Code with GitHub Codespaces	https://learn.microsoft.com/en-us/training/modules/code-with-	In this tutorial, you'll learn about GitHub Codespaces, its	Tuesday	Microsoft Learn,GitHub

	github-codespaces	lifecycle, how to personalize your codespace, the differences between Codespaces and github.dev, and build a personalized and [...]		
Create and publish custom GitHub actions	https://learn.microsoft.com/en-us/training/modules/create-custom-github-actions	Learn how to create and publish custom GitHub actions.	Tuesday	Microsoft Learn,GitHub
Choose a deployment scenario for HoloLens device management	https://learn.microsoft.com/en-us/training/modules/choose-deployment-strategy-hololens	Learn how to choose a deployment scenario for managing HoloLens devices.	Tuesday	Microsoft Learn,HoloLens
Fine-tune a foundation model with Azure Machine Learning	https://learn.microsoft.com/en-us/training/modules/finetune-foundation-model-with-azure-machine-learning	Learn how to fine-tune a foundation model from the model catalog in Azure Machine Learning.	Tuesday	Microsoft Learn,Azure Machine Learning
Choose a distribution channel for a HoloLens app	https://learn.microsoft.com/en-us/training/modules/choose-distribution-hololens-app	Learn how to choose a distribution channel for your HoloLens app.	Tuesday	Microsoft Learn,HoloLens
Get tips and tricks for teaching MB-210 Microsoft Dynamics 365 Sales Functional Consultant	https://learn.microsoft.com/en-us/training/modules/get-tips-tricks-teach-mb-210-sales-functional-consultant	Learn tips and tricks about preparing for your first teaching session, which labs to use, when and how to introduce technical topics, as well as other [...]	Tuesday	Microsoft Learn,Dynamics 365,Dynamics 365 Customer Service
Refactor Node.js Express APIs into serverless Azure Functions APIs	https://learn.microsoft.com/en-us/training/modules/shift-nodejs-express-apis-serverless	Improve availability and scalability by refactoring existing Node.js Express APIs into Azure Functions serverless APIs.	Tuesday	Microsoft Learn,Azure,Azure Functions
Oversee device profiles	https://learn.microsoft.com/en-us/training/modules/oversee-device-profiles	This module introduces students to monitoring profiles to ensure correct assignments and resolving conflicts when multiple profiles are applied.	Tuesday	Microsoft Learn,Intune,intune configuration-manager,Windows
Enroll devices using Microsoft Intune	https://learn.microsoft.com/en-us/training/modules/enroll-devices-use-intune	Students will learn how to configure and setup Intune to more easily manage Windows, Android, and iOS devices.	Tuesday	Microsoft Learn,entra Azure Active Directory
Execute device profiles	https://learn.microsoft.com/en-us/training/modules/execute-device-profiles	Students learn about the various types of device profiles, and how to create and manage them.	Tuesday	Microsoft Learn,Intune,intune configuration-manager,Windows
Describe the project planning and execution capabilities of Dynamics 365 Project Operations	https://learn.microsoft.com/en-us/training/modules/explore-project-planning-execution-capabilities	This learning path introduces learners to the Dynamics 365 Human Resources application. Learn about core human resources capabilities as compensation and benefits, compliance management, performance management [...]	Wednesday	Microsoft Learn,Dynamics 365 Project Operations
Introduction to TensorFlow using	https://learn.microsoft.com/en-us/training/modules/intro-machine-	Learn how to build a TensorFlow machine learning	Wednesday	Microsoft Learn,Azure,Azure Machine Learning

Keras	learning-keras	model using the Keras API.		
Discover Azure message queues	https://learn.microsoft.com/en-us/training/modules/discover-azure-message-queue	Learn how to integrate Azure Service Bus and Azure Queue storage in to your solution, and how to send and receive message by using .NET.	Wednesday	Microsoft Learn,Azure Queue Storage,Azure Service Bus
Design solutions for securing an organization's data	https://learn.microsoft.com/en-us/training/modules/design-solutions-secure-organization-data	You learn about designing solutions that secure an organization's data using capabilities like Microsoft Purview, Defender for SQL, Defender for Storage.	Wednesday	Microsoft Learn,Azure,Azure Microsoft Sentinel,microsoft-defender Microsoft Defender for Cloud,microsoft-defender Microsoft Defender for Cloud Apps,microsoft-defender Microsoft Defender for Identity
Manage Azure Active Directory identities	https://learn.microsoft.com/en-us/training/modules/manage-azure-active-directory-identities	This module enables you to handle Azure AD tasks, including RBAC, user/group management, PowerShell cmdlets, and AD DS object synchronization. You'll effectively utilize and manage Azure [...]	Wednesday	Microsoft Learn,Azure PowerShell,entra Azure Active Directory Connect,Microsoft Endpoint Manager,Windows Active Directory
Store and iterate through sequences of data using Arrays and the foreach statement in C#	https://learn.microsoft.com/en-us/training/modules/csharp-arrays	Store and iterate through sequences of data using Arrays and the foreach statement in C#	Wednesday	Microsoft Learn,.NET,Visual Studio Code
Design solutions for network security	https://learn.microsoft.com/en-us/training/modules/design-solutions-network-security	You learn how to design secure network solutions using techniques like network segmentation, traffic filtering, network monitoring and posture management.	Wednesday	Microsoft Learn,Azure,Azure Microsoft Sentinel,microsoft-defender Microsoft Defender for Cloud,microsoft-defender Microsoft Defender for Cloud Apps,microsoft-defender Microsoft Defender for Identity
Specify requirements for securing SaaS, PaaS, and IaaS services	https://learn.microsoft.com/en-us/training/modules/specify-requirements-securing-saas-paas-iaas-services	You learn how to analyze security requirements for different cloud offerings (SaaS, PaaS, and IaaS), IoT workloads, web workloads and containers.	Wednesday	Microsoft Learn,Azure,Azure Microsoft Sentinel,microsoft-defender Microsoft Defender for Cloud,microsoft-defender Microsoft Defender for Cloud Apps,microsoft-defender Microsoft Defender for Identity
Design solutions for securing server and client endpoints	https://learn.microsoft.com/en-us/training/modules/design-solutions-securing-server-client-endpoints	You learn how to analyze the security requirements for different types of endpoints including servers, clients, IoT, OT, mobile, and embedded devices. These requirements will take [...]	Wednesday	Microsoft Learn,Azure,Azure Microsoft Sentinel,microsoft-defender Microsoft Defender for Cloud,microsoft-defender Microsoft Defender for Cloud Apps,microsoft-defender Microsoft Defender for Identity
Design solutions for securing applications	https://learn.microsoft.com/en-us/training/modules/design-solutions-secure-applications	You learn how to secure applications, APIs and the development process using techniques like posture management, threat modeling, and secure access for workload identities.	Wednesday	Microsoft Learn,Azure,Azure Microsoft Sentinel,microsoft-defender Microsoft Defender for Cloud,microsoft-defender Microsoft Defender for Cloud Apps,microsoft-defender Microsoft Defender for Identity
Back up and restore databases	https://learn.microsoft.com/en-us/training/modules/backup-restore-databases	Back up and restore databases	Wednesday	Microsoft Learn,Azure,Azure SQL Database,SQL Server
Safeguard public sector data with	https://learn.microsoft.com/en-us/training/modules/safeguard-data-	Conceptual introduction to data residency and	Wednesday	Microsoft Learn,Azure,azure advisor,Azure Blueprints,Azure DDos

Azure	sector	sovereignty and overview of the options provided by Azure for public agencies to protect their data in the cloud.		Protection,Azure Firewall,Azure Key Vault,Azure Microsoft Sentinel,Azure Monitor,Azure Network Watcher,Azure Policy,entra Azure Active Directory,microsoft-defender Microsoft Defender for Cloud
Design solutions for security posture management in hybrid and multicloud environments	https://learn.microsoft.com/en-us/training/modules/design-solutions-security-posture-management-hybrid-multicloud-environments	You learn how to design security posture management solutions that integrate into hybrid and multicloud scenarios using capabilities in Microsoft Defender for Cloud, Azure Arc and [...]	Wednesday	Microsoft Learn,Azure,Azure Microsoft Sentinel,microsoft-defender Microsoft Defender for Cloud,microsoft-defender Microsoft Defender for Cloud Apps,microsoft-defender Microsoft Defender for Identity
Design solutions for security operations	https://learn.microsoft.com/en-us/training/modules/design-solutions-security-operations	You learn techniques to design security operations capabilities including logging, auditing, Security Event Management (SIEM), Security Orchestration and Automated Response (SOAR), and security workflows.	Wednesday	Microsoft Learn,Azure,Azure Microsoft Sentinel,microsoft-defender Microsoft Defender for Cloud,microsoft-defender Microsoft Defender for Cloud Apps,microsoft-defender Microsoft Defender for Identity
Introduction to Azure HDInsight	https://learn.microsoft.com/en-us/training/modules/intro-to-azure-hdinsight	Evaluate whether Azure HDInsight can help your organization process big data. Describe how Azure HDInsight uses popular open-source frameworks that support many scenarios including extract, transform, [...]	Wednesday	Microsoft Learn,Azure,Azure HDInsight
Design a Power Apps canvas app by using Figma	https://learn.microsoft.com/en-us/training/modules/design-canvas-app-figma	Explore how you can take advantage of the rich design features of Figma to create a Power Apps canvas app.	Thursday	Microsoft Learn,Microsoft Power Platform,Microsoft Power Platform Power Apps
Add principles of inclusive design to your Windows app	https://learn.microsoft.com/en-us/training/modules/write-inclusive-windows-apps	Learn how to incorporate principles of inclusive design to make your Windows app into an experience that supports a wide variety of users.	Thursday	Microsoft Learn,Windows
Configure your Windows app to use Narrator and speech recognition	https://learn.microsoft.com/en-us/training/modules/narrator-and-voice-input	In this module, we show you how to use Narrator and custom voice input controls to make your app inclusive to visually impaired users.	Thursday	Microsoft Learn,Windows
Add decision logic to your code using `if`, `else`, and `else if` statements in C#	https://learn.microsoft.com/en-us/training/modules/csharp-if-elseif-else	Add decision logic to your code using `if`, `else`, and `else if` statements in C#	Thursday	Microsoft Learn,.NET,Visual Studio Code
Encrypt network traffic end to end with Azure Application Gateway	https://learn.microsoft.com/en-us/training/modules/end-to-end-encryption-with-app-gateway	Secure the traffic from your users all the way to your web servers by enabling TLS encryption on Application Gateway.	Thursday	Microsoft Learn,Azure,Azure Application Gateway,Azure Virtual Network
Connect data to Microsoft Sentinel using data connectors	https://learn.microsoft.com/en-us/training/modules/connect-data-to-azure-sentinel-with-data-connectors	Connect data to Microsoft Sentinel using data connectors	Thursday	Microsoft Learn,Azure,Azure Log Analytics,Azure Microsoft Sentinel

Go beyond Keras: Customize with TensorFlow	https://learn.microsoft.com/en-us/training/modules/intro-machine-learning-tensorflow	Learn how to build a machine learning model using lower-level TensorFlow concepts.	Thursday	Microsoft Learn,Azure
Creating accessible content with Microsoft 365	https://learn.microsoft.com/en-us/training/modules/accessible-content-m365	This module shows you how to create content with Microsoft 365 in a way that enables greater accessibility.	Thursday	Microsoft Learn,Microsoft 365
Enable secure access to apps for external users with Azure AD B2C	https://learn.microsoft.com/en-us/training/modules/enable-external-access-with-b2c	Use Azure AD B2C as the full-featured identity system for your application, and ensure that users are required to sign in securely by using multi-factor authentication.	Thursday	Microsoft Learn,Azure,entra Azure Active Directory
Introduction to Azure OpenAI Service	https://learn.microsoft.com/en-us/training/modules/explore-azure-openai	With Azure OpenAI, you can build solutions against OpenAI artificial intelligence models within Azure.	Thursday	Microsoft Learn,Azure Bot Service,Azure Cognitive Services,Azure Machine Learning
Perform operations on arrays using helper methods in C#	https://learn.microsoft.com/en-us/training/modules/csharp-arrays-operations	Perform operations on arrays using helper methods in C#	Thursday	Microsoft Learn,.NET,Visual Studio Code
Virtual visits in Microsoft Cloud for Healthcare	https://learn.microsoft.com/en-us/training/modules/virtual-visits	In this module, you'll learn how to configure the virtual visits as part of the Microsoft Cloud for Healthcare. The virtual visit configuration allows clinicians to [...]	Friday	Microsoft Learn,Industry Solutions,Industry Solutions Microsoft Cloud for Healthcare
Deploy and manage Azure IaaS Active Directory domain controllers in Azure	https://learn.microsoft.com/en-us/training/modules/deploy-manage-azure-iaas-active-directory-domain-controllers-azure	Deploy and manage Azure IaaS Active Directory domain controllers in Azure	Friday	Microsoft Learn,Azure,Azure Cloud Shell,Azure Portal,Azure Virtual Machines,entra Azure Active Directory
Create Azure users and groups in Azure Active Directory	https://learn.microsoft.com/en-us/training/modules/create-users-and-groups-in-azure-active-directory	Learn how to create users and groups in Azure Active Directory.	Friday	Microsoft Learn,Azure,entra Azure Active Directory
Configure role-based access control	https://learn.microsoft.com/en-us/training/modules/configure-role-based-access-control	Learn how to use role-based access control (RBAC) to ensure resources are protected, but users can still access the resources they need.	Friday	Microsoft Learn,Azure
Leverage AI tools and resources for your business	https://learn.microsoft.com/en-us/training/modules/leverage-ai-tools	Learn the primary concepts and technologies of AI, and how Microsoft is turning the latest AI into tools, products, and services that organizations can use.	Friday	Microsoft Learn,Azure,Dynamics 365,Microsoft 365
Gather metrics from your Azure Blob Storage containers	https://learn.microsoft.com/en-us/training/modules/gather-metrics-blob-storage	Find out how to use Azure Storage Analytics to track the performance of your Blob Storage containers and to display that blob performance in your dashboard.	Friday	Microsoft Learn,Azure,Azure Blob Storage,Azure Storage
Monitor performance of virtual machines by using Azure	https://learn.microsoft.com/en-us/training/modules/monitor-performance-using-azure-monitor-for-vms	Learn how to use Azure Monitor VM Insights to monitor your organization's Azure virtual machines.	Friday	Microsoft Learn,Azure Log Analytics,Azure Monitor

Monitor VM Insights				
Route system feedback to development teams	https://learn.microsoft.com/en-us/training/modules/route-system-feedback	Learn how continuous monitoring and dashboards give you insight into how customers use your software and where patterns of failure occur.	Saturday	Microsoft Learn,Azure DevOps
