Azure Updates (18 new azure updates)

Name	Link	Description	Publication Day	Category
General Availability: Azure CNI Overlay	https://azure.microsoft.com/en-us/updates/azurecnioverlay/	Azure CNI Overlay utilizes an overlay network to reduce IP utilization while providing better performance and scale.	Tuesday	Azure Updates,AzureContainerNetworking
Regional expansion: Azure Elastic SAN Public Preview is now available in more regions.	https://azure.microsoft.com/en-us/updates/regional-expansion-azure-elastic-san-public-preview-is-now-available-in-more-regions/	Azure Elastic SAN (preview) is now available in Australia East, North Europe, Sweden Central, UK South, West Europe, East US, East US 2, South Central US, [...]	Tuesday	Azure Updates,Azure Portal
Azure Storage Mover is now Generally Available	https://azure.microsoft.com/en-us/updates/azure-storage-mover-is-now-generally-available/	We are excited to announce that Azure Storage Mover is now generally available.	Tuesday	Azure Updates
Public Preview: Isovalent Cilium Enterprise through Azure Marketplace	https://azure.microsoft.com/en-us/updates/ciliumenterpriseonazuremarketplace/	Isovalent Cilium Enterprise is now available to Azure Kubernetes Service (AKS) customers in the Microsoft Azure Marketplace marking a key milestone in delivering the expansive eBPF-powered [...]	Wednesday	Azure Updates
Generally Available: Azure App Service – New Premium v3 Offerings	https://azure.microsoft.com/en-us/updates/generally-available-azure-app-service-new-premium-v3-offerings/	Introducing two new offerings in the Premium v3 (Pv3) service tier on Azure App Service	Wednesday	Azure Updates,app service
Hotpatch is now available on preview images of Windows Server VMs on Azure with the Desktop	https://azure.microsoft.com/en-us/updates/hotpatch-is-now-available-on-preview-images-of-windows-server-vm-on-azure-with-the-desktop-experience-installation-mode/	Hotpatch is available for preview images of Windows Server Azure Edition VMs running the Desktop	Wednesday	Azure Updates

Experience installation mode		Experience installation mode.		
Azure Service Operator stable release version 2.0 now available	https://azure.microsoft.com/en-us/updates/azure-service-operator-stable-release-version-20-now-available-2/	Create and manage over 100 Azure resources such as databases, storage accounts, VMs, and more from within Kubernetes.	Wednesday	Azure Updates
GA: Azure Active Directory workload identity with AKS	https://azure.microsoft.com/en-us/updates/ga-azure-active-directory-workload-identity-with-aks-2/	You can now use AAD workload identity with AKS in production	Wednesday	Azure Updates
OpenCost for AKS cost visibility	https://azure.microsoft.com/en-us/updates/opencost-for-aks-cost-visibility/	Get greater visibility into current and historic Kubernetes spend and resource allocation..	Wednesday	Azure Updates
Generally Available: Azure CNI Overlay for Linux	https://azure.microsoft.com/en-us/updates/generally-available-azure-cni-overlay-for-linux/	Simplify your AKS cluster management, routing configurations, and efficiently scale your clusters.	Wednesday	Azure Updates
Generally Available: Long term support version in AKS	https://azure.microsoft.com/en-us/updates/generally-available-long-term-support-version-in-aks/	You now have the option to enable long term support for a specific Kubernetes version.	Wednesday	Azure Updates
Karpenter support in AKS	https://azure.microsoft.com/en-us/updates/karpenter-support-in-aks/	Karpenter support in AKS simplifies the task of having the right infrastructure for your workloads.	Wednesday	Azure Updates
Public preview: AKS service mesh addon for Istio	https://azure.microsoft.com/en-us/updates/public-preview-aks-service-mesh-addon-for-istio/	Installing and using Istio on your AKS clusters is now easier.	Wednesday	Azure Updates
Generally Available: Kubernetes 1.26 support in AKS	https://azure.microsoft.com/en-us/updates/generally-available-kubernetes-126-support-in-aks/	Benefit from Kubernetes 1.26 features in production.	Wednesday	Azure Updates
Public preview: Fail Fast Upgrade on API Breaking change detection	https://azure.microsoft.com/en-us/updates/public-preview-fail-fast-upgrade-on-api-breaking-change-detection/	Use this feature to reduce time you have to spend on post upgrade workload troubleshooting	Wednesday	Azure Updates
Public preview: Azure Container Apps	https://azure.microsoft.com/en-us/updates/public-preview-azure-container-apps-available-in-azure-china/	You can now use Azure Container Apps in Azure China.	Thursday	Azure Updates

available in Azure China				
Azure CycleCloud 8.4.0 release	https://azure.microsoft.com/en-us/updates/cyclecloud840/	We're excited to announce the release of CycleCloud 8.4.0. Here is the list of the improvements and bug fixes: New Features • Slurm 3.0 is now [...]	Thursday	Azure Updates
General Availability: Support for Linux clients to use identity-based access to Azure file shares over SMB	https://azure.microsoft.com/en-us/updates/azurefilessmblinuxad/	Linux SMB clients can now use Azure Files identity based authentication and authorization. This capability is available to devices that are domain joined to either customer-managed Microsoft AD [...]	Thursday	Azure Updates

Microsoft Learn (99 new or modified learn modules)

Name	Link	Description	Publication Day	Category
Explore sensitivity labels	https://learn.microsoft.com/en-us/training/modules/explore-sensitivity-labels-microsoft-365	This module examines how sensitivity labels from the Microsoft Information Protection solution let you classify and protect your organization's data, while making sure that user productivity [...]	Wednesday	Microsoft Learn,Microsoft 365,Office 365
Responding to Data Subject Requests (DSRs)	https://learn.microsoft.com/en-us/training/modules/azure-data-subject-requests	Know, understand, and be able to describe Data Subject Requests (DSRs), and learn how to manage DSRs on Azure and Microsoft 365.	Wednesday	Microsoft Learn,Azure,entra Azure Active Directory,Microsoft 365 Microsoft Information Protection
Refine and test machine learning models	https://learn.microsoft.com/en-us/training/modules/test-machine-learning-models	When we think of machine learning, we often focus on the training process. A small amount of preparation before this process can not only speed up [...]	Wednesday	Microsoft Learn,Azure
Monitor and troubleshoot Teams Phone	https://learn.microsoft.com/en-us/training/modules/monitor-troubleshoot-teams-phone-system	Troubleshooting is an important task that includes troubleshooting of phone number assignment, call failure and quality issues, client issues, and device issues. Call Analytics and Call [...]	Wednesday	Microsoft Learn,Microsoft 365,Microsoft Teams
Copy and move blobs from one container or storage account to another using the Azure CLI.	https://learn.microsoft.com/en-us/training/modules/copy-blobs-using-azure-cli	Use the Azure CLI to migrate files between Azure storage accounts.	Wednesday	Microsoft Learn,Azure
Copy and move blobs from one	https://learn.microsoft.com/en-us/training/modules/copy-blobs-using-	Use AzCopy to migrate files between Azure	Wednesday	Microsoft Learn,Azure

container or storage account to another using the AzCopy command.	azcopy .	Storage accounts.		
Use events and triggers in Dynamics 365 Business Central	https://learn.microsoft.com/en-us/training/modules/events-triggers	Do you want to know how to access different table and page triggers? Do you also want to learn how to develop by using event-based architecture? [...]	Wednesday	Microsoft Learn,Dynamics 365,Dynamics 365 Business Central
Create custom procedures in Dynamics 365 Business Central	https://learn.microsoft.com/en-us/training/modules/create-custom-functions	Do you want to create custom procedures in AL? This module focuses on explaining how you can create new procedures. Additionally, it describes the difference between [...]	Wednesday	Microsoft Learn,Dynamics 365,Dynamics 365 Business Central
Introduction to the basics of AL programming in Dynamics 365 Business Central	https://learn.microsoft.com/en-us/training/modules/intro-basics-al-programming	Are you interested in learning about the basics of application language (AL) programming? If so, this module introduces basics such as variables, data types, and more.	Wednesday	Microsoft Learn,Dynamics 365,Dynamics 365 Business Central
Configure, deploy, and manage Teams devices	https://learn.microsoft.com/en-us/training/modules/configure-deploy-manage-teams-devices	Teams devices provide a familiar experience and are essential for a hybrid workspace. Learn how to provision and manage devices, and associated device accounts.	Wednesday	Microsoft Learn,Microsoft 365,Microsoft Teams
Create and manage sensitive information types	https://learn.microsoft.com/en-us/training/modules/create-manage-sensitive-information-types	Create and manage sensitive information types	Wednesday	Microsoft Learn,Microsoft 365,Microsoft 365 Microsoft Information Protection
Explore identity synchronization	https://learn.microsoft.com/en-us/training/modules/explore-identity-synchronization	This module examines identity synchronization using Azure AD Connect and explores the authentication and provisioning options that can be used and the inner-workings of directory synchronization.	Wednesday	Microsoft Learn,Microsoft 365,Office 365
Manage synchronized identities	https://learn.microsoft.com/en-us/training/modules/manage-synchronized	This module examines how to manage user identities when Azure AD Connect is configured, how to manage users and groups in Microsoft 365 with Azure AD [...]	Wednesday	Microsoft Learn,Microsoft 365,Office 365
Protect your on-premises infrastructure from disasters with Azure Site Recovery	https://learn.microsoft.com/en-us/training/modules/protect-on-premises-infrastructure-with-azure-site-recovery	Provide disaster recovery for your on-premises infrastructure by managing and orchestrating replication, failover, and failback of VMware virtual machines, Hyper-V virtual machines, and physical servers with [...]	Wednesday	Microsoft Learn,Azure,Azure Site Recovery
Explore migration options for SAP on Azure	https://learn.microsoft.com/en-us/training/modules/explore-migration-options	This module explores strategies for migration of SAP workloads to Azure, including migration of on-premises SAP workloads to Azure in conjunction to	Wednesday	Microsoft Learn,Azure

		performing an upgrade. Prepare [...]		
Protect your Azure infrastructure with Azure Site Recovery	https://learn.microsoft.com/en-us/training/modules/protect-infrastructure-with-site-recovery	Provide disaster recovery for your Azure infrastructure by customizing replication, failover, and failback of Azure virtual machines with Azure Site Recovery.	Wednesday	Microsoft Learn,Azure,Azure Site Recovery
Design your site recovery solution in Azure	https://learn.microsoft.com/en-us/training/modules/design-your-site-recovery-solution-in-azure	Protect your applications and data from disasters with a well-designed site recovery solution.	Wednesday	Microsoft Learn,Azure,Azure Backup,Azure Site Recovery
Introduction to SQL Server 2022	https://learn.microsoft.com/en-us/training/modules/introduction-to-sql-server-2022	Training module to learn about new major capabilities of SQL Server 2022 from cloud connected features to core engine capabilities.	Wednesday	Microsoft Learn,SQL Server
Modify the content of strings using built-in string data type methods in C#	https://learn.microsoft.com/en-us/training/modules/csharp-modify-content	Modify the content of strings using built-in string data type methods in C#	Wednesday	Microsoft Learn,.NET Framework,Visual Studio Code
Data ingestion to recommendations for Dynamics 365 Commerce	https://learn.microsoft.com/en-us/training/modules/data-ingestion-recommendations-commerce	Learn about the process from getting data to forming recommendations in Dynamics 365 Commerce.	Wednesday	Microsoft Learn,Dynamics 365,Dynamics 365 Commerce
Recommendation models and user experience in Dynamics 365 Commerce	https://learn.microsoft.com/en-us/training/modules/recommendation-user-experience-commerce	Learn about recommendation models and user experience in Dynamics 365 Commerce.	Wednesday	Microsoft Learn,Dynamics 365,Dynamics 365 Commerce
Prepare for identity synchronization to Microsoft 365	https://learn.microsoft.com/en-us/training/modules/prepare-synchronization-microsoft-365	This module examines all the planning aspects that must be considered when implementing directory synchronization between on-premises Active Directory and Microsoft 365.	Wednesday	Microsoft Learn,Microsoft 365,Office 365
Stay connected with remote learning through Microsoft Teams and Office 365	https://learn.microsoft.com/en-us/training/modules/staying-connected-remote-learning-microsoft-teams-office-365	Are you moving from a face-to-face classroom to an online/remote learning experience? This module explores the considerations, procedures, and planning that administrators and educators will need [...]	Thursday	Microsoft Learn,Microsoft Teams,Office 365,Office OneNote
Learn about data privacy with Minecraft Education —CyberSafe: Privacy Prodigy	https://learn.microsoft.com/en-us/training/modules/learn-data-privacy-minecraft-education-cybersafe-privacy-prodigy	Introduce data privacy to students through Minecraft Education! Through the immersive Privacy Prodigy map, participants will learn what is data, who should have access to their [...]	Thursday	Microsoft Learn,Minecraft
Introduction to the Microsoft Viva suite	https://learn.microsoft.com/en-us/training/modules/viva-suite-introduction	This module provides an introductory level overview of the general usage, and setup processes of the various Viva experiences that make up the Microsoft Viva suite. [...]	Thursday	Microsoft Learn,Microsoft 365,Microsoft Viva,Microsoft Viva Connections,Microsoft Viva Viva Insights,Microsoft Viva Viva Learning,Microsoft Viva Viva Topics

Launch and monitor Viva Connections	https://learn.microsoft.com/en-us/training/modules/viva-connections-launch-and-monitor	Learn how to test, launch, evaluate, and monitor Viva Connections.	Thursday	Microsoft Learn,Microsoft 365,Microsoft Viva,Microsoft Viva Viva Connections
Introduction to Viva Connections	https://learn.microsoft.com/en-us/training/modules/viva-connections-introduction	Learn what is Viva Connections, what users experience with it, when to use Viva Connections, and its technical requirements.	Thursday	Microsoft Learn,Microsoft 365,Microsoft Viva,Microsoft Viva Viva Connections
Plan for Viva Connections	https://learn.microsoft.com/en-us/training/modules/viva-connections-plan	Learn to build a team of stakeholders to plan for Viva Connections, how to conduct the needs assessment, how to plan for deployment and launch.	Thursday	Microsoft Learn,Microsoft 365,Microsoft Viva,Microsoft Viva Viva Connections
Introduction to Viva Learning	https://learn.microsoft.com/en-us/training/modules/viva-learning-introduction	Learn what Viva Learning is, what admins and regular users can do with it, when to use Viva Learning, where the data for Viva Learning is [...]	Thursday	Microsoft Learn,Microsoft 365,Microsoft Viva,Microsoft Viva Viva Learning
Migrate VMware resources on-premises to Azure VMware Solution	https://learn.microsoft.com/en-us/training/modules/migrate-vmware-workloads-on-premises-azure-vmware-solution	Learn how to migrate virtual machines from an on-premises VMware environment to Azure VMware Solution by using VMware HCX.	Thursday	Microsoft Learn,Azure,Azure VMware Solution
Set up Viva Connections	https://learn.microsoft.com/en-us/training/modules/viva-connections-set-up	You'll learn how to prepare the environment for Viva Connections, build the Dashboard, and prepare the content for the Feed. You'll also learn set up Resources, [...]	Thursday	Microsoft Learn,Microsoft 365,Microsoft Viva,Microsoft Viva Viva Connections
Get started with Dynamics 365 Human Resources	https://learn.microsoft.com/en-us/training/modules/introduction-human-resources	With its modern benefits and programs, Microsoft Dynamics 365 Human Resources helps you attract and retain talent. This module helps you get started with Human Resources.	Thursday	Microsoft Learn,Dynamics 365,Dynamics 365 Human Resources
Migrate to Azure through repeatable processes and common tools	https://learn.microsoft.com/en-us/training/modules/cloud-adoption-framework-migrate	The Migrate methodology in the Cloud Adoption Framework guides you through migration to Azure by using repeatable processes and common tools.	Thursday	Microsoft Learn,Azure
Enable and manage Microsoft Defender for Cloud	https://learn.microsoft.com/en-us/training/modules/azure-security-center	Use Azure Security Center, Azure Defender, and Secure Score to track and improve your security posture in Azure.	Thursday	Microsoft Learn,Azure,Azure Defender,Azure Security Center,microsoft-defender Microsoft Defender for Cloud
Format alphanumeric data for presentation in C#	https://learn.microsoft.com/en-us/training/modules/csharp-format-strings	Format alphanumeric data for presentation in C#	Thursday	Microsoft Learn,.NET Framework,Visual Studio Code
Implement Azure Container Apps	https://learn.microsoft.com/en-us/training/modules/implement-azure-container-apps	Run serverless containerized apps in Azure Container Apps service.	Thursday	Microsoft Learn,Azure,Azure Container Instances,Azure Container Registry,Azure Resource Manager,Azure Virtual Machines

Track model training in Jupyter notebooks with MLflow	https://learn.microsoft.com/en-us/training/modules/track-model-training-jupyter-notebooks-mlflow	Track model training in Jupyter notebooks with MLflow	Thursday	Microsoft Learn,Azure Machine Learning
Understand Microsoft Online Services subprocessor management	https://learn.microsoft.com/en-us/training/modules/audit-subprocessor-management	Learn how Microsoft Online Services procure, monitor, and manage subprocessors to help protect data from unauthorized access and inappropriate use.	Thursday	Microsoft Learn,Microsoft 365
Understand Microsoft Online Services security incident management	https://learn.microsoft.com/en-us/training/modules/audit-incident-management	Learn how Microsoft Online Services investigates, manages, and responds to security concerns to protect customers and the Microsoft cloud environment.	Thursday	Microsoft Learn,Microsoft 365
Manage secure user access in Microsoft 365	https://learn.microsoft.com/en-us/training/modules/manage-secure-access-microsoft-365	This module examines various password-related tasks for user and admin accounts, such as creating and configuring password policies, configuring self-service password management, configuring multifactor authentication, and [...]	Thursday	Microsoft Learn,Microsoft 365,Office 365
Guided project – Prepare meeting room experiences	https://learn.microsoft.com/en-us/training/modules/guided-project-prepare-meeting-room-experiences	In this module, you'll prepare your Microsoft 365 developer tenant to be ready for the usage of Microsoft Teams Rooms. You'll create the tenant from scratch, [...]	Thursday	Microsoft Learn,Microsoft 365,Microsoft Teams,Microsoft Teams Phone
Manage mail flow	https://learn.microsoft.com/en-us/training/modules/manage-mail-flow	Manage mail flow	Thursday	Microsoft Learn,Microsoft 365,Office,Office 365,Office Exchange Server,Office Microsoft Exchange Online
Customer assets in Dynamics 365 Field Service	https://learn.microsoft.com/en-us/training/modules/customer-assets	Learn how to create and associate customer assets with work orders in Microsoft Dynamics 365 Field Service. Prepare for MB-240.	Thursday	Microsoft Learn,Dynamics 365,Dynamics 365 Field Service
Understand Microsoft Online Services security development and operation	https://learn.microsoft.com/en-us/training/modules/audit-security-development-operation	Learn how Microsoft Online Services follow Microsoft's Security Development Lifecycle (SDL) to build security and privacy into our products and services.	Thursday	Microsoft Learn,Microsoft 365
Implement Viva Topics in your organization	https://learn.microsoft.com/en-us/training/modules/m365-viva-topics-implement	Learn how to implement Viva Topics in your organization. Learn about key usage scenarios, how to secure your Topics deployment, and how to set up a [...]	Friday	Microsoft Learn,Microsoft 365,Microsoft Viva,Microsoft Viva Viva Topics
OKR coaching with Viva Goals	https://learn.microsoft.com/en-us/training/modules/viva-goals-okr-coaching	Learn about the role of an OKR coach, how to effectively coach others in the creation of OKRs, and what resources are available to set you [...]	Friday	Microsoft Learn,Microsoft 365,Microsoft Viva

Create, track, and close your OKRs with Viva Goals	https://learn.microsoft.com/en-us/training/modules/viva-goals-create-track-close-okrs	Learn how to work with OKRs in Viva Goals.	Friday	Microsoft Learn,Microsoft 365,Microsoft Viva
Prepare your Viva Topics rollout strategy	https://learn.microsoft.com/en-us/training/modules/m365-viva-topics-prepare	Learn about best practices for deploying Viva Topics in your organization.	Friday	Microsoft Learn,Microsoft 365,Microsoft Viva,Microsoft Viva Viva Topics
Write effective OKRs with Viva Goals	https://learn.microsoft.com/en-us/training/modules/viva-goals-write-effective-okrs	Learn the necessary elements for writing compelling OKRs by learning how to define, write, and edit your OKRs with the aid of a framework.	Friday	Microsoft Learn,Microsoft 365,Microsoft Viva
Troubleshoot hybrid deployments	https://learn.microsoft.com/en-us/training/modules/troubleshoot-hybrid-deployments	Troubleshoot hybrid deployments	Friday	Microsoft Learn,Microsoft 365,Office,Office 365,Office Exchange Server,Office Microsoft Exchange Online
Plan roles, automation, and training for Viva Topics	https://learn.microsoft.com/en-us/training/modules/m365-viva-topics-planning	Learn about the Viva Topics roles you'll need for your organization. Identify opportunities for automation. Make a plan to train your users on how to get [...]	Friday	Microsoft Learn,Microsoft 365,Microsoft Viva,Microsoft Viva Viva Topics
Manage knowledge content in Viva Topics	https://learn.microsoft.com/en-us/training/modules/m365-viva-topics-knowledge	Learn about knowledge management in Viva Topics – creating, editing, and maintaining topic content.	Friday	Microsoft Learn,Microsoft 365,Microsoft Viva,Microsoft Viva Viva Topics
Investigate threats by using audit features in Microsoft 365 Defender and Microsoft Purview Standard	https://learn.microsoft.com/en-us/training/modules/investigate-threats-using-audit-in-microsoft-365-defender-microsoft-purview-standard	Use the Microsoft Purview Universal Audit Log (UAL) to investigate threats	Friday	Microsoft Learn,Microsoft 365,Microsoft Purview,microsoft-defender Microsoft Defender for Office 365
Manage your organization with Dynamics 365 Human Resources	https://learn.microsoft.com/en-us/training/modules/manage-organization	Learn how to use organizational hierarchies, alerts, electronic signatures, and document management. Additionally, learn how to set up email settings and time zones.	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Human Resources
Predict meteor showers by using Python and Visual Studio Code	https://learn.microsoft.com/en-us/training/modules/predict-meteor-showers-using-python	Learn how to use concepts from machine learning to predict the occurrence of meteor showers (or Moon Goddess tears).	Friday	Microsoft Learn,Visual Studio Code
Operational design principles for enterprise-scale architecture	https://learn.microsoft.com/en-us/training/modules/enterprise-scale-operations	Learn how to operationalize an Azure enterprise estate by using centralized management to enable the organization's path to the cloud.	Friday	Microsoft Learn,Azure
Train and understand regression models in machine learning	https://learn.microsoft.com/en-us/training/modules/understand-regression-machine-learning	Regression is arguably the most widely used machine learning technique, commonly underlying scientific discoveries, business planning, and stock market analytics. This learning material takes a dive [...]	Friday	Microsoft Learn,Azure

Introduction to Nuance Mix	https://learn.microsoft.com/en-us/training/modules/introduction-nuance-mix	Learn how to create advanced natural conversation flows across languages and channels.	Friday	Microsoft Learn,nuance,nuance mix
Develop for Azure Cache for Redis	https://learn.microsoft.com/en-us/training/modules/develop-for-azure-cache-for-redis	Learn how to configure Azure Cache for Redis, interact with the cache, and connect an application to Azure Cache for Redis by using .NET.	Friday	Microsoft Learn,Azure Cache for Redis
Explore Azure for SAP storage	https://learn.microsoft.com/en-us/training/modules/explore-azure-storage	Explore Azure for SAP storage	Friday	Microsoft Learn,Azure
Remotely monitor and service equipment with Connected Field Service for Dynamics 365 and Azure IoT	https://learn.microsoft.com/en-us/training/modules/remotely-monitor-and-service-customer-equipment	Configure IoT devices to remotely monitor customer equipment.	Friday	Microsoft Learn,Azure,Azure IoT Central,Dynamics 365,Dynamics 365 Field Service
Examine SAP S/4HANA on Azure virtual machines	https://learn.microsoft.com/en-us/training/modules/examine-sap-s4hana-azure-virtual-machines	Examine available architecture when deploying SAP S/4HANA workloads running on high-performance Azure VMs, and in-memory SAP HANA databases, running on Azure VMs. Prepare for Exam AZ-120 [...]	Friday	Microsoft Learn,Azure
Implement high availability for SAP workloads in Azure	https://learn.microsoft.com/en-us/training/modules/implement-high-availability-for-sap-workloads-azure	This module explores high availability and disaster recovery support of Azure for SAP workloads, such as SAP application servers, SAP ASCS-SCS instances, DBMS instances, and SAP [...]	Friday	Microsoft Learn,Azure
Introduction to Azure Backup	https://learn.microsoft.com/en-us/training/modules/intro-to-azure-backup	Evaluate whether Azure Backup is appropriate to use for your backup needs and describe how the features of Azure Backup work to provide backup solutions for [...]	Friday	Microsoft Learn,Azure Backup
Explore monitoring requirements of Azure for SAP workloads	https://learn.microsoft.com/en-us/training/modules/explore-monitoring-requirements-of-azure-for-sap-workloads	This module covers monitoring of data from several Azure systems and tools to support SAP on Azure workloads. Prepare for Exam AZ-120 Planning and Administering Microsoft [...]	Friday	Microsoft Learn,Azure
Examine SAP NetWeaver with AnyDB on Azure virtual machines	https://learn.microsoft.com/en-us/training/modules/examine-sap-netweaver-anydb	Examine the architecture options available when deploying SAP AnyDB workloads on Azure VMs. Prepare for Exam AZ-120 Planning and Administering Microsoft Azure for SAP Workloads.	Friday	Microsoft Learn,Azure
Introduction to Viva Topics	https://learn.microsoft.com/en-us/training/modules/m365-viva-topics-introduction	Viva Topics is an add-on service in Microsoft Viva, an employee experience platform (EXP) for a unified knowledge and content experience across	Friday	Microsoft Learn,Microsoft 365,Microsoft Viva,Microsoft Viva Viva Topics

		Microsoft 365 and Microsoft [...]		
Plan and configure a hybrid deployment using the Hybrid Configuration Wizard	https://learn.microsoft.com/en-us/training/modules/plan-run-hybrid-configuration-wizard	Plan and configure a hybrid deployment using the Hybrid Configuration Wizard	Friday	Microsoft Learn,Microsoft 365,Office,Office 365,Office Exchange Server,Office Microsoft Exchange Online
Explore Exchange hybrid deployment requirements	https://learn.microsoft.com/en-us/training/modules/exchange-hybrid-deployment-requirements	Explore Exchange hybrid deployment requirements	Friday	Microsoft Learn,Microsoft 365,Office,Office 365,Office Exchange Server,Office Microsoft Exchange Online
Discover common terms and meanings for SAP on Azure	https://learn.microsoft.com/en-us/training/modules/discover-common-terms-meanings	You'll be introduced to some of the common terms that will be used in working with SAP workloads on Azure. Prepare for Exam AZ-120 Planning and [...]	Friday	Microsoft Learn,Azure
Learn OKR essentials with Viva Goals	https://learn.microsoft.com/en-us/training/modules/viva-goals-okr-essentials	Learn the key components of OKRs, their framework, and the benefits they provide to users in various roles.	Friday	Microsoft Learn,Microsoft 365,Microsoft Viva
Implement disaster recovery for SAP workloads in Azure	https://learn.microsoft.com/en-us/training/modules/implement-disaster-recovery-for-sap-workloads-azure	This module explores disaster recovery support of Azure for SAP workloads, including deployments within single and multiple Azure regions, multi-tier SAP NetWeaver app deployment in Azure, [...]	Friday	Microsoft Learn,Azure
Create serverless logic with Azure Functions	https://learn.microsoft.com/en-us/training/modules/create-serverless-logic-with-azure-functions	Azure Functions allows you to host business logic that can be executed without managing or provisioning server infrastructure	Friday	Microsoft Learn,Azure,Azure Functions,Azure Portal
Getting started with Visual Studio for Windows 10 app development	https://learn.microsoft.com/en-us/training/modules/get-started-with-visual-studio-for-windows10-app-dev	Learn how to use Visual Studio in GitHub to create, debug, and deploy Windows 10 applications with themes, refactoring, and code snippets.	Friday	Microsoft Learn,Visual Studio IDE,Windows
Survey the services on the Microsoft Intelligent Data Platform	https://learn.microsoft.com/en-us/training/modules/survey-the-azure-data-platform	Explore the broad array of Azure technologies that analyze text or images and relational, nonrelational, or streaming data.	Friday	Microsoft Learn,Azure,Azure Storage
Use the planning and deployment checklist for SAP workloads on Azure	https://learn.microsoft.com/en-us/training/modules/use-sap-workload-planning-deployment-checklist	This module uses the SAP workload planning and deployment checklist to guide SAP deployment teams through each phase of the SAP on Azure migration process. Prepare [...]	Friday	Microsoft Learn,Azure
Implement Microsoft Purview Information Barriers	https://learn.microsoft.com/en-us/training/modules/create-information-barriers	This module examines how Microsoft Purview uses information barriers to restrict communication and collaboration in Microsoft Teams, SharePoint Online, and OneDrive for Business. MS-102	Saturday	Microsoft Learn,Microsoft 365,Office 365

Explore Microsoft Purview Message Encryption	https://learn.microsoft.com/en-us/training/modules/explore-purview-message-encryption	This module introduces Microsoft Purview Message Encryption, an online service that's built on Microsoft Azure Rights Management and includes encryption, identity, and authorization policies to help [...]	Saturday	Microsoft Learn,Microsoft 365,Office 365
Configure the Azure Enhanced Monitoring Extension for SAP	https://learn.microsoft.com/en-us/training/modules/configure-azure-enhanced-monitoring-extension-for-sap	This module covers the configuration of the Azure Enhanced Monitoring Extension for SAP. Prepare for Exam AZ-120 Planning and Administering Microsoft Azure for SAP Workloads.	Saturday	Microsoft Learn,Azure
Identify SAP-certified configurations	https://learn.microsoft.com/en-us/training/modules/identify-sap-certified-configurations	Help identify prerequisites, deployment options, and SAP-certified configurations available to you when deploying SAP products in Azure. Prepare for Exam AZ-120 Planning and Administering Microsoft Azure [...]	Saturday	Microsoft Learn,Azure
Implement Microsoft Purview Data Loss Prevention	https://learn.microsoft.com/en-us/training/modules/implement-data-loss-prevention-policies-microsoft-365	This module examines how organizations can use Microsoft Purview Data Loss Prevention to help protect sensitive data and define the protective actions that organizations can take [...]	Saturday	Microsoft Learn,Microsoft 365,Office 365
Examine data governance solutions in Microsoft Purview	https://learn.microsoft.com/en-us/training/modules/examine-data-governance-solutions-microsoft-purview	This module introduces Microsoft Purview, which is designed to meet the challenges of today's decentralized, data-rich workplace by providing a comprehensive set of solutions that help [...]	Saturday	Microsoft Learn,Microsoft 365,Office 365
Explore Azure for SAP networking	https://learn.microsoft.com/en-us/training/modules/explore-azure-networking	This module explores the use of Azure network components to design scalable, performant, and resilient SAP deployments in Azure. Prepare for Exam AZ-120 Planning and Administering [...]	Saturday	Microsoft Learn,Azure
Plan mailbox migrations	https://learn.microsoft.com/en-us/training/modules/plan-migrations	This module examines the different options that are available for migrating email to Exchange Online.	Saturday	Microsoft Learn,Microsoft 365,Office,Office 365,Office Exchange Server,Office Microsoft Exchange Online
Explore identity services for SAP on Azure	https://learn.microsoft.com/en-us/training/modules/explore-identity-services	This module explores using identity services to design multiple authentication and authorization scenarios Azure facilitates, that includes support for a range of identity providers. Prepare for [...]	Saturday	Microsoft Learn,Azure
Explore Azure for SAP compute	https://learn.microsoft.com/en-us/training/modules/explore-azure-compute	This module explores the design of scalable, performant, and resilient compute components for	Saturday	Microsoft Learn,Azure

		SAP deployments in Azure. Prepare for Exam AZ-120 Planning and Administering Microsoft Azure [...]		
Implement sensitivity labels	https://learn.microsoft.com/en-us/training/modules/implement-sensitivity-labels-microsoft-365	This module examines the process for implementing sensitivity labels, including applying proper administrative permissions, determining a deployment strategy, creating, configuring, and publishing labels, and removing and [...]	Saturday	Microsoft Learn,Microsoft 365,Office 365
Plan your Linux environment in Azure	https://learn.microsoft.com/en-us/training/modules/plan-your-linux-environment-in-azure	Learn about the most important aspects of planning Linux environments in Azure.	Saturday	Microsoft Learn,Azure
Extract insights from text with the Language service	https://learn.microsoft.com/en-us/training/modules/extract-insights-text-with-text-analytics-service	Extract insights from text with the Language service	Saturday	Microsoft Learn,Azure Cognitive Services
Explore governance and manageability for SAP on Azure	https://learn.microsoft.com/en-us/training/modules/explore-azure-governance-manageability	This module explores using the Azure Governance collection of concepts and services that are designed to enable management of Azure resources at scale. Prepare for Exam [...]	Saturday	Microsoft Learn,Azure
Use CSS styles in a webpage	https://learn.microsoft.com/en-us/training/modules/use-css-styles	Use CSS styles in a webpage	Saturday	Microsoft Learn,Industry Solutions Return to School,Industry Solutions Return to the Workplace
Explore remote management for SAP on Azure	https://learn.microsoft.com/en-us/training/modules/explore-azure-remote-management	This module explores ways to apply Azure remote management components to design remote management of virtual machines and set up the Azure connector for SAP Landscape [...]	Saturday	Microsoft Learn,Azure
Explore archiving and records management in Microsoft 365	https://learn.microsoft.com/en-us/training/modules/explore-archiving-records-management	This module examines how Microsoft 365 supports data governance by enabling organizations to archive content by using archive mailboxes, and manage their high-value content for legal, [...]	Saturday	Microsoft Learn,Microsoft 365,Office 365
Implement Microsoft Purview Insider Risk Management	https://learn.microsoft.com/en-us/training/modules/implement-insider-risk-management	This module examines how Microsoft Purview Insider Risk Management helps organizations minimize internal risks by enabling them to detect, investigate, and act on malicious and inadvertent [...]	Saturday	Microsoft Learn,Microsoft 365,Office 365
Explore retention in Microsoft 365	https://learn.microsoft.com/en-us/training/modules/explore-retention-policies-labels-microsoft-365	This module examines how data can be retained and ultimately removed in Microsoft 365 by using data retention policies and data retention labels in retention policies. [...]	Saturday	Microsoft Learn,Microsoft 365,Office 365

Manage mail flow rules	https://learn.microsoft.com/en-us/training/modules/manage-mail-flow-rules	This module explores mail flow rules, examines how they work, and provides instruction on how they should be configured.	Saturday	Microsoft Learn,Microsoft 365,Office,Office 365,Office Exchange Server,Office Microsoft Exchange Online
Manage personnel with Dynamics 365 Human Resources	https://learn.microsoft.com/en-us/training/modules/manage-personnel	This module explains how to manage personnel in Microsoft Dynamics 365 Human Resources.	Saturday	Microsoft Learn,Dynamics 365,Dynamics 365 Human Resources
Implement data classification of sensitive information	https://learn.microsoft.com/en-us/training/modules/implement-data-classification-sensitive-information	This module introduces you to data classification in Microsoft 365, including how to create and train classifiers, view sensitive data using Content explorer and Activity explorer, [...]	Saturday	Microsoft Learn,Microsoft 365,Office 365
Troubleshoot mail flow	https://learn.microsoft.com/en-us/training/modules/troubleshoot-mail-flow	Troubleshoot mail flow	Saturday	Microsoft Learn,Microsoft 365,Office,Office 365,Office Exchange Server,Office Microsoft Exchange Online
