Updates
Public preview: Azure	https://azure.microsoft.com/en-us/updates/public-preview-azure-database-for-mysql-flexible-server-major-version-upgrade/	Upgrade your instance of Azure Database for MySQL –	Thursday	Azure

Database for MySQL – Flexible Server major version upgrade	us/updates/public-preview-azure-database-for-mysql-flexible-server-major-version-upgrade/	Flexible Server from version 5.7 to 8.0.		Updates
Generally available: Fast restore for Azure Database for PostgreSQL – Flexible Server	https://azure.microsoft.com/en-us/updates/generally-available-fast-restore-for-azure-database-for-postgresql-flexible-server/	Perform restores from the backup snapshot directly to speed up the overall provisioning time for your restored server with fast restore.	Thursday	Azure Updates
Generally available: Fast restore for Azure Database for PostgreSQL – Flexible Server	https://azure.microsoft.com/en-us/updates/generally-available-fast-restore-for-azure-database-for-postgresql-flexible-server/	Perform restores from the backup snapshot directly to speed up the overall provisioning time for your restored server with fast restore.	Thursday	Azure Updates
General availability: Azure Database for MySQL – Flexible Server data encryption with CMK	https://azure.microsoft.com/en-us/updates/general-availability-azure-database-for-mysql-flexible-server-data-encryption-with-cmk/	Encrypt your data with customer-managed keys (CMK) to enable an extra layer of security for data at rest.	Thursday	Azure Updates
General availability: Azure Database for MySQL – Flexible Server data encryption with CMK	https://azure.microsoft.com/en-us/updates/general-availability-azure-database-for-mysql-flexible-server-data-encryption-with-cmk/	Encrypt your data with customer-managed keys (CMK) to enable an extra layer of security for data at rest.	Thursday	Azure Updates
General availability: Read replica for Azure Database for MySQL – Flexible Server	https://azure.microsoft.com/en-us/updates/general-availability-read-replica-for-azure-database-for-mysql-flexible-server/	Provision up to 10 read replicas for high availability (HA) enabled servers in Azure Database for MySQL – Flexible Server.	Thursday	Azure Updates
General availability: Read replica for Azure Database for MySQL – Flexible Server	https://azure.microsoft.com/en-us/updates/general-availability-read-replica-for-azure-database-for-mysql-flexible-server/	Provision up to 10 read replicas for high availability (HA) enabled servers in Azure Database for MySQL – Flexible Server.	Thursday	Azure Updates
Public preview: Azure Load Testing in UK South	https://azure.microsoft.com/en-us/updates/public-preview-azure-load-testing-in-uk-south/	Azure Load Testing is in public preview in UK South.	Thursday	Azure Updates
General availability: Azure Media Services low-latency live streaming	https://azure.microsoft.com/en-us/updates/general-availability-azure-media-services-lowlatency-live-streaming/	Azure Media Services is announcing the general availability of low-latency HLS with glass-to-glass latency between 4-7 seconds with support for automatic transcriptions and digital rights management.	Friday	Azure Updates
Generally available: Resizing of peered virtual networks	https://azure.microsoft.com/en-us/updates/resizing-of-peered-virtual-networks-is-now-generally-available/	You can use this feature to resize or update the IP address of your peered virtual networks without removing the peering.	Friday	Azure Updates
