Weekly Update: Saturday September 09 2023 to Saturday September 16 2023

Azure Updates *(22 new azure updates)*

Name	Link	Description	Publication Day	Category
Introducing Graph Semantics in Kusto, a new way to contextualize time series data	https://azure.microsoft.com/en-us/updates/kusto-graph-public-preview/	Analyze networks, connected assets and more with Kusto's graph semantics extension to the Kusto Query Language (KQL). Find out how to contextualize your time series data [...]	Tuesday	Azure Updates,Kusto
Azure Front Door Standard and Premium support bring your own certificated based domain validation	https://azure.microsoft.com/en-us/updates/azure-front-door-standard-and-premium-support-bring-your-own-certificated-based-domain-validation/	Azure Front Door Standard and Premium support bring your own certificated based domain validation, streamlining the steps and efforts required to validate domain ownership.	Tuesday	Azure Updates
Configure load testing in your CI/CD pipeline from Azure portal	https://azure.microsoft.com/en-us/updates/configure-load-testing-in-your-cicd-pipeline-from-azure-portal/	Configure load testing in your CI/CD pipeline from Azure portal in just a few steps.	Wednesday	Azure Updates,AzureLoadTesting
View trends of client-side metrics across test runs in Azure Load Testing	https://azure.microsoft.com/en-us/updates/view-trends-of-clientside-metrics-across-test-runs-in-azure-load-testing/	In Azure Load Testing, you can now view how metrics change over your test runs. You can also set a baseline for test results and compare [...]	Wednesday	Azure Updates,AzureLoadTesting
Generally available: Export Cost Management data to secure	https://azure.microsoft.com/en-us/updates/exportbehindfirewallga/	You can export Cost Management data to secure	Wednesday	Azure Updates,Azure Cost Management and Billing

storage accounts with firewall		storage accounts with firewall.		
Public preview: Standard network features support in US Government region	https://azure.microsoft.com/en-us/updates/public-preview-standard-network-features-support-in-us-government-region/	Standard network features for azure NetApp files are now available in the US Government (VA) region.	Wednesday	Azure Updates
Azure Service Fabric 9.1 Sixth Refresh Release	https://azure.microsoft.com/en-us/updates/azure-service-fabric-91-sixth-refresh-release/	This release includes quality improvements.	Wednesday	Azure Updates
GA: Latest generation burstable VMs – Bsv2, Basv2, and Bpsv2	https://azure.microsoft.com/en-us/updates/ga-latest-generation-burstable-vms-bsv2-basv2-and-bpsv2/	The new second generation burstable VMs provide the lowest cost of entry to the Azure VM portfolio with greater performance.	Wednesday	Azure Updates
New in Kusto: `.show databases entities` command for viewing tables, functions, and more	https://azure.microsoft.com/en-us/updates/kusto-show-databases-entities/	View the entities of all accessible cluster databases with the new `.show databases entities` command for Kusto, and customize the output with various options.	Thursday	Azure Updates,Kusto
Public Preview: Azure Cosmos DB Javascript SDK v4.0	https://azure.microsoft.com/en-us/updates/public-preview-azure-cosmos-db-javascript-sdk-v40/	Open-source Azure Cosmos DB JavaScript v4.0 SDK empowers developers to streamline operations with enhanced ease and efficiency.	Thursday	Azure Updates
General Availability: Azure SQL updates for mid-September 2023	https://azure.microsoft.com/en-us/updates/general-availability-azure-sql-updates-for-midseptember-2023/	General availability enhancements and updates released for Azure SQL in mid-September 2023	Thursday	Azure Updates
Public Preview: Configure customer-managed keys on existing Cosmos DB accounts	https://azure.microsoft.com/en-us/updates/public-preview-configure-customermanaged-keys-on-existing-cosmos-db-accounts/	Configure customer-managed keys for your existing Azure Cosmos DB account with Azure Key Vault.	Thursday	Azure Updates
Generally available: Higher default value for Azure	https://azure.microsoft.com/en-us/updates/generally-available-higher-default-value-for-azure-functions-event-hubs-max-batch-size/	Starting with version 6.0.0 of the Azure Functions Event	Thursday	Azure Updates

Functions Event Hubs max batch size		Hubs extension, a higher default value of 100 will be used for max batch size		
General availability: Use Azure Key Vault to securely store and retrieve access key when mounting Azure Storage as a local share in App Service	https://azure.microsoft.com/en-us/updates/general-availability-use-azure-key-vault-to-securely-store-and-retrieve-access-key-when-mounting-azure-storage-as-a-local-sha/	You can now use Azure Key Vault to securely store and retrieve Azure Storage account access key when mounting it as a local share in App [...]	Thursday	Azure Updates
General availability: Sensitive Data Protection for Application Gateway Web Application Firewall	https://azure.microsoft.com/en-us/updates/general-availability-sensitive-data-protection-for-application-gateway-web-application-firewall-logs/	Protect the sensitive data getting stored in your Web Application Firewall (WAF) using log scrubbing on Azure's regional Web Application Firewall running on Application Gateway.	Friday	Azure Updates
General availability: Azure Backup support for Azure Files in China North2, China East 2, China North 3, and China East 3	https://azure.microsoft.com/en-us/updates/azurefilesbackupinchinaregionsisgenerallyavailable/	Azure Backup now supports Azure Files in China North2, China East 2, China North 3, and China East 3	Friday	Azure Updates
WordPress on App Service – Free hosting plan now in Public Preview	https://azure.microsoft.com/en-us/updates/wordpress-on-app-service-free-hosting-plan-now-in-public-preview/	Easy way to evaluate WordPress on App Service	Friday	Azure Updates
Generally available: Azure Ultra Disk Storage is now available in UK West	https://azure.microsoft.com/en-us/updates/generally-available-azure-ultra-disk-storage-is-now-available-in-uk-west/	Now available in UK West region, Azure Ultra Disk Storage provides high-performance along with sub-millisecond latency for your most-demanding workloads.	Friday	Azure Updates
Preview: Cross Region Restore (CRR) for Recovery Services Agent (MARS) using Azure Backup	https://azure.microsoft.com/en-us/updates/preview-mars-crr/	Cross Region Restore for Recovery Services Agent for Azure Backup customers is now supported and is available for preview in all	Friday	Azure Updates

Name	Link	Description	Publication Day	Category
		Azure public regions.		
General availability: Selective Disk Backup and Restore in Enhanced Policy for Azure VM Backup	https://azure.microsoft.com/en-us/updates/ga-selectivedisk-enhancedpolicy/	We are adding the "Selective Disk Backup and Restore" capability in Enhanced Policy of Azure VM Backup.	Friday	Azure Updates
Preview: Save Azure Backup Recovery Services Agent (MARS) passphrase to Azure Key Vault	https://azure.microsoft.com/en-us/updates/preview-save-azure-backup-recovery-services-agent-mars-passphrase-to-azure-key-vault/	Azure Backup customers using the Recovery Services Agent (MARS) can now save your encryption passphrase directly to Azure Key Vault.	Friday	Azure Updates
Azure Machine Learning – Public Preview for September	https://azure.microsoft.com/en-us/updates/azure-machine-learning-public-preview-for-september/	Three new features now available in Public Preview enable you to utilize vision-based models in the model catalog, enjoy seamless integration with LLMOps through the Prompt [...]	Friday	Azure Updates

Microsoft Learn *(100 new or modified learn modules)*

Name	Link	Description	Publication Day	Category
Create speech-enabled apps with Azure AI services	https://learn.microsoft.com/en-us/training/modules/transcribe-speech-input-text	Create speech-enabled apps with Azure AI services	Wednesday	Microsoft Learn,Azure ai-services
Architect full-stack applications and automate deployments with GitHub	https://learn.microsoft.com/en-us/training/modules/automate-deployments-github-actions-azure	In the language of your choice (Node.js, Python, or .NET), deploy an end-to-end solution to solve the real-world scenario of catching the bus. You'll learn how [...]	Wednesday	Microsoft Learn,Azure DevOps,Azure Functions,Azure Logic Apps,Azure SQL Database,Azure static-web-apps,Azure Web Apps,GitHub
Create and publish a static web app with Gatsby and Azure Static Web Apps	https://learn.microsoft.com/en-us/training/modules/create-deploy-static-webapp-gatsby-app-service	Use Gatsby and React to develop a static web app, then deploy it to the web with Azure Static Web Apps.	Wednesday	Microsoft Learn,Azure,Azure App Service,Azure static-web-apps
Create a web app that uses data to make decisions on the basketball court	https://learn.microsoft.com/en-us/training/modules/optimize-basketball-player-rest-breaks	Create a web app by using JavaScript, Azure, GitHub, and Visual Studio Code to help the Tune Squad coach use data to make decisions on the [...]	Wednesday	Microsoft Learn,Azure,Azure static-web-apps,GitHub,Visual Studio Code
Publish an API to Azure Static Web Apps	https://learn.microsoft.com/en-us/training/modules/publish-static-web-app-api-preview-url	Publish an Angular, React, Svelte, or Vue JavaScript app and API with Azure Static Web Apps and Azure Functions. Deploy your code from GitHub to a [...]	Wednesday	Microsoft Learn,Azure,Azure App Service,Azure Functions,Azure static-web-apps
Deploy a Spring Boot app to Azure App Service	https://learn.microsoft.com/en-us/training/modules/deploy-java-spring-boot-app-service-mysql	Create a Spring Boot application, connect it to a MySQL database, and then deploy to Azure App Service.	Wednesday	Microsoft Learn,Azure,Azure App Service,Azure Database for MySQL
Introduction to machine learning	https://learn.microsoft.com/en-us/training/modules/introduction-to-machine-learning	A high-level overview of machine learning for people with little or no knowledge of computer science and statistics. You learn some essential concepts, explore data, and [...]	Wednesday	Microsoft Learn,Azure,Azure Machine Learning
Get started with Vue	https://learn.microsoft.com/en-us/training/modules/vue-get-started	Learn to create web apps by using Vue.js and JavaScript.	Wednesday	Microsoft Learn,Azure static-web-apps
Introduction to the Altair 8800 and Azure Sphere	https://learn.microsoft.com/en-us/training/modules/altair-azure-sphere-introduction	Introduction to computing fundamentals with Altair 8800 and Azure Sphere.	Wednesday	Microsoft Learn,Azure,Azure IoT Central,Azure Sphere,Azure static-web-apps,Azure Virtual Machines
Authenticate users with Azure Static Web Apps	https://learn.microsoft.com/en-us/training/modules/publish-static-web-app-authentication	Publish an Angular, React, Svelte, or Vue JavaScript app with API and authentication using Azure Static Web Apps and Azure Functions. Deploy your code from GitHub [...]	Wednesday	Microsoft Learn,Azure,Azure App Service,Azure Functions,Azure static-web-apps,Visual Studio Code
Deploy a Django application to Azure	https://learn.microsoft.com/en-us/training/modules/django-	Learn how to deploy an application built with the	Wednesday	Microsoft Learn,Azure App Service,Visual Studio Code

by using PostgreSQL	[deployment](#)	Python framework Django.		
Publish a Blazor WebAssembly app and .NET API with Azure Static Web Apps	https://learn.microsoft.com/en-us/training/modules/publish-app-service-static-web-app-api-dotnet	Publish a Blazor WebAssembly app and .NET API with Azure Static Web Apps	Wednesday	Microsoft Learn,.NET,.NET ASP.NET Core,.NET Blazor,Azure,Azure App Service,Azure Functions,Azure static-web-apps
Implement app registration	https://learn.microsoft.com/en-us/training/modules/implement-app-registration	Line of business developed in-house need registration in Azure AD and assigned to users for a secure Azure solution. Explore how to implement app registration.	Wednesday	Microsoft Learn,Azure,Azure App Service,entra,entra Azure Active Directory,entra-workload-identities,microsoft-defender Microsoft Defender for Cloud Apps
Set up the Altair emulator and Azure Sphere	https://learn.microsoft.com/en-us/training/modules/altair-azure-sphere-setup	Learn how to set up the Altair 8800 emulator and the Azure Sphere development environment.	Wednesday	Microsoft Learn,Azure,Azure IoT Central,Azure Sphere,Azure static-web-apps,Azure Virtual Machines
Configure Azure App Service	https://learn.microsoft.com/en-us/training/modules/configure-azure-app-services	Configure Azure App Service	Wednesday	Microsoft Learn,Azure App Service
Deploy the Altair emulator to Azure Sphere	https://learn.microsoft.com/en-us/training/modules/altair-azure-sphere-deploy-emulator	Learn how to deploy the Altair 8800 emulator to Azure Sphere.	Wednesday	Microsoft Learn,Azure,Azure IoT Central,Azure Sphere,Azure static-web-apps,Azure Virtual Machines
Rapidly develop and deploy Java apps using GitHub Actions or Azure Pipelines	https://learn.microsoft.com/en-us/training/modules/deploy-java-azure-pipeline-terraform	Create a Terraform configuration, provision your Azure resources, and set up your project for continuous integration and continuous delivery (CI/CD) by using either GitHub Actions or [...]	Wednesday	Microsoft Learn,Azure,Azure App Service,Azure Database for MySQL,Azure Pipelines
Getting started with Vue CLI and single-file components in Vue.js.	https://learn.microsoft.com/en-us/training/modules/vue-cli-components	Learn to create components with Vue CLI and JavaScript.	Wednesday	Microsoft Learn,Azure static-web-apps
Publish an Angular, React, Svelte, or Vue JavaScript app with Azure Static Web Apps	https://learn.microsoft.com/en-us/training/modules/publish-app-service-static-web-app-api	Publish an Angular, React, Svelte, or Vue JavaScript app with Azure Static Web Apps. Use Visual Studio Code to create and run the web app locally.	Wednesday	Microsoft Learn,Azure,Azure App Service,Azure static-web-apps
React state and events	https://learn.microsoft.com/en-us/training/modules/react-states-events	Work with state and events in React and JavaScript.	Wednesday	Microsoft Learn,Azure static-web-apps
Build forms and optimize form performance in finance and operations apps	https://learn.microsoft.com/en-us/training/modules/build-forms-optimize-finance-operations	Forms are created and managed in Visual Studio and will display to the user as web pages. This module explains how forms are created and managed [...]	Wednesday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Supply Chain Management
Working with data and properties in React components	https://learn.microsoft.com/en-us/training/modules/react-work-with-components-and-data	Learn how to work with React components and data using JavaScript.	Wednesday	Microsoft Learn,Azure static-web-apps
Get started with React	https://learn.microsoft.com/en-us/training/modules/react-get-started	Learn what you need to know to start building apps with React and JavaScript.	Wednesday	Microsoft Learn,Azure static-web-apps

Create and customize Altair 8800 cloud services	https://learn.microsoft.com/en-us/training/modules/altair-azure-sphere-create-web-terminal	Learn how to customize IoT Central, create an Altair web terminal, and run the Altair virtual disk server.	Wednesday	Microsoft Learn,Azure,Azure IoT Central,Azure Sphere,Azure static-web-apps,Azure Virtual Machines
Plan and design the integration of enterprise apps for SSO	https://learn.microsoft.com/en-us/training/modules/plan-design-integration-of-enterprise-apps-for-sso	Enterprise app deployment enables control over which users can access the apps, easily log into apps with single-sign-on, and provide integrated usage reports.	Wednesday	Microsoft Learn,Azure,Azure App Service,entra,entra Azure Active Directory,entra-workload-identities,microsoft-defender Microsoft Defender for Cloud Apps
Deploy a private MQTT broker	https://learn.microsoft.com/en-us/training/modules/altair-azure-sphere-deploy-mqtt-broker	Learn how to deploy your own private MQTT broker.	Wednesday	Microsoft Learn,Azure,Azure IoT Central,Azure Sphere,Azure static-web-apps,Azure Virtual Machines
Scale AI in your organization	https://learn.microsoft.com/en-us/training/modules/scale-ai	Learn enterprise AI management with our free open online course, including scaling AI.	Wednesday	Microsoft Learn,Azure,Dynamics 365,Microsoft 365
Develop supportive computer science programs with the Guide to Inclusive Computer Science Education	https://learn.microsoft.com/en-us/training/modules/develop-supportive-programs-guide-inclusive-computer-science-education	Gain inspiration and access resources for developing an inclusive computer science education program in your secondary educational setting.	Wednesday	Microsoft Learn,Microsoft MakeCode,Minecraft
Dynamic page displays with Vue.js	https://learn.microsoft.com/en-us/training/modules/vue-dynamic-rendering	Learn how to use dynamic rendering with Vue.js and JavaScript.	Wednesday	Microsoft Learn,Azure static-web-apps
Work with data and events in Vue.js	https://learn.microsoft.com/en-us/training/modules/vue-data-events	Allowing users to interact with data is one of the core goals of Vue.js. In this module, you'll build a Vue app in JavaScript and you'll [...]	Wednesday	Microsoft Learn,Azure static-web-apps
Create an Azure IoT Central application for the Altair emulator and Azure Sphere	https://learn.microsoft.com/en-us/training/modules/altair-azure-sphere-create-iot-central-application	Learn how to create a cloud-based Azure IoT Central application for the Altair 8800 emulator and Azure Sphere.	Wednesday	Microsoft Learn,Azure,Azure IoT Central,Azure Sphere,Azure static-web-apps,Azure Virtual Machines
Create C# methods with parameters	https://learn.microsoft.com/en-us/training/modules/create-c-sharp-methods-parameters	This module covers method parameters, including pass-by-reference and pass-by-value parameter types. This module also covers optional and named arguments.	Wednesday	Microsoft Learn,.NET,Visual Studio Code
Program the Altair 8800 emulator	https://learn.microsoft.com/en-us/training/modules/altair-azure-sphere-program-emulator	Learn how to program the Altair 8800 emulator.	Wednesday	Microsoft Learn,Azure,Azure IoT Central,Azure Sphere,Azure static-web-apps,Azure Virtual Machines
Implement and monitor the integration of enterprise apps for SSO	https://learn.microsoft.com/en-us/training/modules/implement-monitor-integration-of-enterprise-apps-for-sso	Deploying and monitoring enterprise applications to Azure solutions can ensure security. Explore how to deploy on-premises and cloud based apps to users.	Wednesday	Microsoft Learn,Azure,Azure App Service,entra,entra Azure Active Directory,entra-workload-identities,microsoft-defender Microsoft Defender for Cloud Apps
Secure the Altair emulator	https://learn.microsoft.com/en-us/training/modules/altair-azure-sphere-secure-emulator	Learn how to help secure the Altair emulator network communications.	Wednesday	Microsoft Learn,Azure,Azure IoT Central,Azure Sphere,Azure static-web-apps,Azure Virtual Machines

Advanced configuration for Dynamics 365 Customer Insights – Journeys	https://learn.microsoft.com/en-us/training/modules/get-started-advanced-configuration	Administrators use settings to fine-tune application behavior, set marketing defaults, check quotas, manage core marketing settings, and more.	Thursday	Microsoft Learn,Dynamics 365,Dynamics 365 customer-insights-journeys
Access and interpret analytics with Dynamics 365 Customer Insights – Journeys	https://learn.microsoft.com/en-us/training/modules/access-interpret-analytics-marketing	Learn how to access and interpret analytics with Dynamics 365 Customer Insights – Journeys.	Thursday	Microsoft Learn,Dynamics 365,Dynamics 365 customer-insights-journeys
Administer endpoint applications	https://learn.microsoft.com/en-us/training/modules/administer-endpoint-applications	In this module, you're introduced to managing apps on Intune managed devices. The module will then conclude with an overview of how to use IE Mode […]	Thursday	Microsoft Learn,Intune,intune configuration-manager,Microsoft Edge,Windows
Implement role-based security in finance and operations apps	https://learn.microsoft.com/en-us/training/modules/role-security-finance-operations	Finance and operations apps use role-based security to assign access to components in the system. A user who is assigned to a security role has access […]	Thursday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Supply Chain Management
