Weekly Update: Saturday October 08 2022 to Saturday October 15 2022

Azure Updates *(91 new azure updates)*

Name	Link	Description	Publication Day	Category
General availability: Simplified disaster recovery for VMware machines using Azure Site Recovery	https://azure.microsoft.com/en-us/updates/vmware-dr-ga-with-asr/	Today we're officially announcing the general availability of a simpler, more reliable, and modernized way to protect your VMware virtual machines using Azure Site Recovery, for recovering quickly […]	Sunday	Azure Updates,AzureSiteRecovery
General availability: New Azure proximity placement groups feature	https://azure.microsoft.com/en-us/updates/ppgintent/	You can now use the new optional parameter "intent" to specify the VM sizes and zone intended for the proximity placement group.	Tuesday	Azure Updates
Integration Services Environment will be retired on 31 August 2024 – transition to Logic Apps Standard	https://azure.microsoft.com/en-us/updates/integration-services-environment-will-be-retired-on-31-august-2024-transition-to-logic-apps-standard/	Integration service environment in Azure Logic Apps will be retired on 31 August 2024.	Tuesday	Azure Updates
Azure Functions support for Node 12 is ending on 13 December 2022	https://azure.microsoft.com/en-us/updates/azure-functions-support-for-node-12-is-ending-on-13-december-2022/	Update your functions apps to use Azure Functions host version 4 and Node 16.	Tuesday	Azure Updates
Public preview: Confidential VM option for Azure Virtual Desktop	https://azure.microsoft.com/en-us/updates/public-preview-confidential-vm-option-for-azure-virtual-desktop/	You can now choose a confidential VM for your Windows 11 desktop virtualization experience, ensuring that workloads running on your virtual desktop are encrypted in memory […]	Thursday	Azure Updates
Public preview: Azure Active Directory workload identity support in AKS	https://azure.microsoft.com/en-us/updates/public-preview-azure-active-directory-workload-identity-support-in-aks/	Workload identity provides a simpler approach for managing identities and overcomes limitations of Azure Active Directory pod-managed identity.	Thursday	Azure Updates
Public preview: Kubernetes apps on Azure Marketplace	https://azure.microsoft.com/en-us/updates/public-preview-kubernetes-apps-on-azure-marketplace/	Benefit from independent software vendor (ISV) created Kubernetes solutions in the Azure Marketplace that offer simple, click through deployments.	Thursday	Azure Updates
Generally available: ARM64 support in AKS	https://azure.microsoft.com/en-us/updates/generally-available-arm64-support-in-aks/	Benefit from ARM64's better price, compute performance, and lower power utilization in AKS node pools.	Thursday	Azure Updates
Public preview: Azure CNI Overlay mode in Azure Kubernetes Service	https://azure.microsoft.com/en-us/updates/public-preview-azure-cni-overlay-mode-in-azure-kubernetes-service/	Azure Kubernetes Service (AKS) now offers a new network overlay mode that is more efficient in terms of IP utilization.	Thursday	Azure Updates
General availability: AMD-based confidential VMs for Azure Kubernetes Service	https://azure.microsoft.com/en-us/updates/general-availability-amdbased-confidential-vms-for-azure-kubernetes-service/	Announcing the general availability of confidential node pools on Azure Kubernetes Service (AKS) with AMD SEV-SNP confidential VMs.	Thursday	Azure Updates
Generally available: Dapr support for managed identity in Azure Container Apps	https://azure.microsoft.com/en-us/updates/generally-available-dapr-support-for-managed-identity-in-azure-container-apps/	Container Apps now provides support for using Dapr with Managed Identity.	Thursday	Azure Updates
General availability: AMD confidential VM guest attestation	https://azure.microsoft.com/en-us/updates/general-availability-amd-confidential-vm-guest-attestation/	Guest attestation enables verifying the trustworthiness (good state) of the trusted execution environment on which the guest VM is executing.	Thursday	Azure Updates
Generally available: Windows server 2022 host support in AKS	https://azure.microsoft.com/en-us/updates/generally-available-windows-server-2022-host-support-in-aks/	You can now benefit from the latest Windows Server 2022 features in AKS.	Thursday	Azure Updates
General availability: Confidential VM option for	https://azure.microsoft.com/en-us/updates/general-availability-confidential-	Run your SQL Server workloads on the latest AMD-backed confidential virtual	Thursday	Azure Updates

SQL Server on Azure Virtual Machines	vm-option-for-sql-server-on-azure-virtual-machines/	machines, ensuring protection of data in use.		
Generally available: Azure Monitor agent support for Windows clients	https://azure.microsoft.com/en-us/updates/generally-available-azure-monitor-agent-support-for-windows-clients/	Using the new Windows client installer you can now get the benefits of the new agent and data collection rules on your Windows 10 and 11 [...]	Thursday	Azure Updates
Generally available: Azure Monitor agent migration tools	https://azure.microsoft.com/en-us/updates/generally-available-azure-monitor-agent-migration-tools/	Migration to the cost-effective, secure, performant, and manageable new Azure Monitor agent is now made easy using migration tools and helpers.	Thursday	Azure Updates
Public preview: Rules for Azure Kubernetes Service and Log Analytic workspace resources	https://azure.microsoft.com/en-us/updates/public-preview-rules-for-azure-kubernetes-service-and-log-analytic-workspace-resources/	Enable a set of recommended alert rules for your Azure Kubernetes Service and Log Analytics workspace resources.	Thursday	Azure Updates
Public preview: Azure Managed Confidential Consortium Framework	https://azure.microsoft.com/en-us/updates/public-preview-azure-managed-confidential-consortium-framework/	Confidential Consortium Framework is a new Azure service that lets you use open-source for building and managing multi-party applications that require decentralized trust and governance in [...]	Thursday	Azure Updates
Generally available: 5,000 node scale in AKS	https://azure.microsoft.com/en-us/updates/generally-available-5000-node-scale-in-aks/	Generally available: 5,000 node scale in AKS	Thursday	Azure Updates
Public preview: IP Protection SKU for Azure DDoS Protection	https://azure.microsoft.com/en-us/updates/public-preview-ip-protection-sku-for-azure-ddos-protection/	IP Protection is a new SKU that provides cost-effective, enterprise-grade DDoS protection for SMBs and offers the flexibility to enable protection on an individual public IP.	Thursday	Azure Updates
General availability: Azure DNS Private Resolver – hybrid name resolution and conditional forwarding	https://azure.microsoft.com/en-us/updates/general-availability-azure-dns-private-resolver-hybrid-name-resolution-and-conditional-forwarding/	Seamlessly perform conditional forwarding from on-prem to Azure Private DNS Zones and from Azure Virtual Networks to any target DNS server.	Thursday	Azure Updates
Public preview: Azure Monitor managed service for Prometheus	https://azure.microsoft.com/en-us/updates/public-preview-azure-monitor-managed-service-for-prometheus/	Azure Monitor's new fully managed Prometheus compatible service delivers the best of what you like about open-source ecosystem while automating complex tasks such as scaling, high-availability, [...]	Thursday	Azure Updates
Public preview: Azure Kubernetes Service hybrid deployment options	https://azure.microsoft.com/en-us/updates/public-preview-azure-kubernetes-service-hybrid-deployment-options/	Azure Kubernetes Service has new hybrid deployment options.	Thursday	Azure Updates
Public preview: Planned maintenance feature for App Service Environment v3	https://azure.microsoft.com/en-us/updates/public-preview-planned-maintenance-feature-for-app-service-environment-v3/	Get a notification 15 days ahead of planned automatic maintenance and start the maintenance when it is convenient for you.	Thursday	Azure Updates
In development: Larger SKUs for App Service Environment v3	https://azure.microsoft.com/en-us/updates/in-development-larger-skus-for-app-service-environment-v3/	Using the new Isolated v2 SKUs, you can now run larger and more complex workloads.	Thursday	Azure Updates
In development: Day 0 support for .NET 7	https://azure.microsoft.com/en-us/updates/in-development-day-0-support-for-net-7/	Day 0 support for .NET 7.0 on App Service.	Thursday	Azure Updates
In development: Go language support	https://azure.microsoft.com/en-us/updates/in-development-go-language-support/	Go language (v1.18 and v1.19) natively supported on Azure App Service.	Thursday	Azure Updates
Public preview: Stretched clusters for Azure VMware Solution	https://azure.microsoft.com/en-us/updates/public-preview-stretched-clusters-for-azure-vmware-solution/	Microsoft is announcing the public preview of stretched clusters for Azure VMware Solution, providing 99.99% uptime for customers mission critical applications.	Thursday	Azure Updates
Generally available: Azure Hybrid Benefit for AKS and Azure Stack HCI	https://azure.microsoft.com/en-us/updates/generally-available-azure-hybrid-benefit-for-aks-and-azure-stack-hci/	We are expanding Azure Hybrid Benefit for Windows Server Software Assurance (SA) customers to easily modernize with Azure, wherever they are.	Thursday	Azure Updates
Public preview: Customer-managed keys for Azure VMware Solution	https://azure.microsoft.com/en-us/updates/public-preview-customermanaged-keys-for-azure-vmware-solution/	Microsoft is announcing customer-managed keys for Azure VMware Solution. This new feature will support higher security for customers' mission critical workloads.	Thursday	Azure Updates
Generally available: Azure Automanage for Azure Virtual Machines and Arc-enabled servers	https://azure.microsoft.com/en-us/updates/generally-available-azure-automanage-for-azure-virtual-machines-and-arcenabled-servers/	Announcing the general availability for Azure Automanage with expanded configuration options.	Thursday	Azure Updates
General availability: User-assigned managed	https://azure.microsoft.com/en-us/updates/asa-userassignedidentity-ga/	Azure Stream Analytics currently allows you to use user-assigned	Thursday	Azure Updates

identities for Azure Stream Analytics		managed identities to authenticate your job's inputs and outputs.		
General availability: Use managed identities to access Cosmos DB from Stream Analytics	https://azure.microsoft.com/en-us/updates/general-availability-use-managed-identities-to-access-cosmos-db-from-an-azure-stream-analytics-job/	You can use managed identity to authenticate to your Cosmos DB output from Azure Stream Analytics.	Thursday	Azure Updates
Public preview: Azure Elastic SAN	https://azure.microsoft.com/en-us/updates/public-preview-azure-elastic-san/	Azure Elastic SAN is industry's first fully managed storage area network (SAN) offering in the cloud providing an end-to-end experience similar to on-premises SAN.	Thursday	Azure Updates
Generally available: Event Grid integration with AKS	https://azure.microsoft.com/en-us/updates/generally-available-event-grid-integration-with-aks/	You can now get notification via Event Grid when a new Kubernetes version is available on AKS.	Thursday	Azure Updates
Public preview: Azure Monitor Logs – create granular level RBAC for custom tables	https://azure.microsoft.com/en-us/updates/public-preview-azure-monitor-logs-create-granular-level-rbac-for-custom-tables/	Setting RBAC query read action on Azure Monitor Logs table is now publicly available.	Thursday	Azure Updates
Public preview: New Azure Virtual Machine Scale Set and Spot Virtual Machines capabilities	https://azure.microsoft.com/en-us/updates/public-preview-new-azure-virtual-machine-scale-set-and-spot-virtual-machines-capabilities/	You can now include standard VMs and Spot VMs in the same Azure Virtual Machine Scale Set. New VM-series are now supported with Virtual Machine Scale […]	Thursday	Azure Updates
Public preview: Azure Monitor application insights Java profiling, using Java Flight Recorder	https://azure.microsoft.com/en-us/updates/public-preview-azure-monitor-application-insights-java-profiling-using-java-flight-recorder/	Java application profiling using Java Flight Recorder (JFR) is now in preview in Azure Monitor application insights.	Thursday	Azure Updates
Public preview: Support for HANA Instance snapshot integrated with backint logs	https://azure.microsoft.com/en-us/updates/public-preview-support-for-hana-instance-snapshot-integrated-with-backint-logs/	Protect your large HANA databases in Azure Virtual Machines and recover them instantly with Azure Backup for HANA backint certified solution which now supports HANA snapshots.	Thursday	Azure Updates,Azure Backup; SAP HANA Backup; HANA Snapshot
Public preview: Physical job diagram for Stream Analytics job troubleshooting	https://azure.microsoft.com/en-us/updates/public-preview-physical-job-diagram-for-stream-analytics-job-troubleshooting/	The physical job diagram provides rich, instant insights to your Stream Analytics job to help you quickly identify the causes of problems when you troubleshoot issues.	Thursday	Azure Updates,Azure Stream Analytics
Public preview: Native delta lake output connector	https://azure.microsoft.com/en-us/updates/asa-to-delta-lake/	You can now configure a Stream Analytics job to write streaming data to either a new or an existing delta lake yable in Azure Data Lake […]	Thursday	Azure Updates
Generally available: Dapr secrets API support	https://azure.microsoft.com/en-us/updates/generally-available-dapr-secrets-api-support/	You can now use Dapr secrets APIs from your Azure Container Apps and leverage Dapr secret store component references when creating other components in the environment.	Thursday	Azure Updates
Public preview: Support for hybrid rendering with Next.js apps	https://azure.microsoft.com/en-us/updates/public-preview-support-for-hybrid-rendering-with-nextjs-apps/	Azure Static Web Apps now supports zero configuration deployment and hosting of hybrid-rendered Next.js applications.	Thursday	Azure Updates
Public preview: Azure Container Apps Azure Monitor integration	https://azure.microsoft.com/en-us/updates/public-preview-azure-container-apps-azure-monitor-integration/	Azure Container Apps now support using Azure Monitor to send your logs to additional destinations.	Thursday	Azure Updates
Public preview: Computer Vision Image Analysis 4.0	https://azure.microsoft.com/en-us/updates/public-preview-computer-vision-image-analysis-40/	Get results from all Image Analysis visual features including Read (OCR) with only need one API call.	Thursday	Azure Updates
Public preview: Microsoft Azure Deployment Environments	https://azure.microsoft.com/en-us/updates/public-preview-microsoft-azure-deployment-environments/	Azure Deployment Environments has entered public preview and helps dev teams create and manage all types of environments throughout the application lifecycle.	Thursday	Azure Updates
Public preview: Support for HANA System Replication in Azure Backup for HANA	https://azure.microsoft.com/en-us/updates/public-preview-support-for-hana-system-replication-in-azure-backup-for-hana/	Now, if a HANA database fails over with HANA System Replication, backups are automatically continued from the new primary, with Azure Backup for HANA.	Thursday	Azure Updates,Azure Backup; SAP HANA Backup; HANA System Replication
Generally available: Control the minimum TLS version used with Azure Service Bus	https://azure.microsoft.com/en-us/updates/announcing-policy-to-control-the-minimum-tls-version-used-with-azure-service-bus-now-ga/	Configure your Service Bus namespace to require that clients send and receive data with a minimal version of transport layer security (TLS).	Thursday	Azure Updates
Generally available: Service Bus Explorer for the Azure portal	https://azure.microsoft.com/en-us/updates/announcing-service-bus-explorer-for-azure-portal-now-ga/	Manage and work with your messages directly in the portal integrated version of Service Bus Explorer.	Thursday	Azure Updates
Public preview: Job diagram simulator in VS Code	https://azure.microsoft.com/en-us/updates/public-preview-job-diagram-	The job diagram simulator provides a capability to visualize your Stream Analytics job's topology and help you	Thursday	Azure Updates

	simulator-in-azure-stream-analytics-extension-for-vs-code/	improve the query's parallelism as you develop your streaming [...]		
General availability: Stream Analytics no-code editor in Event Hubs	https://azure.microsoft.com/en-us/updates/general-availability-stream-analytics-nocode-editor-in-event-hubs/	Stream Analytics no-code editor enables you to develop a Stream Analytics job in minutes with drag and drop experience. Now, it is generally available with several [...]	Thursday	Azure Updates
Public preview: Oracle to Azure migration with Database Migration Assessment for Oracle	https://azure.microsoft.com/en-us/updates/public-preview-oracle-to-azure-migration-with-database-migration-assessment-for-oracle/	Migrate from Oracle to Azure Database for PostgreSQL with the Database Migration Assessment for Oracle extension available in Azure Data Studio.	Thursday	Azure Updates
General availability: Azure Monitor Logs – capabilities to add value and lower costs	https://azure.microsoft.com/en-us/updates/general-availability-azure-monitor-logs-capabilities-to-add-value-and-lower-costs/	Azure Monitor Logs announce the general availability of capabilities that help you increase cost effectiveness.	Thursday	Azure Updates
Public preview: Azure Active Directory for Azure Database for PostgreSQL – Flexible Server	https://azure.microsoft.com/en-us/updates/public-preview-azure-active-directory-for-azure-database-for-postgresql-flexible-server/	Use Azure Active Directory-based authentication methods using Azure Active Directory principals, managed identities, and groups to connect and access Azure Database for PostgreSQL – Flexible Server.	Thursday	Azure Updates
General availability: Azure Database for MySQL – Flexible Server with AMD compute	https://azure.microsoft.com/en-us/updates/general-availability-azure-database-for-mysql-flexible-server-with-amd-compute/	Take advantage of AMD compute for Azure Database for MySQL – Flexible Server general purpose and business critical tiers, with tuned performance out of the box.	Thursday	Azure Updates
Public preview: MySQL extension for Azure Data Studio	https://azure.microsoft.com/en-us/updates/public-preview-mysql-extension-for-azure-data-studio/	Connect to, query, and develop for MySQL hosted on-premises or in the cloud with the MySQL extension for Azure Data Studio.	Thursday	Azure Updates
Public preview: Azure Database for MySQL – Flexible Server auto scale IO	https://azure.microsoft.com/en-us/updates/public-preview-azure-database-for-mysql-flexible-server-auto-scale-io/	Use auto scale IO to automatically scale the IO on an instance of Azure Database for MySQL – Flexible Server to efficiently adapt for workload needs [...]	Thursday	Azure Updates
Public preview: Infrastructure encryption using customer managed key for PostgreSQL – Flexible Server	https://azure.microsoft.com/en-us/updates/public-preview-infrastructure-encryption-using-customer-managed-key-for-postgresql-flexible-server/	Infrastructure encryption with customer managed keys adds a second layer of encryption for your data at rest using customer managed keys.	Thursday	Azure Updates
General availability: 16MB limit per document in Azure Cosmos DB for MongoDB	https://azure.microsoft.com/en-us/updates/general-availability-16mb-limit-per-document-in-azure-cosmos-db-for-mongodb/	Develop your applications with more flexibility with a higher 16MB document limit in Azure Cosmos DB for MongoDB.	Thursday	Azure Updates
Generally available: Azure Advisor score across all Azure regions	https://azure.microsoft.com/en-us/updates/generally-available-azure-advisor-score-across-all-azure-regions/	Azure Advisor score enables you to quickly prioritize the Azure Advisor recommendations that will have the greatest impact on your workload health.	Thursday	Azure Updates
Generally available: Azure Cosmos DB for PostgreSQL	https://azure.microsoft.com/en-us/updates/generally-available-azure-cosmos-db-for-postgresql/	Build distributed PostgreSQL applications that scale globally with cross-region read replicas with Azure Cosmos DB for PostgreSQL.	Thursday	Azure Updates
Public preview: Azure Resource Topology	https://azure.microsoft.com/en-us/updates/public-preview-azure-resource-topology/	Enhancing network and resource health visualization with unified and dynamic topology across subscriptions, regions, and resource groups.	Thursday	Azure Updates
Public preview: ExpressRoute Traffic Collector	https://azure.microsoft.com/en-us/updates/public-preview-expressroute-traffic-collector/	ExpressRoute Traffic Collector enables sampling of network flows sent over ExpressRoute Direct circuits.	Thursday	Azure Updates
Public preview: Integration of Azure Monitor Agent with connection monitor	https://azure.microsoft.com/en-us/updates/public-preview-integration-of-azure-monitor-agent-with-connection-monitor/	Integration of Azure Monitor Agent support in connection monitor for monitoring connectivity to ARC enabled endpoints.	Thursday	Azure Updates
Generally available: Microsoft Learn Rebrand	https://azure.microsoft.com/en-us/updates/generally-available-microsoft-learn-rebrand/	Explore the new Microsoft Learn at Learn.Microsoft.com.	Thursday	Azure Updates
Public preview: Azure Migrate – SQL Server migration assessment for migration or modernization	https://azure.microsoft.com/en-us/updates/public-preview-azure-migrate-sql-server-migration-assessment-for-migration-or-modernization/	Save cost in Azure for your SQL estate through the new unified discovery and assessment feature in Azure Migrate.	Thursday	Azure Updates
General availability: Azure Stack HCI new features release	https://azure.microsoft.com/en-us/updates/general-availability-azure-stack-hci-new-features-release/	Get the latest features release, version 22H2, for Azure Stack HCI.	Thursday	Azure Updates
General availability: Azure	https://azure.microsoft.com/en-	Azure Data Explorer output from	Thursday	Azure Updates

Data Explorer output from Azure Stream Analytics	us/updates/asa-azuredataexplorer-ga/	Azure Stream Analytics is now generally available.		
Azure Machine Learning—Public preview updates for October 2022/Ignite	https://azure.microsoft.com/en-us/updates/azure-machine-learning-public-preview-updates-for-october-2022ignite/	Features include functionality to promote pipelines and models across workspaces, perform data wrangling at scale, shorten training times, and lower set-up costs with Azure Container for […]	Thursday	Azure Updates
General availability: Azure Premium SSD v2 Disk Storage	https://azure.microsoft.com/en-us/updates/general-availability-azure-premium-ssd-v2-disk-storage/	Premium SSD v2 is the next generation Azure Premium SSD Disk Storage. It offers the most advanced general-purpose block storage solution with the best price-performance.	Thursday	Azure Updates
Generally available: Kusto Trender	https://azure.microsoft.com/en-us/updates/kustotrender/	Kusto Trender is a new JavaScript client library for Kusto focused on IoT scenarios. It is now available on GitHub.	Friday	Azure Updates
Generally available: Azure Site Recovery update rollup 64 – October 2022	https://azure.microsoft.com/en-us/updates/generally-available-azure-site-recovery-update-rollup-64-october-2022/	This update provides the improvements for the latest version of Azure Site Recovery components.	Friday	Azure Updates,Azure Site Recovery
Public preview: Multi-user authorization for Backup vaults	https://azure.microsoft.com/en-us/updates/azure-backup-mua-backup-vaults-preview/	Multi-user authorization provides enhanced protection for your backup data against unauthorized critical operations.	Friday	Azure Updates,Azure Backup,Management,security
Public preview: Immutable vaults for Azure Backup	https://azure.microsoft.com/en-us/updates/azure-backup-immutable-vaults-preview/	Immutable vaults helps you protect your backups against threats like ransomware attacks and malicious actors by ensuring that your backup data cannot be deleted before its […]	Friday	Azure Updates,Azure Backup,Management,security
General availability: Azure NetApp Files application volume group for SAP HANA	https://azure.microsoft.com/en-us/updates/general-availability-azure-netapp-files-application-volume-group-for-sap-hana/	With Azure NetApp Files application volume group (AVG) for SAP HANA, you are able to deploy all volumes required to install and operate an SAP HANA […]	Friday	Azure Updates
Generally available: Windows Admin Center for Azure Virtual Machines	https://azure.microsoft.com/en-us/updates/windows-admin-center-for-azure-virtual-machines/	Windows Admin Center for Azure Virtual Machines is now generally available for you to manage the Operating System of your Windows Server infrastructure in Azure.	Friday	Azure Updates
Public preview: Enhanced soft delete for Azure Backup	https://azure.microsoft.com/en-us/updates/azure-backup-enhanced-soft-delete-preview/	Enhanced soft delete helps you recover your backup data after it has been deleted, giving you protection against data loss scenarios like ransomwares, malicious actors, and […]	Friday	Azure Updates,Azure Backup,Management,security
General availability: Azure Sphere OS version 22.10 expected on October 25	https://azure.microsoft.com/en-us/updates/general-availability-azure-sphere-os-version-2210-expected-on-october-25/	Participate in the retail evaluation now to ensure full compatibility. The OS evaluation period provides 14 days for backward compatibility testing.	Friday	Azure Updates
General availability: Custom network interface name configurations of private endpoints	https://azure.microsoft.com/en-us/updates/general-availability-custom-nic-name-configurations-of-private-endpoints/	Azure private endpoint (PE) support of custom network interface (NIC) names is now generally available. With this feature you can now deploy PE NICs without the […]	Friday	Azure Updates
General availability: Azure Monitor predictive autoscale for Azure Virtual Machine Scale Sets	https://azure.microsoft.com/en-us/updates/general-availability-azure-monitor-predictive-autoscale-for-azure-virtual-machine-scale-sets/	Predictive autoscale manages and scales your virtual machine scale sets by observing and learning from historical CPU usage patterns.	Friday	Azure Updates
General availability: Static IP configurations of private endpoints	https://azure.microsoft.com/en-us/updates/general-availability-static-ip-configurations-of-private-endpoints/	Azure private endpoint support of statically defined IP addresses is now generally available allowing you to provide static IP addresses when configuring your private endpoints.	Friday	Azure Updates,AzurePortal
Azure Percept DK Retirement Announcement	https://azure.microsoft.com/en-us/updates/azure-percept-dk-retirement-announcement/	Azure Percept DK and support from associated Azure services will be retired on March 30th, 2023.	Saturday	Azure Updates
Azure Batch Certificates will be retired on 29 February 2024	https://azure.microsoft.com/en-us/updates/azure-batch-certificates-will-be-retired-on-29-february-2024/	Retirement Notice: Transition to Azure Key Vault before 29 February 2024.	Saturday	Azure Updates,Batch
Azure Static Web Apps extended support for .NET Core 3.1 ends on 3 December 2022	https://azure.microsoft.com/en-us/updates/staticwebappsdotnet3deprecation/	Post 3 December 2022, Azure Static Web Apps will end support for .NET Core 3.1.	Saturday	Azure Updates
Desired state configuration VM Extension for Linux, and Azure Automation DSC support for Linux, will be	https://azure.microsoft.com/en-us/updates/migrate-from-linux-dsc-extension-to-the-guest-configuration-feature-of-azure-policy-by-may-1-2025/	PowerShell DSC Virtual Machine extension for Linux, and Azure Automation DSC support for Linux, will be retired on 30 September 2023	Saturday	Azure Updates

Sunday	Azure Architecture,updated
Finance management apps with Azure DB for MySQL	https://docs.microsoft.com/azure/architecture/solution-ideas/articles/finance-management-apps-using-azure-database-for-mysql	Use Azure Database for MySQL to securely store critical data and provide users with high-value analytics and insights over aggregated data.	Sunday	Azure Architecture,updated
Finance management apps using Azure Database for PostgreSQL	https://docs.microsoft.com/azure/architecture/solution-ideas/articles/finance-management-apps-using-azure-database-for-postgresql	Use Azure Database for PostgreSQL to securely store critical data and provide users with high-value analytics and insights over aggregated data.	Sunday	Azure Architecture,updated

Microsoft Learn *(99 new or modified learn modules)*

Name	Link	Description	Publication Day	Category
Manage regulatory and privacy requirements with Microsoft Priva	https://learn.microsoft.com/en-us/training/modules/manage-regulatory-privacy-requirements-microsoft-priva	Learn how to use Microsoft Priva to manage privacy risk policies and subject rights requests.	Tuesday	Microsoft Learn,Azure Microsoft Purview,Microsoft 365,Office 365
Use Azure Cognitive Services for Language in a Power Virtual Agents bot	https://learn.microsoft.com/en-us/training/modules/cognitive-service-power-virtual-agents	This module describes how to use Azure Cognitive Services for Language in a Power Virtual Agents bot.	Tuesday	Microsoft Learn,Microsoft Power Platform Power Virtual Agents
Set up a Power Virtual Agents bot for voice	https://learn.microsoft.com/en-us/training/modules/pva-voice	This module describes how to set up a Power Virtual Agents bot to use voice.	Tuesday	Microsoft Learn,Microsoft Power Platform Power Virtual Agents
Manage Cloud PCs and Virtual Desktops	https://learn.microsoft.com/en-us/training/modules/manage-virtual-desktops	Use Endpoint Manager to manage Azure Virtual Desktops and Windows 365 cloud PCs.	Tuesday	Microsoft Learn,Microsoft Endpoint Manager,Microsoft Endpoint Manager Endpoint Configuration Manager,Microsoft Endpoint Manager Intune,Windows
Get started with subscription billing in Dynamics 365 Finance	https://learn.microsoft.com/en-us/training/modules/get-started-subscription-billing-finance	Learn about subscription billing in Dynamics 365 Finance.	Tuesday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance
Get started with security roles in Dataverse	https://learn.microsoft.com/en-us/training/modules/get-started-security-roles	Learn how you can set permissions to limit access to an environment, or limit which users can view, edit, or delete data in an environment within [...]	Wednesday	Microsoft Learn,Dynamics 365,Microsoft Power Platform,Microsoft Power Platform Microsoft Dataverse,Microsoft Power Platform Power Apps
Explore fundamentals of Azure Cosmos DB	https://learn.microsoft.com/en-us/training/modules/explore-non-relational-data-stores-azure	Explore fundamentals of Azure Cosmos DB	Thursday	Microsoft Learn,Azure
Connect IoT data to mixed reality with Azure Digital Twin and Unity	https://learn.microsoft.com/en-us/training/modules/connect-iot-hololens-azure-digital-twins-unity	Stream simulated operational telemetry data from physical assets to Azure Digital Twin and visualize data in Unity and mixed reality. Learn how to use an ARM [...]	Thursday	Microsoft Learn,Azure,Azure Cloud Services,Azure Cognitive Services,Azure Digital Twins,Azure Functions,Azure IoT,Azure IoT Hub,Azure SignalR

				Service,HoloLens,Windows,Windows Mixed Reality
Connect to virtual machines through the Azure portal by using Azure Bastion	https://learn.microsoft.com/en-us/training/modules/connect-vm-with-azure-bastion	Learn how to deploy Azure Bastion to securely connect to Azure virtual machines directly within the Azure portal.	Thursday	Microsoft Learn,Azure,Azure Bastion
Publish and use a Language Understanding app	https://learn.microsoft.com/en-us/training/modules/publish-use-language-understand-app	After creating a Language Understanding app, you can publish it and consume it from client applications.	Thursday	Microsoft Learn,Azure Cognitive Services,Azure Language Understanding
Describe cost management in Azure	https://learn.microsoft.com/en-us/training/modules/describe-cost-management-azure	Describe cost management in Azure	Thursday	Microsoft Learn,Azure
Add custom data to your app by using extensions in Microsoft Graph	https://learn.microsoft.com/en-us/training/modules/msgraph-extensions	Add custom data to Microsoft Graph resources by using extensions as a lightweight option instead of an external database.	Thursday	Microsoft Learn,Microsoft 365,Microsoft Graph
Design a solution for backup and disaster recovery	https://learn.microsoft.com/en-us/training/modules/design-solution-for-backup-disaster-recovery	During this module, you learned how to select appropriate backup solutions for Azure workloads. You also learned how to select appropriate disaster recovery options for these […]	Thursday	Microsoft Learn,Azure Backup,Azure Site Recovery
Design governance	https://learn.microsoft.com/en-us/training/modules/design-governance	Azure Architects design and recommend governance solutions.	Thursday	Microsoft Learn,Azure Policy,Azure Resource Manager
Describe Azure identity, access, and security	https://learn.microsoft.com/en-us/training/modules/describe-azure-identity-access-security		Thursday	Microsoft Learn,Azure
Monitor the health and performance of your web apps	https://learn.microsoft.com/en-us/training/modules/monitor-health-performance-of-your-web-applications	Learn how to monitor your solution for performance and issues.	Thursday	Microsoft Learn,Azure,Azure Application Insights
Tune hyperparameters with Azure Databricks	https://learn.microsoft.com/en-us/training/modules/tune-hyperparameters-azure-databricks	Tune hyperparameters with Azure Databricks	Thursday	Microsoft Learn,Azure Databricks
Configure Azure DNS	https://learn.microsoft.com/en-us/training/modules/configure-azure-dns	You will learn how to configure Azure DNS including custom domain names and record sets.	Thursday	Microsoft Learn,Azure DNS
Configure 3D assets for mixed reality in Unity	https://learn.microsoft.com/en-us/training/modules/configure-3d-assets-mixed-reality-unity	Get step-by-step instructions on how to place Prefab 3D assets and models into a Unity scene. Learn about Unity Scriptable Objects and mixed reality design considerations […]	Thursday	Microsoft Learn,Azure,Azure Cloud Services,Azure Cognitive Services,Azure Digital Twins,Azure Functions,Azure IoT,Azure IoT Hub,Azure SignalR Service,HoloLens,Windows,Windows Mixed Reality
Integrate with Azure Pipelines	https://learn.microsoft.com/en-us/training/modules/integrate-azure-pipelines	Integrate with Azure Pipelines	Thursday	Microsoft Learn,Azure,Azure Artifacts,Azure Boards,Azure Cloud Services,Azure DevOps,Azure Pipelines,Azure Repos,Azure Test Plans,GitHub
Configure network security groups	https://learn.microsoft.com/en-us/training/modules/configure-network-security-groups	You will learn how to implement network security groups and ensure network security group rules are correctly applied.	Thursday	Microsoft Learn,Azure
Implement initial configuration of Azure Active Directory	https://learn.microsoft.com/en-us/training/modules/implement-initial-configuration-of-azure-active-directory	Learn to create an initial Azure Active Directory configuration to ensure all the identity solutions available in Azure are ready to use. This module explores how […]	Thursday	Microsoft Learn,Azure,Azure Active Directory Domain Services
Enhance your service availability and data locality by using Azure Traffic Manager	https://learn.microsoft.com/en-us/training/modules/distribute-load-with-traffic-manager	Discover how Azure Traffic Manager provides DNS load balancing for your application to improve the performance and availability of your application.	Thursday	Microsoft Learn,Azure,Azure Traffic Manager,Azure Virtual Network
Plan to deploy the Microsoft Sentinel solution for SAP	https://learn.microsoft.com/en-us/training/modules/plan-microsoft-sentinel-deployment-sap	Understand the Microsoft Sentinel solution for SAP. The module covers the roles of the team members who will work together to design, deploy and implement the […]	Thursday	Microsoft Learn,Azure,Azure Microsoft Sentinel
Explore Azure Pipelines	https://learn.microsoft.com/en-us/training/modules/explore-azure-pipelines	Explore Azure Pipelines	Thursday	Microsoft Learn,Azure,Azure Artifacts,Azure Boards,Azure Cloud Services,Azure DevOps,Azure Pipelines,Azure Repos,Azure Test Plans,GitHub
Build a 3D Scene for mixed reality in Unity	https://learn.microsoft.com/en-us/training/modules/build-3d-scene-mixed-reality-unity	Learn how to create a 3D Scene in Unity using the Microsoft Maps SDK or static terrain. Get familiar with mixed reality scene design, the Unity […]	Thursday	Microsoft Learn,Azure,Azure Cloud Services,Azure Cognitive Services,Azure Digital Twins,Azure Functions,Azure IoT,Azure IoT Hub,Azure SignalR Service,HoloLens,Windows,Windows Mixed Reality
Implement partitioning in Azure Cosmos DB	https://learn.microsoft.com/en-us/training/modules/implement-partitioning-azure-cosmos-db	Learn how partitions are organized in Azure Cosmos DB and how to choose an appropriate partition key for your solution.	Thursday	Microsoft Learn,Azure,Azure Cosmos DB

Orchestrate machine learning with pipelines	https://learn.microsoft.com/en-us/training/modules/create-pipelines-in-aml	Orchestrate machine learning with pipelines	Thursday	Microsoft Learn,Azure,Azure Machine Learning
Describe types of source control systems	https://learn.microsoft.com/en-us/training/modules/describe-types-of-source-control-systems	Describe types of source control systems	Thursday	Microsoft Learn,Azure,Azure Artifacts,Azure Boards,Azure Cloud Services,Azure DevOps,Azure Pipelines,Azure Repos,Azure Test Plans,GitHub
Work with Azure Repos and GitHub	https://learn.microsoft.com/en-us/training/modules/work-azure-repos-github	Work with Azure Repos and GitHub	Thursday	Microsoft Learn,Azure,Azure Artifacts,Azure Boards,Azure Cloud Services,Azure DevOps,Azure Pipelines,Azure Repos,Azure Test Plans,GitHub
Combine query results with set operators	https://learn.microsoft.com/en-us/training/modules/combine-query-results-set-operators	Combine query results with set operators	Thursday	Microsoft Learn,Azure SQL Database,Azure SQL Managed Instance,Azure SQL Server on Virtual Machines,Azure SQL Virtual Machines,SQL Server
Secure Azure Database for PostgreSQL	https://learn.microsoft.com/en-us/training/modules/secure-azure-database-for-postgresql	Azure Database for PostgreSQL includes comprehensive security features including encryption in transit and at rest, authentication, and granting permissions to database users. In this module you […]	Thursday	Microsoft Learn,Azure Database for PostgreSQL
Capture and view page load times in your Azure web app with Application Insights	https://learn.microsoft.com/en-us/training/modules/capture-page-load-times-application-insights	In this module, you'll configure Application Insights and use it to study page load data for an Azure web app.	Thursday	Microsoft Learn,.NET,.NET ASP.NET Core,.NET Core,Azure,Azure Application Insights,Azure Monitor
Introduction to Microsoft Datacenters	https://learn.microsoft.com/en-us/training/modules/introduction-to-microsoft-datacenters	TBD	Thursday	Microsoft Learn,Azure,Azure Cloud Services
Describe monitoring tools in Azure	https://learn.microsoft.com/en-us/training/modules/describe-monitoring-tools-azure	Describe monitoring tools in Azure	Thursday	Microsoft Learn,Azure
Design a security operations strategy	https://learn.microsoft.com/en-us/training/modules/design-security-operations-strategy	Learn how to design a cybersecurity strategy for security operations (SecOps).	Thursday	Microsoft Learn,Azure
Explore core data concepts	https://learn.microsoft.com/en-us/training/modules/explore-core-data-concepts	Explore core data concepts	Thursday	Microsoft Learn,Azure
Manage Microsoft Purview eDiscovery (Premium)	https://learn.microsoft.com/en-us/training/modules/manage-microsoft-purview-ediscovery-premium	Manage Microsoft Purview eDiscovery (Premium)	Thursday	Microsoft Learn,Microsoft 365,Office 365
Migrate a web app to Azure App Service	https://learn.microsoft.com/en-us/training/modules/move-web-application-to-app-services	Learn about the different app hosting options in Azure and perform an app migration.	Thursday	Microsoft Learn,Azure,Azure Key Vault,Azure Migrate,Azure Spring Cloud
Monitor performance of virtual machines by using Azure Monitor VM Insights	https://learn.microsoft.com/en-us/training/modules/monitor-performance-using-azure-monitor-for-vms	Learn how to use Azure Monitor VM Insights to monitor your organization's Azure virtual machines.	Thursday	Microsoft Learn,Azure Log Analytics,Azure Monitor
Implement managed identities	https://learn.microsoft.com/en-us/training/modules/implement-managed-identities	Implement managed identities	Thursday	Microsoft Learn,Azure
Configure storage accounts	https://learn.microsoft.com/en-us/training/modules/configure-storage-accounts	Learn how to configure storage accounts, including replication and endpoints.	Thursday	Microsoft Learn,Azure Storage Accounts
Protect your Azure Virtual Desktop deployment by using Azure Firewall	https://learn.microsoft.com/en-us/training/modules/protect-virtual-desktop-deployment-azure-firewall	Learn how to deploy and configure Azure Firewall to protect outbound network traffic for Azure Virtual Desktop.	Thursday	Microsoft Learn,Azure,Azure Firewall,Azure Virtual Desktop
Describe insider risk capabilities in Microsoft Purview	https://learn.microsoft.com/en-us/training/modules/describe-insider-risk-capabilities-microsoft-365	Describe insider risk capabilities in Microsoft Purview	Thursday	Microsoft Learn,Microsoft 365
Introduction to Azure DDoS Protection	https://learn.microsoft.com/en-us/training/modules/introduction-azure-ddos-protection	Learn how to guard your Azure services from a denial of service attack using Azure DDoS Protection.	Thursday	Microsoft Learn,Azure DDos Protection
Power Pages architecture	https://learn.microsoft.com/en-us/training/modules/power-pages-architecture	This module focuses on the Power Pages architecture, such as how the various components work together to build a site. Additionally, it explains how the components […]	Thursday	Microsoft Learn,Microsoft Power Platform,Microsoft Power Platform Power Apps,Microsoft Power Platform power-pages
Discover Power Pages features	https://learn.microsoft.com/en-us/training/modules/power-pages-features	Power Pages provides a common set of core features to app makers to build powerful portal applications. Numerous Power Apps features map directly to Microsoft Dynamics […]	Thursday	Microsoft Learn,Microsoft Power Platform,Microsoft Power Platform Power Apps,Microsoft Power Platform power-pages

Title	URL	Description	Day	Tags
Introduction to Azure HDInsight	https://learn.microsoft.com/en-us/training/modules/intro-to-azure-hdinsight	Evaluate whether Azure HDInsight can help your organization process big data. Describe how Azure HDInsight uses popular open-source frameworks that support many scenarios including extract, transform, […]	Thursday	Microsoft Learn,Azure,Azure HDInsight
Get started with data analytics	https://learn.microsoft.com/en-us/training/modules/get-started-data-analytics	Get started with data analytics	Thursday	Microsoft Learn,Azure Database for MySQL,Azure Database for PostgreSQL,Azure SQL Database,Azure SQL Server on Virtual Machines,SQL Server
Load balance your web service traffic with Application Gateway	https://learn.microsoft.com/en-us/training/modules/load-balance-web-traffic-with-application-gateway	Improve application resilience by distributing load across multiple servers and use path-based routing to direct web traffic.	Thursday	Microsoft Learn,Azure,Azure Application Gateway,Azure Virtual Network
Learn continuous integration with GitHub Actions	https://learn.microsoft.com/en-us/training/modules/learn-continuous-integration-github-actions	Learn continuous integration with GitHub Actions	Thursday	Microsoft Learn,Azure,Azure Artifacts,Azure Boards,Azure Cloud Services,Azure DevOps,Azure Pipelines,Azure Repos,Azure Test Plans,GitHub
Explore MySQL Architecture	https://learn.microsoft.com/en-us/training/modules/explore-mysql-architecture	Explore the component parts of MySQL, and learn how to find your way around Azure Database for MySQL.	Thursday	Microsoft Learn,Azure Database for MySQL,Azure Storage
Purchase Azure savings plan for compute	https://learn.microsoft.com/en-us/training/modules/azure-savings-plan-for-compute	Purchase Azure savings plan for compute helps customers minimize their operational costs.	Thursday	Microsoft Learn,Azure,Azure Cost Management
Extend the functionality of Azure Cosmos DB for PostgreSQL using extensions	https://learn.microsoft.com/en-us/training/modules/extend-the-functionality-of-azure-cosmos-db-for-postgresql-using-extensions	In this module, you learn how to use PostgreSQL extensions to enhance and extend the functionality of Azure Cosmos DB for PostgreSQL. PostgreSQL allows you to […]	Thursday	Microsoft Learn,Azure,Azure Cosmos DB
Model data for Azure Cosmos DB for PostgreSQL	https://learn.microsoft.com/en-us/training/modules/model-data-azure-cosmos-db-postgresql	In this module, you'll learn how to model, build, and alter a scalable, distributed, relational database in Azure Cosmos DB for PostgreSQL.	Thursday	Microsoft Learn,Azure,Azure Cosmos DB
Manage performance and availability in Azure Cosmos DB for PostgreSQL	https://learn.microsoft.com/en-us/training/modules/manage-performance-availability-azure-cosmos-db-postgresql	Learn how to scale and rebalance data, create read replicas, and enable high availability on an Azure Cosmos DB for PostgreSQL cluster.	Thursday	Microsoft Learn,Azure,Azure Cosmos DB
Ingest and query data using Azure Cosmos DB for PostgreSQL	https://learn.microsoft.com/en-us/training/modules/ingest-query-data-using-azure-cosmos-db-for-postgresql	Understand how data is distributed across Azure Cosmos DB for PostgreSQL to efficiently ingest and query data across the cluster.	Thursday	Microsoft Learn,Azure,Azure Cosmos DB
Manage data assets in the Microsoft Purview Data Catalog	https://learn.microsoft.com/en-us/training/modules/manage-data-assets-in-microsoft-purview-data-catalog	This module will teach you how to use the Microsoft Purview Data Catalog to manage your scanned data assets, curate a business glossary, and browse assets […]	Thursday	Microsoft Learn,Azure,Azure Microsoft Purview
Introduction to Azure Database for PostgreSQL	https://learn.microsoft.com/en-us/training/modules/intro-to-postgres	Build cloud-native apps with Azure Database for PostgreSQL for the most compatibility.	Thursday	Microsoft Learn,Azure,Azure Database for PostgreSQL
Plan hybrid transactional and analytical processing using Azure Synapse Analytics	https://learn.microsoft.com/en-us/training/modules/design-hybrid-transactional-analytical-processing-using-azure-synapse-analytics	Plan hybrid transactional and analytical processing using Azure Synapse Analytics	Thursday	Microsoft Learn,Azure Synapse Analytics
Enable asynchronous messaging in Java apps by using JMS and Azure Service Bus	https://learn.microsoft.com/en-us/training/modules/cloud-scale-messaging-with-jms-service-bus	Send messages to and receive messages from Azure Service Bus with Spring Boot applications.	Thursday	Microsoft Learn,Azure,Azure Service Bus
Configure the network for your virtual machines	https://learn.microsoft.com/en-us/training/modules/configure-network-for-azure-virtual-machines	Learn how to connect your local on-premises networks into Azure using virtual networks, VPN gateways, and Azure ExpressRoute.	Thursday	Microsoft Learn,Azure,Azure ExpressRoute,Azure Virtual Machines,Azure Virtual Network,Azure VPN Gateway
Create a Power Apps for Teams app for Contoso Coffee online workshop	https://learn.microsoft.com/en-us/training/modules/power-apps-teams	In this lab, you'll create an app for Microsoft Teams that allows employees to request Contoso Coffee branded apparel and accessories.	Thursday	Microsoft Learn,Microsoft Power Platform,Microsoft Power Platform Microsoft Dataverse,Microsoft Power Platform Power Apps
Create and manage Power BI assets	https://learn.microsoft.com/en-us/training/modules/create-manage-power-bi-assets	Creating shared data assets for your analytics environment provides structure and consistency. Maintaining those assets is as important, and XMLA endpoint provides additional administrative capabilities.	Thursday	Microsoft Learn,Microsoft Power Platform Power BI
Explore PostgreSQL architecture	https://learn.microsoft.com/en-us/training/modules/explore-postgresql-architecture	PostgreSQL is an open-source relational database system that is now available as a service in Azure. In this module you will learn about the PostgreSQL architecture, […]	Thursday	Microsoft Learn,Azure Database for PostgreSQL
Procedures and functions in PostgreSQL	https://learn.microsoft.com/en-us/training/modules/procedures-functions-postgresql	PostgreSQL supports stored procedures and functions to make SQL queries reusable. In this	Thursday	Microsoft Learn,Azure Database for PostgreSQL

		module you will learn how to create and run stored procedures and functions.		
Distribute your services across Azure virtual networks and integrate them by using virtual network peering	https://learn.microsoft.com/en-us/training/modules/integrate-vnets-with-vnet-peering	Use virtual network peering to enable communication across virtual networks in a way that's secure and minimally complex.	Thursday	Microsoft Learn,Azure,Azure Virtual Network
Manage Microsoft Purview eDiscovery (Standard)	https://learn.microsoft.com/en-us/training/modules/manage-microsoft-purview-ediscovery-standard	Manage Microsoft Purview eDiscovery (Standard)	Thursday	Microsoft Learn,Microsoft 365,Office 365
Configure virtual networks	https://learn.microsoft.com/en-us/training/modules/configure-virtual-networks	You will learn to configure virtual networks and subnets, including IP addressing.	Thursday	Microsoft Learn,Azure Virtual Network
Build a Language Understanding model	https://learn.microsoft.com/en-us/training/modules/build-language-understanding-model	The Language Understanding service enables you to train a language model that apps can use to extract meaning from natural language.	Thursday	Microsoft Learn,Azure Cognitive Services,Azure Language Understanding
Hunt for threats using notebooks in Microsoft Sentinel	https://learn.microsoft.com/en-us/training/modules/perform-threat-hunting-sentinel-with-notebooks	Hunt for threats using notebooks in Microsoft Sentinel	Thursday	Microsoft Learn,Azure,Azure Sentinel
Manage Microsoft Purview Audit (Premium)	https://learn.microsoft.com/en-us/training/modules/manage-microsoft-purview-audit-premium	Manage Microsoft Purview Audit (Premium)	Thursday	Microsoft Learn,Microsoft 365,Office 365
Core components of Power Pages	https://learn.microsoft.com/en-us/training/modules/power-pages-intro	Use Power Pages to create modern data-driven external-facing business websites. Extend Dataverse data to external and internal audiences such as customers, partners, and employees. Empower anyone […]	Thursday	Microsoft Learn,Dynamics 365,Microsoft Power Platform,Microsoft Power Platform Power Apps,Microsoft Power Platform power-pages
Create a chatbot for Contoso Coffee online workshop	https://learn.microsoft.com/en-us/training/modules/power-virtual-agents-teams	Learn how you can call flows from your chatbot topics, connecting your bot to other data sources, so that it can take action on behalf of […]	Thursday	Microsoft Learn,Microsoft Power Platform,Microsoft Power Platform Microsoft Dataverse,Microsoft Power Platform Power Apps
Explore Power Pages design studio	https://learn.microsoft.com/en-us/training/modules/power-pages-studio	Power Pages makers spend most their time building sites in Power Pages design studio. It's important that makers have a full understanding of the capabilities and […]	Thursday	Microsoft Learn,Microsoft Power Platform,Microsoft Power Platform Power Apps,Microsoft Power Platform power-pages
Explore sample Power Apps applications in the Teams store online workshop	https://learn.microsoft.com/en-us/training/modules/sample-power-apps-teams	Learn about the sample applications from Power Apps that are available in the Microsoft Teams store.	Thursday	Microsoft Learn,Microsoft Power Platform,Microsoft Power Platform Microsoft Dataverse,Microsoft Power Platform Power Apps
Explore Power Apps portals	https://learn.microsoft.com/en-us/training/modules/power-pages-explore	Power Pages templates are pre-configured solutions that are available to help accelerate deployment. Site templates provide an environment that is immediately suitable for specific scenarios and […]	Thursday	Microsoft Learn,Microsoft Power Platform,Microsoft Power Platform Power Apps,Microsoft Power Platform power-pages
Create an approval flow for Contoso Coffee online workshop	https://learn.microsoft.com/en-us/training/modules/power-automate-teams	Learn how to work with the Power Automate application for Microsoft Teams.	Thursday	Microsoft Learn,Microsoft Power Platform,Microsoft Power Platform Microsoft Dataverse,Microsoft Power Platform Power Apps,Microsoft Power Platform Power Automate
Use a Power BI report for Contoso Coffee online workshop	https://learn.microsoft.com/en-us/training/modules/power-bi-teams	In this lab, you'll use Power BI to connect to your Microsoft Dataverse tables to build a report about the swag requests.	Thursday	Microsoft Learn,Microsoft Power Platform,Microsoft Power Platform Microsoft Dataverse,Microsoft Power Platform Power Apps
Troubleshoot compliance and retention issues	https://learn.microsoft.com/en-us/training/modules/troubleshoot-compliance-retention-issues	Investigate and diagnose problems with compliance and item retention in your Exchange Online organization, including incorrect retention policies, problems with eDiscovery, and inappropriate holds. MS-220	Thursday	Microsoft Learn,Azure Active Directory,Office 365 Microsoft Defender for Office 365,Office Exchange Server,Office Microsoft Exchange Online,Office Outlook
Create a web app that uses data to make decisions on the basketball court	https://learn.microsoft.com/en-us/training/modules/optimize-basketball-player-rest-breaks	Create a web app by using JavaScript, Azure, GitHub, and Visual Studio Code to help the Tune Squad coach use data to make decisions on the […]	Friday	Microsoft Learn,Azure,Azure App Service Static Web Apps,GitHub,Visual Studio Code
How to build a canvas app	https://learn.microsoft.com/en-us/training/modules/build-app-solution	How to build a canvas app	Friday	Microsoft Learn,Microsoft Power Platform,Microsoft Power Platform Power Apps
Microsoft Azure Well-Architected Framework – Reliability	https://learn.microsoft.com/en-us/training/modules/azure-well-architected-reliability	Learn how to recover from infrastructure and service failure, loss of data, and disasters by incorporating reliability into your architecture.	Friday	Microsoft Learn,Azure,Azure App Service,Azure Application Gateway,Azure Backup,Azure Cosmos DB,Azure Load Balancer,Azure Site Recovery,Azure SQL Database,Azure Storage,Azure Traffic Manager
Configure Azure Blob Storage	https://learn.microsoft.com/en-us/training/modules/configure-	Learn how to configure Azure Blob Storage, including tiers and object replication.	Friday	Microsoft Learn,Azure Blob Storage

	blob-storage			
Publish Teams apps in Microsoft Teams store	https://learn.microsoft.com/en-us/training/modules/microsoft-teams-publish-app-to-store	In this module, we'll discuss how to publish Teams app in Microsoft Teams store.	Friday	Microsoft Learn,Microsoft 365
Mitigate incidents using Microsoft 365 Defender	https://learn.microsoft.com/en-us/training/modules/mitigate-incidents-microsoft-365-defender	Mitigate incidents using Microsoft 365 Defender	Friday	Microsoft Learn,Microsoft 365
Tune queries in Azure Database for PostgreSQL	https://learn.microsoft.com/en-us/training/modules/tune-queries-azure-database-for-postgresql	Relational databases store many different types of data for many different types of applications. Some databases have thousands of users and some have just one user. […]	Friday	Microsoft Learn,Azure Database for PostgreSQL
Implement Azure Synapse Link with Azure Cosmos DB	https://learn.microsoft.com/en-us/training/modules/configure-azure-synapse-link-with-azure-cosmos-db	Implement Azure Synapse Link with Azure Cosmos DB	Friday	Microsoft Learn,Azure Cosmos DB,Azure Synapse Analytics
Troubleshoot VPN gateways in Microsoft Azure	https://learn.microsoft.com/en-us/training/modules/troubleshoot-vpn-gateways	Network configuration and the use of Virtual Private Networks (VPNs) is integral to the success of collaborative working. In this module, we'll look at how to […]	Friday	Microsoft Learn,Azure,Azure ExpressRoute,Azure Virtual Network,Azure Virtual WAN,Azure VPN Gateway
Introduction to Azure Cosmos DB for NoSQL	https://learn.microsoft.com/en-us/training/modules/introduction-to-azure-cosmos-db-sql-api	Learn about the Azure Cosmos DB for NoSQL and determine if it is a good fit for your application.	Friday	Microsoft Learn,Azure Cosmos DB
Describe Azure storage services	https://learn.microsoft.com/en-us/training/modules/describe-azure-storage-services	Azure storage services, tiers, redundancy options, and migration options and tools.	Friday	Microsoft Learn,Azure
Build your first Bicep template	https://learn.microsoft.com/en-us/training/modules/build-first-bicep-template	Learn how to create Bicep templates and create reusable infrastructure as code.	Friday	Microsoft Learn,Azure Resource Manager
Design and implement network security	https://learn.microsoft.com/en-us/training/modules/design-implement-network-security-monitoring	You will learn to design and implement network security solutions such as Azure DDoS, Azure Firewall, Network Security Groups, and Web Application Firewall.	Friday	Microsoft Learn,Azure DDos Protection,Azure Firewall,Azure Firewall Manager,Azure Monitor,Azure Network Watcher,Azure Traffic Manager,Azure Virtual Network,Azure Web Application Firewall
Connect your on-premises network to the Microsoft global network by using ExpressRoute	https://learn.microsoft.com/en-us/training/modules/connect-on-premises-network-with-expressroute	Connect your on-premises systems and users to Azure and Office 365 by using ExpressRoute for private, dedicated, and guaranteed throughput connectivity.	Friday	Microsoft Learn,Azure,Azure ExpressRoute,Azure Virtual Network
Get introduced to the finance and operations apps	https://learn.microsoft.com/en-us/training/modules/get-introduced-finance-operations-apps	Get introduced to the finance and operations apps	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance and Operations
Understand client-server communication in PostgreSQL	https://learn.microsoft.com/en-us/training/modules/understand-client-server-communication-postgresql	PostgreSQL is a client-server system, which allows many clients to connect to a central server. In this module you will learn how PostgreSQL manages connections from […]	Friday	Microsoft Learn,Azure Database for PostgreSQL
Set up Azure Migrate for server migration	https://learn.microsoft.com/en-us/training/modules/m365-azure-migrate-set-up	Learn how to check your prerequisite configurations in Azure and in your VMware vSphere environment and then perform the initial steps in Azure Migrate to choose […]	Friday	Microsoft Learn,Azure,Azure Migrate,Azure Virtual Machines,Microsoft 365
Use Power Query to load data in Dataverse	https://learn.microsoft.com/en-us/training/modules/use-power-query	Learn how to use Power Query to load data in Dataverse.	Friday	Microsoft Learn,Microsoft Power Platform,Microsoft Power Platform Microsoft Dataverse,Microsoft Power Platform Power Apps
Beyond the basics with Flip	https://learn.microsoft.com/en-us/training/modules/beyond-the-basics-with-flipgrid	Educators of all subject areas, early grades through higher education, with a working knowledge of Flip learn to use advanced features of Flip in the classroom […]	Saturday	Microsoft Learn,Flipgrid
