Weekly Update: Saturday March 18 2023 to Saturday March 25 2023

Azure Updates (20 new azure updates)

Name	Link	Description	Publication Day	Category
Generally available: Encryption scopes on hierarchical namespace enabled storage accounts	https://azure.microsoft.com/en-us/updates/generally-available-encryption-scopes-on-hierarchical-namespace-enabled-storage-accounts/	You can now use separate encryption keys for each customer in a single hierarchical namespace enabled storage account.	Tuesday	Azure Updates
General availability: Serilog Sink for Azure Data Explorer	https://azure.microsoft.com/en-us/updates/general-availability-serilog-sink-for-azure-data-explorer/	Azure Data Explorer now supports ingestion of data from .NET Applications via the Serilog Sink.	Tuesday	Azure Updates,Azure Data Explorer
Azure Maps is now HIPAA (Health Insurance Portability and Accountability Act) compliant	https://azure.microsoft.com/en-us/updates/azure-maps-is-now-hipaa-health-insurance-portability-and-accountability-act-compliant/	Azure Maps ensures HIPAA compliance is achieved for protected health information (PHI), like when calculating travel time and distance from a patient's location to the nearest [...]	Tuesday	Azure Updates
General Availability: ASP. NET web app migration to Azure App Service using PowerShell Scripts	https://azure.microsoft.com/en-us/updates/general-availability-asp-net-web-app-migration-to-azure-app-service-using-powershell-scripts/	ASP. NET web app migration to Azure App Service using PowerShell Scripts is now generally available.	Tuesday	Azure Updates
Announcement: Azure Active Directory backed authentication for JMS 2.0 API on Azure Service Bus	https://azure.microsoft.com/en-us/updates/announcement-azure-active-directory-backed-authentication-for-jms-20-api-on-azure-service-bus/	Announcement of AAD support for the JMS 2.0 API of Azure Service Bus.	Wednesday	Azure Updates
Public preview: Azure Maps Creator – Improved indoor maps onboarding and new Features API	https://azure.microsoft.com/en-us/updates/public-preview-azure-maps-creator-improved-indoor-maps-onboarding-and-new-features-api/	An updated Conversion service now allows you to easily onboard indoor maps and a new Features API to read and edit your map features!	Thursday	Azure Updates,Azure Maps
General availability: Azure Virtual Network Manager	https://azure.microsoft.com/en-us/updates/general-availability-azure-virtual-network-manager-3/	Azure Virtual Network Manager (AVNM) is now generally available. AVNM is a one-stop shop for managing the connectivity and security of your network resources at scale.	Thursday	Azure Updates
General availability: Reserved namespaces for subdomains	https://azure.microsoft.com/en-us/updates/general-availability-reserved-namespaces-for-subdomains/	Azure Traffic Manager now enables reserving domain labels across all traffic manager profiles.	Thursday	Azure Updates
Generally available: Azure Private Link	https://azure.microsoft.com/en-us/updates/generally-available-azure-private-link/	With Azure Private Link support in Azure API	Friday	Azure Updates

support in Azure API Management	private-link-support-in-azure-api-management/	Management, you can now integrate clients in a virtual network privately.		
Public Preview: Workspaces in Azure API Management	https://azure.microsoft.com/en-us/updates/public-preview-workspaces-in-azure-api-management/	Workspaces for Azure API Management is now in public preview. This new capability enables granular access control in multi-team Azure API Management deployments.	Friday	Azure Updates
Generally available: Azure Private Link support in Azure API Management	https://azure.microsoft.com/en-us/updates/generally-available-azure-private-link-support-in-azure-api-management/	With Azure Private Link support in Azure API Management, you can now integrate clients in a virtual network privately.	Friday	Azure Updates
Public Preview: Workspaces in Azure API Management	https://azure.microsoft.com/en-us/updates/public-preview-workspaces-in-azure-api-management/	Workspaces for Azure API Management is now in public preview. This new capability enables granular access control in multi-team Azure API Management deployments.	Friday	Azure Updates
Retirement: Azure Database Migration Service (classic) – SQL Server scenarios deprecation	https://azure.microsoft.com/en-us/updates/retirement-azure-database-migration-service-classic-sql-server-scenarios-deprecation/	Azure Database Migration Service (classic) – SQL Server scenarios will not be supported after March 31, 2026.	Saturday	Azure Updates
Select Batch Pool autoscale service-defined variables will be retired on 31 March 2024	https://azure.microsoft.com/en-us/updates/select-batch-pool-autoscale-service-defined-variables-will-be-retired-on-31-march-2024/	Remove references in your autoscale formula for the service-defined variables	Saturday	Azure Updates, Batch
Retirement Announcement: Assigning alert trigger playbooks within Microsoft Sentinel analytics rules	https://azure.microsoft.com/en-us/updates/retirement-announcement-assigning-alert-trigger-playbooks-within-microsoft-sentinel-analytics-rules/	Effective 15 March 2026, adding playbooks within Microsoft Sentinel analytics rules creation/edit will be deprecated.	Saturday	Azure Updates, Microsoft Sentinel, Retirements
Azure Batch classic compute node communication model will be retired on 31 March 2026	https://azure.microsoft.com/en-us/updates/azure-batch-classic-compute-node-communication-model-will-be-retired-on-31-march-2026/	Transition Batch pools to the Simplified compute node communication model	Saturday	Azure Updates, Agents, Batch
We're retiring Cluster Configuration with Flux v1 on 24 May 2025 – transition to GitOps extension for Kubernetes to move to Flux v2	https://azure.microsoft.com/en-us/updates/migrate-your-gitops-configurations-from-flux-v1-to-flux-v2-by-24-may-2025/	Migrate to GitOps Extension for Flux v2 by 24 May 2025	Saturday	Azure Updates, Arc enabled Kubernetes, Azure Portal, Flux
Container insights recommended alerts (custom metrics) (preview) will be retired on 14 March 2026	https://azure.microsoft.com/en-us/updates/container-insights-recommended-alerts-custom-metrics-preview-will-be-retired-on-14-march-2026/	Transition to Prometheus recommended alert rules (preview) before 14 March 2026.	Saturday	Azure Updates
Retirement notice: The Azure Storage PHP client libraries will be retired on 17 March 2024	https://azure.microsoft.com/en-us/updates/retirement-notice-the-azure-storage-php-client-libraries-will-be-retired-on-17-march-2024/	Azure Storage PHP client libraries will be retired on 17 March 2024	Saturday	Azure Updates
Public preview: Listener TLS certificates	https://azure.microsoft.com/en-us/updates/public-preview-listener-tls-	You can now manage the TLS certificates associated	Saturday	Azure Updates

management available in the Azure portal	certificates-management-available-in-the-azure-portal/	with Listeners through Azure portal.

Manage users and groups in Azure Active Directory	https://learn.microsoft.com/en-us/training/modules/manage-users-and-groups-in-aad	Manage users and groups in Azure Active Directory	Wednesday	Microsoft Learn,Azure,entra Azure Active Directory
Create Azure users and groups in Azure Active Directory	https://learn.microsoft.com/en-us/training/modules/create-users-and-groups-in-azure-active-directory	Learn how to create users and groups in Azure Active Directory.	Wednesday	Microsoft Learn,Azure,entra Azure Active Directory
Build a containerized web application with Docker	https://learn.microsoft.com/en-us/training/modules/intro-to-containers	Use Docker to build, store, and manage private container images with the Azure Container Registry.	Wednesday	Microsoft Learn,Azure
Debug and deploy your extension in Dynamics 365 Business Central	https://learn.microsoft.com/en-us/training/modules/debug-deploy-extension	Do you want to know how to debug and deploy your extension? If so, this module helps you discover how to debug with Visual Studio Code [...]	Wednesday	Microsoft Learn,Dynamics 365,Dynamics 365 Business Central
Sync sales orders from and to Dynamics 365 Business Central and Dynamics 365 Sales	https://learn.microsoft.com/en-us/training/modules/sync-sales-orders-business-central	Learn about and set up bidirectional synchronization.	Wednesday	Microsoft Learn,Dynamics 365,Dynamics 365 Business Central,Dynamics 365 Sales,Microsoft Power Platform Microsoft Dataverse

Describe Dynamics 365 Marketing apps	https://learn.microsoft.com/en-us/training/modules/describe-dynamics-365-marketing-capabilities-2	This module introduces learners to other applications that augment Dynamics 365 Marketing capabilities such as Dynamics 365 Customer Voice and Dynamics 365 Customer Insights.	Wednesday	Microsoft Learn,Dynamics 365,Dynamics 365 Marketing
Describe shared activities and integration options in Dynamics 365 customer engagement apps	https://learn.microsoft.com/en-us/training/modules/examine-common-activities-integration-options	In this module, learners will be introduced to activities and integration options across the customer engagement apps for Dynamics 365.	Wednesday	Microsoft Learn,Dynamics 365
Describe Dynamics 365 Customer Service capabilities and related apps	https://learn.microsoft.com/en-us/training/modules/examine-reporting-apps	This module introduces learners to Omnichannel for Customer Service, reporting and data visualization and Dynamics 365 Customer Voice for Dynamics 365 Customer Service.	Wednesday	Microsoft Learn,Dynamics 365,Dynamics 365 Customer Service
Use alternative interfaces for Dynamics 365 Business Central	https://learn.microsoft.com/en-us/training/modules/alternative-interfaces-dynamics-365-business-central	The modern user interface experience for Microsoft Dynamics 365 Business Central isn't limited to the web client. Business Central comes with smartphone, tablet, and Microsoft Outlook [...]	Wednesday	Microsoft Learn,Dynamics 365,Dynamics 365 Business Central
Write your first C# method	https://learn.microsoft.com/en-us/training/modules/write-first-c-sharp-method	This module covers the syntax of creating and executing methods. Creating reusable code and structuring solutions using methods are reviewed.	Wednesday	Microsoft Learn,.NET Framework,Visual Studio Code
Assign and assess learners with assignments and forms in Teams	https://learn.microsoft.com/en-us/training/modules/assign-assess-learners-with-assignments-forms-teams	Class Teams have all the tools educators need from course curriculum, down to daily lesson content, right to the details of the assignment workflow. Put another [...]	Wednesday	Microsoft Learn,Microsoft Teams
Create C# methods with parameters	https://learn.microsoft.com/en-us/training/modules/create-c-sharp-methods-parameters	This module covers method parameters, including pass-by-reference and pass-by-value parameter types. This module also covers optional and named arguments.	Wednesday	Microsoft Learn,.NET Framework,Visual Studio Code
Configure virtual networks	https://learn.microsoft.com/en-us/training/modules/configure-virtual-networks	Learn how to configure virtual networks and subnets, including IP addressing.	Wednesday	Microsoft Learn,Azure Virtual Network
Manage and monitor data warehouse activities in Azure Synapse Analytics	https://learn.microsoft.com/en-us/training/modules/manage-monitor-data-warehouse-activities-azure-synapse-analytics	Manage and monitor data warehouse activities in Azure Synapse Analytics	Wednesday	Microsoft Learn,Azure Synapse Analytics
Get tips and tricks for teaching MB-910: Microsoft Dynamics 365 Fundamentals (CRM)	https://learn.microsoft.com/en-us/training/modules/get-tips-tricks-teach-mb-910-dynamics-365-fundamentals	Learn tips and tricks about preparing for your first teaching session, which labs to use, when and how to introduce technical topics, as well as other [...]	Wednesday	Microsoft Learn,Dynamics 365,Dynamics 365 Customer Service
Introduction to Azure NetApp Files	https://learn.microsoft.com/en-us/training/modules/introduction-to-azure-netapp-files	Evaluate whether Microsoft Azure NetApp Files is appropriate for migrating	Wednesday	Microsoft Learn,Azure NetApp Files

		and running your organization's file-based workloads.		
Host a web application with Azure App Service	https://learn.microsoft.com/en-us/training/modules/host-a-web-app-with-azure-app-service	Create a website using C#, Java, Python or Node.js and deploy it through the hosted web app platform in Azure App Service.	Wednesday	Microsoft Learn,Azure,Azure App Service,Azure Portal
Choose the right Azure services by examining SLAs and service lifecycle	https://learn.microsoft.com/en-us/training/modules/choose-azure-services-sla-lifecycle	Learn about service-level agreements (SLAs) in Azure, and how they can affect your application design decisions. See how to access preview services and learn how they [...]	Wednesday	Microsoft Learn,Azure
Create C# methods that return values	https://learn.microsoft.com/en-us/training/modules/create-c-sharp-methods-return-values	This module covers the return keyword and returning values from methods.	Wednesday	Microsoft Learn,.NET Framework,Visual Studio Code
Secure a data warehouse in Azure Synapse Analytics	https://learn.microsoft.com/en-us/training/modules/secure-data-warehouse-azure-synapse-analytics	Secure a data warehouse in Azure Synapse Analytics	Wednesday	Microsoft Learn,Azure Synapse Analytics
Azure RTOS ThreadX fundamentals	https://learn.microsoft.com/en-us/training/modules/azure-rtos-threadx-fundamentals	Learn the fundamentals of Azure RTOS ThreadX.	Wednesday	Microsoft Learn,Azure,Azure IoT,Azure RTOS
Guided project – Calculate and print student grades	https://learn.microsoft.com/en-us/training/modules/guided-project-calculate-print-student-grades	Guided project – Calculate and print student grades	Wednesday	Microsoft Learn,.NET,Visual Studio Code
Describe Dynamics 365 Sales capabilities and related apps	https://learn.microsoft.com/en-us/training/modules/leverage-sales-capabilities	This module introduces learners to sales forecasting, LinkedIn Sales Navigator and Dynamics 365 Sales Insights and Viva Sales.	Wednesday	Microsoft Learn,Dynamics 365,Dynamics 365 Sales,Dynamics 365 Sales Insights
Create your first Azure Cognitive Services text-to-speech application	https://learn.microsoft.com/en-us/training/modules/create-your-first-text-to-speech-app	In this module, you'll learn how to use Azure Cognitive Services to create a text-to-speech application.	Wednesday	Microsoft Learn,Azure,Azure CLIs,Azure Cognitive Services,Azure Text to Speech
Guided project – Plan a Petting Zoo Visit	https://learn.microsoft.com/en-us/training/modules/guided-project-visit-petting-zoo	Create an application that coordinates school visits to a petting zoo. This project requires the use of different methods with return types and parameters to complete [...]	Wednesday	Microsoft Learn,.NET Framework,Visual Studio Code
Guided project – Debug and handle exceptions in a C# console application using Visual Studio Code	https://learn.microsoft.com/en-us/training/modules/guided-project-debug-handle-exceptions-c-sharp-console-application	This module guides you through the code verification process for a C# console application. Hands-on activities provide experience identifying logic issues, debugging the application, and implementing [...]	Wednesday	Microsoft Learn,.NET,.NET Framework,Visual Studio Code
Create your first Azure Cognitive Services Speech-to-Text application	https://learn.microsoft.com/en-us/training/modules/create-your-first-speech-to-text-app	In this module, you'll learn how to use Azure Cognitive Services to create a speech-to-text application.	Wednesday	Microsoft Learn,Azure,Azure CLIs,Azure Cognitive Services,Azure Speech to Text
Tune hyperparameters in Azure Databricks	https://learn.microsoft.com/en-us/training/modules/hyperparameters-azure-databricks	Learn how to use the Hyperopt library in Azure Databricks to tune machine learning hyperparameters.	Thursday	Microsoft Learn,Azure Databricks

Train a machine learning model in Azure Databricks	https://learn.microsoft.com/en-us/training/modules/machine-learning-azure-databricks	Learn how to train machine learning models using Spark and the MLlib library in Azure Databricks.	Thursday	Microsoft Learn,Azure Databricks
Use MLflow in Azure Databricks	https://learn.microsoft.com/en-us/training/modules/mlflow-azure-databricks	Learn how to use MLflow in Azure Databricks to track machine learning experiments and deploy models.	Thursday	Microsoft Learn,Azure Databricks
Examine Exchange Online Protection	https://learn.microsoft.com/en-us/training/modules/examine-exchange-online-protection	This module examines how Exchange Online Protection (EOP) protects organizations from phishing and spoofing. It also explores how EOP blocks spam, bulk email, and malware before [...]	Thursday	Microsoft Learn,Microsoft 365,Office 365
Create your first Q# program by using the Quantum Development Kit	https://learn.microsoft.com/en-us/training/modules/qsharp-create-first-quantum-development-kit	Get started with Q# programming by building a quantum random number generator.	Thursday	Microsoft Learn,Azure Quantum,Quantum Development Kit
Explore Dynamics 365 Sales	https://learn.microsoft.com/en-us/training/modules/explore-dynamics-365-sales	This module introduces learners to Dynamics 365 Sales focusing on managing leads, lead qualification, opportunities and sales orders as part of the standard sales lifecycle.	Thursday	Microsoft Learn,Dynamics 365,Dynamics 365 Sales
Explore Dynamics 365 Field Service	https://learn.microsoft.com/en-us/training/modules/explore-dynamics-365-field-service	This module introduces learners to Dynamics 365 Field Service, focusing on work orders, inspections and the Field Service mobile app.	Thursday	Microsoft Learn,Dynamics 365,Dynamics 365 Field Service
Use the Q# libraries	https://learn.microsoft.com/en-us/training/modules/use-qsharp-libraries	Learn about libraries in Q# and how to add them to your projects, discover the Q# API documentation, implement another application of Grover's algorithm by using [...]	Thursday	Microsoft Learn,Azure Quantum,Quantum Development Kit
Catalog data artifacts by using Microsoft Purview	https://learn.microsoft.com/en-us/training/modules/catalog-data-artifacts-use-microsoft-purview	Register, scan, catalog, and view data assets and their relevant details in Microsoft Purview.	Thursday	Microsoft Learn,Microsoft Purview
Explore the key concepts of quantum computing by using Q#	https://learn.microsoft.com/en-us/training/modules/qsharp-explore-key-concepts-quantum-computing	Learn the fundamental concepts of quantum computing by using tools in Q# and the Quantum Development Kit.	Thursday	Microsoft Learn,Azure Quantum,Quantum Development Kit
Solve a job shop scheduling optimization problem by using Azure Quantum	https://learn.microsoft.com/en-us/training/modules/solve-job-shop-optimization-azure-quantum	Learn how to use Azure Quantum's optimization service to solve a job shop scheduling problem.	Thursday	Microsoft Learn,Azure Quantum
Create a dataset for a Power BI report in Dynamics 365 Business Central	https://learn.microsoft.com/en-us/training/modules/create-data-set	Do you want to know how create a dataset for a Power BI report in Business Central? In this module, you learn how to use the [...]	Thursday	Microsoft Learn,Dynamics 365,Dynamics 365 Business Central
Migrate your CI/CD pipelines to GitHub with GitHub Actions Importer	https://learn.microsoft.com/en-us/training/modules/migrate-cicd-pipelines-to-github-with-github-actions-importer	Learn about GitHub Actions Importer and how it can help facilitate migrations	Thursday	Microsoft Learn,GitHub

		from your current CI/CD tool to GitHub Actions.		
Build reusable components with Blazor	https://learn.microsoft.com/en-us/training/modules/blazor-build-reusable-components	Learn how to use Razor class libraries to package and deploy components with Blazor.	Thursday	Microsoft Learn,.NET,.NET ASP.NET Core,.NET Blazor
Work with files and directories in a Node.js app	https://learn.microsoft.com/en-us/training/modules/nodejs-files	Build an app that manipulates files and directories with Node.js using JavaScript.	Thursday	Microsoft Learn,Azure
Solve graph coloring problems by using Grover's search	https://learn.microsoft.com/en-us/training/modules/solve-graph-coloring-problems-grovers-search	Learn how Grover's algorithm can help you solve search problems such as graph coloring problems.	Thursday	Microsoft Learn,Azure Quantum,Quantum Development Kit
Introduction to Azure HPC Cache	https://learn.microsoft.com/en-us/training/modules/introduction-azure-hpc-cache	Evaluate whether Azure HPC Cache is appropriate for improving the productivity of your high-performance computing applications.	Thursday	Microsoft Learn,Azure,Azure HPC Cache
Plan and deploy Azure Arc-enabled servers at scale	https://learn.microsoft.com/en-us/training/modules/plan-deploy-azure-arc-enabled-servers	Understand the capabilities and architecture of Azure Arc-enabled servers. Learn how to test and select the right deployment method for your machines. Finally, adopt best practices [...]	Thursday	Microsoft Learn,Azure,azure-arc
Explore Dynamics 365 Customer Service	https://learn.microsoft.com/en-us/training/modules/explore-dynamics-365-customer-service	This module introduces learners to Dynamics 365 Customer Service, focusing on core elements such as cases, case lifecycle, queues, business process flows and Service-level agreements.	Thursday	Microsoft Learn,Dynamics 365,Dynamics 365 Customer Service
Solve optimization problems by using quantum-inspired optimization	https://learn.microsoft.com/en-us/training/modules/solve-quantum-inspired-optimization-problems	Learn how quantum-inspired algorithms mimic quantum physics to solve difficult optimization problems.	Thursday	Microsoft Learn,Azure Quantum
Design a security operations strategy	https://learn.microsoft.com/en-us/training/modules/design-security-operations-strategy	Learn how to design a cybersecurity strategy for security operations (SecOps).	Thursday	Microsoft Learn,Azure
Challenge project – Create a mini-game	https://learn.microsoft.com/en-us/training/modules/challenge-project-create-mini-game	Use methods with parameters and return values to develop the features of a console mini-game.	Thursday	Microsoft Learn,.NET Framework,Visual Studio Code
Get started with Azure Quantum	https://learn.microsoft.com/en-us/training/modules/get-started-azure-quantum	Learn how to get started with Azure Quantum and create an Azure Quantum workspace.	Thursday	Microsoft Learn,Azure Quantum
Run algorithms on quantum hardware by using Azure Quantum	https://learn.microsoft.com/en-us/training/modules/run-algorithms-quantum-hardware-azure-quantum	Get started with quantum computing on Azure Quantum and learn how to create and run Q# quantum programs on quantum computers in the cloud.	Thursday	Microsoft Learn,Azure Quantum
Troubleshoot VPN gateways in Microsoft Azure	https://learn.microsoft.com/en-us/training/modules/troubleshoot-vpn-gateways	Network configuration and the use of Virtual Private Networks (VPNs) is integral to the success of collaborative working. In	Thursday	Microsoft Learn,Azure,Azure ExpressRoute,Azure Virtual Network,Azure Virtual WAN,Azure VPN Gateway

		this module, we look at how to [...]		
Protect your endpoint environment with Microsoft Intune	https://learn.microsoft.com/en-us/training/modules/protect-endpoints-with-endpoint-manager	In this module, you'll learn about protecting devices, apps, and data. Additionally, you understand the endpoint environment and the supported platforms available with Microsoft Intune.	Friday	Microsoft Learn,Microsoft 365,Microsoft Endpoint Manager
Describe Dynamics 365 Field Service scheduling capabilities and related apps	https://learn.microsoft.com/en-us/training/modules/describe-scheduling-process	This module introduces learners to the scheduling capabilities of Dynamics 365 Field Service. It also discusses asset management and Connected Field Service.	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Field Service
Containerize and migrate ASP.NET applications to Azure App Service	https://learn.microsoft.com/en-us/training/modules/migrate-aspnet-app-azure-app-service	Microsoft Learn module to learn Azure Migrate App Containerization with a hands-on lab using Azure App Service	Friday	Microsoft Learn,Azure,Azure App Service,Azure Migrate
Benefits of Microsoft Intune	https://learn.microsoft.com/en-us/training/modules/benefits-microsoft-endpoint-manager	In this module, you'll learn about Microsoft Intune benefits, including how it increases security and productivity, provides flexibility, and maximizes your investment.	Friday	Microsoft Learn,Microsoft 365,Microsoft Endpoint Manager
Understand app management using Microsoft Intune	https://learn.microsoft.com/en-us/training/modules/app-management-using-microsoft-endpoint-manager	In this module, you'll learn about app management using Microsoft Intune.	Friday	Microsoft Learn,Microsoft 365,Microsoft Endpoint Manager
Analyze and resolve compliance issues using Microsoft Intune	https://learn.microsoft.com/en-us/training/modules/compliance-endpoint-manager	In this module, you'll learn about analyzing and resolving compliance issues using Microsoft Intune.	Friday	Microsoft Learn,Microsoft 365,Microsoft Endpoint Manager
Introduction to route management in Node.js with JavaScript	https://learn.microsoft.com/en-us/training/modules/node-web-routes	Learn how to set up a Node.js API with multiple routes and handle incoming HTTP requests by using JavaScript.	Friday	Microsoft Learn,Azure
Introduction to Microsoft Intune	https://learn.microsoft.com/en-us/training/modules/intro-to-endpoint-manager	In this module, you'll learn about the basics of Microsoft Intune.	Friday	Microsoft Learn,Microsoft 365,Microsoft Endpoint Manager
Drive higher utilization of your Java apps – autoscaling	https://learn.microsoft.com/en-us/training/modules/autoscale-java-azure	Learn how to drive higher utilization of your Java apps on Azure using autoscaling	Friday	Microsoft Learn,Azure,Azure azure-spring-apps,Azure Database for MySQL
Modernize ASP.NET Framework to ASP.NET Core with the .NET Upgrade Assistant	https://learn.microsoft.com/en-us/training/modules/modernize-aspnet-framework-to-core	In this module, you'll learn to when, why, and how to modernize an ASP.NET Framework app to ASP.NET Core using the Upgrade Assistant.	Friday	Microsoft Learn,.NET,.NET ASP.NET,.NET ASP.NET Core
Understand Conditional Access policies using Microsoft Intune	https://learn.microsoft.com/en-us/training/modules/policy-security-management-using-microsoft-endpoint-manager	In this module, you'll learn about policy and security management using Microsoft Intune.	Friday	Microsoft Learn,Microsoft 365,Microsoft Endpoint Manager
Channelized Azure Health Bot	https://learn.microsoft.com/en-us/training/modules/health-bot-channelized-bot	This module demonstrates how to make a bot available on the Microsoft Teams channel. It also shows how to build a basic app.	Friday	Microsoft Learn,Azure

Migrate Java web applications to Azure Kubernetes Service	https://learn.microsoft.com/en-us/training/modules/migrate-java-app-azure-kubernetes-service	Microsoft Learn module to learn Azure Migrate App Containerization with a hands-on lab using Azure Kubernetes Service for a Java web application	Friday	Microsoft Learn,Azure,Azure Kubernetes Service,Azure Migrate
Understand device management using Microsoft Intune	https://learn.microsoft.com/en-us/training/modules/manage-devices-with-microsoft-endpoint-manager	In this module, you'll learn about how your organization's devices can be provisioned and managed. Additionally, you will learn about the different types of enrollment methods [...]	Friday	Microsoft Learn,Microsoft 365,Microsoft Endpoint Manager
Understand the evolving world of data	https://learn.microsoft.com/en-us/training/modules/evolving-world-of-data	Discover how data systems and roles are evolving and explore the differences between on-premises and cloud data solutions using sample business cases.	Friday	Microsoft Learn,Azure
Containerize and migrate ASP.NET applications to Azure Kubernetes Service	https://learn.microsoft.com/en-us/training/modules/migrate-aspnet-app-azure-kubernetes-service	Microsoft Learn module to learn Azure Migrate App Containerization with a hands-on lab	Friday	Microsoft Learn,Azure,Azure Kubernetes Service,Azure Migrate
Secure Azure solutions with Azure Active Directory	https://learn.microsoft.com/en-us/training/modules/azure-active-directory	Explore how to securely configure and administer your Azure Active Directory instance.	Friday	Microsoft Learn,Azure,entra Active Directory Domain Services,entra Active Directory External Identities,entra Azure Active Directory
Configure and deploy Direct Routing	https://learn.microsoft.com/en-us/training/modules/configure-deploy-direct-routing	In this module, you'll learn how administrators configure Direct Routing to meet user needs for telephony through a PSTN.	Friday	Microsoft Learn,Microsoft 365,Microsoft Teams
Extend Teams Phone with additional services	https://learn.microsoft.com/en-us/training/modules/extend-teams-phone-system-additional-services	Teams Phone leverages other Microsoft services and can be extended with third-party solutions for policy-based compliance recording, contact center integration, and custom bots.	Friday	Microsoft Learn,Microsoft 365,Microsoft Teams
Configure auto attendants and call queues	https://learn.microsoft.com/en-us/training/modules/configure-auto-attendants-call-queues	Understand how auto attendants and call queues in Microsoft Teams can interact with callers to ensure they're connected your agents as quickly as possible. You'll also [...]	Friday	Microsoft Learn,Microsoft 365,Microsoft Teams
Plan and optimize network performance for Teams media	https://learn.microsoft.com/en-us/training/modules/plan-optimize-network-performance-for-teams-phone-system	Microsoft Teams relies on network connectivity, and for real-time voice, video, and sharing, good network performance is key to a good user experience. In this module, [...]	Friday	Microsoft Learn,Microsoft 365,Microsoft Teams
Use DAX time intelligence functions in Power BI Desktop models	https://learn.microsoft.com/en-us/training/modules/dax-power-bi-time-intelligence	By the end of this module, you'll learn the meaning of time intelligence and how to add time intelligence DAX calculations to your model. These calculations [...]	Friday	Microsoft Learn,Microsoft Power Platform,Microsoft Power Platform Power BI

Design a data model in Power BI	https://learn.microsoft.com/en-us/training/modules/design-model-power-bi	The process of creating a complicated data model in Power BI is straightforward. If your data is coming in from more than one transactional system, before [...]	Friday	Microsoft Learn,Microsoft Power Platform,Microsoft Power Platform Power BI
Introduction to Azure Database for PostgreSQL	https://learn.microsoft.com/en-us/training/modules/intro-to-postgres	Build cloud-native apps with Azure Database for PostgreSQL for the most compatibility.	Friday	Microsoft Learn,Azure,Azure Database for PostgreSQL
Design your migration to Azure	https://learn.microsoft.com/en-us/training/modules/design-your-migration-to-azure	Minimize the time and resources required to migrate your on-premises environment to Azure. Assess your current systems with Azure Migrate, and migrate them with Azure Migrate [...]	Friday	Microsoft Learn,Azure,Azure Migrate
Analyze and optimize data warehouse storage in Azure Synapse Analytics	https://learn.microsoft.com/en-us/training/modules/analyze-optimize-data-warehouse-storage-azure-synapse-analytics	<div>Analyze and optimize data warehouse storage in Azure Synapse Analytics</div>	Friday	Microsoft Learn,Azure Synapse Analytics
Review the principles of code debugging and exception handling	https://learn.microsoft.com/en-us/training/modules/review-principles-code-debugging-exception-handling-c-sharp	This module examines code validation using a combination of testing, debugging, and exception handling. The debugging process and benefits provided by code debugger are reviewed, along [...]	Friday	Microsoft Learn,.NET,.NET Framework,Visual Studio Code
Train deep learning models in Azure Databricks	https://learn.microsoft.com/en-us/training/modules/deep-learning-azure-databricks	Learn how to use deep learning libraries like PyTorch in Azure Databricks, and to distribute training by using Horovod	Friday	Microsoft Learn,Azure Databricks
Migrate Java web applications to Azure App Service	https://learn.microsoft.com/en-us/training/modules/migrate-java-app-azure-app-service	Microsoft Learn module to learn Azure Migrate App Containerization with a hands-on lab using Azure App Service for Java web applications	Friday	Microsoft Learn,Azure,Azure App Service,Azure Migrate
Enable and manage Microsoft Defender for Cloud	https://learn.microsoft.com/en-us/training/modules/azure-security-center	Use Azure Security Center, Azure Defender, and Secure Score to track and improve your security posture in Azure.	Friday	Microsoft Learn,Azure,Azure Defender,Azure Security Center,microsoft-defender Microsoft Defender for Cloud
Store application data with Azure Blob storage	https://learn.microsoft.com/en-us/training/modules/store-app-data-with-azure-blob-storage	Discover how to build an app that stores user files with Azure Blob storage, use Blob storage in a web app, and use the Azure Storage [...]	Friday	Microsoft Learn,Azure,Azure Storage
Discover Azure message queues	https://learn.microsoft.com/en-us/training/modules/discover-azure-message-queue	Discover Azure message queues	Friday	Microsoft Learn,Azure Queue Storage,Azure Service Bus
Introduction to Azure Bastion	https://learn.microsoft.com/en-us/training/modules/intro-to-azure-bastion	Describe how Azure Bastion provides secure and seamless connectivity to your VMs directly in the Azure portal. Determine whether Azure Bastion can	Friday	Microsoft Learn,Azure,Azure Bastion,Azure Virtual Network
