Weekly Update: Saturday September 17 2022 to Saturday September 24 2022

Azure Updates *(11 new azure updates)*

Name	Link	Description	Publication Day	Category
Generally available: Azure Ultra Disk Storage in Qatar Central	https://azure.microsoft.com/en-us/updates/generally-available-azure-ultra-disk-storage-in-qatar-central/	Azure Ultra Disk Storage provides high-performance along with sub-millisecond latency for your most demanding workloads, now available in Qatar Central Azure.	Tuesday	Azure Updates
Generally available: Azure Ultra Disk Storage in Qatar Central	https://azure.microsoft.com/en-us/updates/generally-available-azure-ultra-disk-storage-in-qatar-central/	Azure Ultra Disk Storage provides high-performance along with sub-millisecond latency for your most demanding workloads, now available in Qatar Central Azure.	Tuesday	Azure Updates
Generally available: New KMS DNS in Azure China Cloud	https://azure.microsoft.com/en-us/updates/generally-available-new-kms-dns-in-azure-china-cloud/	All Azure Windows VMs provisioned in Azure China Cloud after December 15, 2022, will be activated via azkms.core.chinacloudapi.cn, which points to two new KMS IP addresses, [...]	Tuesday	Azure Updates,KMS Windows Activation
Generally available: New KMS DNS in Azure China Cloud	https://azure.microsoft.com/en-us/updates/generally-available-new-kms-dns-in-azure-china-cloud/	All Azure Windows VMs provisioned in Azure China Cloud after December 15, 2022, will be activated via azkms.core.chinacloudapi.cn, which points to two new KMS IP addresses, [...]	Tuesday	Azure Updates,KMS Windows Activation
General availability: Improvements to Azure Web Application Firewall (WAF) custom rules	https://azure.microsoft.com/en-us/updates/general-availability-improvements-to-web-application-firewall-waf-custom-rules/	Azure regional Web Application Firewall (WAF) supports operators "Any" and "GreaterThanOrEqual", improving WAF tuning capabilities. Azure's global WAF now supports geo-match filtering using the socket address [...]	Wednesday	Azure Updates
General availability (update): Improved Append Capability on Immutable Storage for Blob Storage	https://azure.microsoft.com/en-us/updates/immutable-storage-for-blob-storage-now-includes-allow-appends-for-block-and-append-blobs-capability/	Immutable storage for Blob Storage on containers now includes a new append capability.	Wednesday	Azure Updates
Generally available: Immutable storage for Azure Data Lake Storage	https://azure.microsoft.com/en-us/updates/immutable-storage-for-azure-data-lake-storage-is-now-generally-available/	Immutable storage for Azure Data Lake Storage is now generally available. Immutable storage provides the capability to store data in a write once, read many (WORM) [...]	Wednesday	Azure Updates
Public preview: Encryption scopes on hierarchical namespace enabled storage accounts	https://azure.microsoft.com/en-us/updates/public-preview-encryption-scopes-on-hierarchical-namespace-enabled-storage-accounts/	You can now use separate encryption keys for each customer in a single hierarchical namespace enabled storage account.	Thursday	Azure Updates,Azure Storage
Public preview: Expanded feature regional availability for Azure NetApp Files backup	https://azure.microsoft.com/en-us/updates/public-preview-expanded-feature-regional-availability-for-azure-netapp-files-backup/	Regional coverage has expanded for Azure NetApp Files backup.	Friday	Azure Updates
Public preview: Customer initiated storage account conversion	https://azure.microsoft.com/en-us/updates/public-preview-customer-initiated-storage-account-redundancy-conversion/	You can now initiate storage account conversions from non-zonal redundancy to zonal redundancy via Azure Portal	Friday	Azure Updates,StorageAccount Replication Redundancy
On 1 October 2025, the Log Analytics alert API in Azure Monitor will be retired	https://azure.microsoft.com/en-us/updates/on-1-october-2025-the-log-analytics-alert-api-in-azure-monitor-will-be-retired/	On 1 October 2025, the Log Analytics alert API in Azure Monitor will be retired.	Saturday	Azure Updates,Log Alerts

Azure Architecture Center *(5 new or updated articles)*

Name	Link	Description	Publication Day	Category
Unisys Dorado mainframe migration to Azure with Astadia and Micro Focus	https://docs.microsoft.com/azure/architecture/example-scenario/mainframe/migrate-unisys-dorado-mainframe-apps-with-astadia-micro-focus	Migrate Unisys Dorado mainframe systems with Astadia and Micro Focus products. Move to Azure without rewriting code, switching data models, or updating screens.	Sunday	Azure Architecture,updated
Deploy Altair Radioss on an Azure virtual machine	https://docs.microsoft.com/azure/architecture/guide/hpc/altair-radioss	Find out how the Altair Radioss analysis solution for nonlinear problems performs on an Azure virtual machine.	Saturday	Azure Architecture,new
Manage hybrid Azure workloads using Windows Admin Center	https://docs.microsoft.com/azure/architecture/hybrid/hybrid-server-os-mgmt	Learn how to design a hybrid Windows Admin Center solution to manage workloads that are hosted on-premises and in Microsoft Azure.	Saturday	Azure Architecture,updated
Azure Stack remote offices and branches	https://docs.microsoft.com/azure/architecture/hybrid/azure-stack-robo	Learn how to design infrastructure for highly available virtualized and containerized workloads in remote office/branch office (ROBO) scenarios.	Saturday	Azure Architecture,updated
Use Azure Stack HCI stretched clusters for disaster recovery	https://docs.microsoft.com/azure/architecture/hybrid/azure-stack-hci-dr	This reference architecture illustrates how to design and implement disaster recovery of Azure Stack HCI by using stretched clustering.	Saturday	Azure Architecture,updated

Microsoft Learn *(100 new or modified learn modules)*

Name	Link	Description	Publication Day	Category
Add custom domain name to Azure Active Directory	https://docs.microsoft.com/en-us/training/modules/add-custom-domain-name-azure-active-directory	Learn how to add custom domain name to Azure Active Directory.	Friday	Microsoft Learn,Azure,Azure Active Directory

Work with performance and monitoring tools in finance and operations apps	https://docs.microsoft.com/en-us/training/modules/performance-monitoring-finance-operations	Learn how to use performance tools and Lifecycle Services environment monitoring tools to enhance your validation and testing experience in finance and operations apps.	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Finance and Operations,Dynamics 365 Supply Chain Management
Explore extensions and the extension framework in finance and operations apps	https://docs.microsoft.com/en-us/training/modules/explore-extensions-framework-finance-operations	Finance and operations apps are customized by using extensions, which let you add functionality to model elements and source code in the Application Object Tree (AOT) [...]	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Finance and Operations,Dynamics 365 Supply Chain Management
Explore design and deployment considerations for finance and operations apps	https://docs.microsoft.com/en-us/training/modules/design-deployment-finance-operations	Identifying design and deployment processes that conform to organizational policies will help you in developing for finance and operations apps, and ensure that code is deployed [...]	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Finance and Operations,Dynamics 365 Supply Chain Management
Get started with Lifecycle Services for finance and operations apps	https://docs.microsoft.com/en-us/training/modules/get-started-lifecycle-services-finance-operations	This module describes the overall functionality of lifecycle services for finance and operations apps.	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Finance and Operations,Dynamics 365 Supply Chain Management
Plan and implement security in finance and operations apps	https://docs.microsoft.com/en-us/training/modules/plan-implement-security-finance-operations	If you understand the security architecture of finance and operations apps, you can customize it to fit the requirements of your business. finance and operations apps, [...]	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Finance and Operations,Dynamics 365 Supply Chain Management
Implement the Data management package API for finance and operations apps	https://docs.microsoft.com/en-us/training/modules/data-package-api-finance-operations	The Data management framework's package representational state transfer (REST) application programming interface (API) lets you integrate with finance and operations apps by using data packages.	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Finance and Operations,Dynamics 365 Supply Chain Management
Prepare data for migration to finance and operations apps	https://docs.microsoft.com/en-us/training/modules/prepare-data-migration-finance-operations	When it is time to migrate data, the more you know, the easier it is to control operational complexity and reduce costs. Your customer's business continuity [...]	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Finance and Operations,Dynamics 365 Supply Chain Management
Create classes in finance and operations apps	https://docs.microsoft.com/en-us/training/modules/create-classes-finance-operations	Classes are blocks of code that contain data and methods. When developing for finance and operations apps, you will use the X++ language to create new [...]	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Finance and Operations,Dynamics 365 Supply Chain Management
Data integrations with finance and operations apps	https://docs.microsoft.com/en-us/training/modules/data-integrations-finance-operations	Integrations are an important component of implementing finance and operations apps. By implementing recurring integrations, you can enable the exchange of documents or files between finance [...]	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Finance and Operations,Dynamics 365 Supply Chain Management
Dynamics 365 solution architecture best practices for data migration	https://docs.microsoft.com/en-us/training/modules/solution-architecture-data-migration	Learn about how migration of data is an essential part of any implementation.	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Commerce,Dynamics 365 Finance,Dynamics 365 Finance and Operations,Dynamics 365 Human Resources,Dynamics 365 Supply Chain Management
Implement common integration features in finance and operations apps	https://docs.microsoft.com/en-us/training/modules/implement-common-integration-features-finance-ops	Learn how to implement common integration features in finance and operations apps	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Finance and Operations,Dynamics 365 Supply Chain Management
Identify data integration patterns and scenarios in finance and operations apps	https://docs.microsoft.com/en-us/training/modules/integration-patterns-finance-operations	As a developer, you are generally part of the data integration scenarios during and after a finance and operations apps implementation. This module explores web application [...]	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Finance and Operations,Dynamics 365 Supply Chain Management
Dynamics 365 solution architecture best practices for business intelligence and reporting	https://docs.microsoft.com/en-us/training/modules/business-intelligence-patterns-finance-operations	This module helps solution architects become aware of common pitfalls (anti-patterns) to avoid them.	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Commerce,Dynamics 365 Finance,Dynamics 365 Finance and Operations,Dynamics 365 Human Resources,Dynamics 365 Project Operations,Dynamics 365 Supply Chain Management
Explore reporting tools in finance and operations apps	https://docs.microsoft.com/en-us/training/modules/explore-reporting-tools-finance-operations	A report is a structured presentation of data. Reporting presents data in a way that lets you make informed decisions by using data visualizations, dashboards, financial [...]	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Finance and Operations,Dynamics 365 Supply Chain Management
Dual-write implementation for Dynamics 365 solutions	https://docs.microsoft.com/en-us/training/modules/dual-write-dynamics-365	The Dual-write implementation workshop guides you through key points to help identify and resolve potential blockers to a successful dual-write implementation.	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Commerce,Dynamics 365 Customer Service,Dynamics 365 Field Service,Dynamics 365 Finance,Dynamics 365 Finance and Operations,Dynamics 365 Human Resources,Dynamics 365 Marketing,Dynamics 365 Project

				Operations,Dynamics 365 Sales,Dynamics 365 Supply Chain Management
Work with extensions for finance and operations apps and Microsoft Power Platform	https://docs.microsoft.com/en-us/training/modules/extensions-finance-operations-power-platform	This module introduces the finance and operations apps and Microsoft Dataverse capabilities, including dual-write and virtual entities and tables.	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Commerce,Dynamics 365 Finance,Dynamics 365 Finance and Operations,Dynamics 365 Supply Chain Management,Microsoft Power Platform Microsoft Dataverse
Build workspaces in finance and operations apps	https://docs.microsoft.com/en-us/training/modules/build-workspaces-finance-operations	Workspaces are personalized work centers with data, reports, and transactions and are designed to increase efficiency of daily tasks. Workspaces can be created and modified by [...]	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Finance and Operations,Dynamics 365 Supply Chain Management
Get help and learn more about finance and operations apps	https://docs.microsoft.com/en-us/training/modules/get-help-finance-operations	This module describes how to get help and find out more about finance and operations apps.	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Finance and Operations,Dynamics 365 Supply Chain Management
Manage data sources with external data stores in finance and operations apps	https://docs.microsoft.com/en-us/training/modules/external-data-sources-finance-operations	Administrators often need access to their data from finance and operations apps, to perform analytics that will help ensure that certain parameters or business metrics are [...]	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Finance and Operations,Dynamics 365 Supply Chain Management
Plan and implement legal entities in finance and operations apps	https://docs.microsoft.com/en-us/training/modules/plan-implement-legal-entities-finance-operations	A legal entity is an organization that is identified through registration with a legal authority. Legal entities can enter into contracts and are required to prepare [...]	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Finance and Operations,Dynamics 365 Supply Chain Management
Tools for code and data upgrade from Dynamics AX 2012 to finance and operations apps	https://docs.microsoft.com/en-us/training/modules/tools-code-data-upgrade-ax-2012-finance-operations	Microsoft supports upgrades from Dynamics AX 2012 R2 and R3 to finance and operations apps. All tools to upgrade are generally available.	Friday	Microsoft Learn,Dynamics 365 Finance,Dynamics 365 Finance and Operations,Dynamics 365 Supply Chain Management
Implement multi-session experiences in Dynamics 365 Customer Service	https://docs.microsoft.com/en-us/training/modules/implement-multi-session-experiences	Learn to implement multi-session experiences in Dynamics 365 Customer Service.	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Customer Service
Navigate finance and operations apps	https://docs.microsoft.com/en-us/training/modules/navigate-finance-operations	This module describes how to navigate in finance and operations apps.	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Finance and Operations,Dynamics 365 Supply Chain Management
Extend elements in finance and operations apps	https://docs.microsoft.com/en-us/training/modules/extend-elements-finance-operations	Elements in finance and operations apps are customized through extensions to help you modify properties, add components, or remove controls.	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Finance and Operations,Dynamics 365 Supply Chain Management
Explore the test framework and tools in finance and operations apps	https://docs.microsoft.com/en-us/training/modules/explore-test-framework-tools-finance-operations	In finance and operations apps, the test framework helps to alleviate risks and provides a system to manage a clean record of testing.	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Finance and Operations,Dynamics 365 Supply Chain Management
Design and plan an implementation of finance and operations apps	https://docs.microsoft.com/en-us/training/modules/design-plan-implementation-finance-operations	This module describes how to design and plan an implementation of finance and operations apps using Lifecycle Services.	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Finance and Operations,Dynamics 365 Supply Chain Management
Explore the ecosystem and main components of finance and operations apps	https://docs.microsoft.com/en-us/training/modules/explore-ecosystem-main-components-finance-operations	Dynamics 365 offers a large range of cloud-driven applications that help organizations optimize their business so they can reach their full potential. This module explores the [...]	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Finance and Operations,Dynamics 365 Supply Chain Management
Use key concepts and setup to integrate finance and operations apps with Microsoft Power Platform	https://docs.microsoft.com/en-us/training/modules/key-concepts-integrate-finance-operations-power-platform	Learn about key concepts and setup to integrate Finance and operations apps.	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Commerce,Dynamics 365 Finance,Dynamics 365 Finance and Operations,Dynamics 365 Human Resources,Dynamics 365 Supply Chain Management,Microsoft Power Platform Microsoft Dataverse
Work with analytics and reporting in finance and operations apps	https://docs.microsoft.com/en-us/training/modules/work-analytics-reporting-finance-operations	Business leaders can make important decisions in their company if they have accurate insight into the underlying financial and operational data. Without data visibility, business leaders [...]	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Finance and Operations,Dynamics 365 Supply Chain Management
Build extended data types and enumerations for finance and operations apps	https://docs.microsoft.com/en-us/training/modules/build-edt-enums-finance-operations	Extended data types (EDTs) and base enumerations (enums) are data types that are created and managed in the development environment. Base enums represent a list of [...]	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Finance and Operations,Dynamics 365 Supply Chain Management
Integrate finance	https://docs.microsoft.com/en-	Finance and operations apps are integrated	Friday	Microsoft Learn,Dynamics 365,Dynamics 365

and operations apps with Microsoft Azure	us/training/modules/integrate-azure-finance-operations	with Microsoft Azure to help power many of its built-in capabilities, such as search and intelligence. This module will focus [...]		Finance,Dynamics 365 Finance and Operations,Dynamics 365 Supply Chain Management
Perform user acceptance testing in finance and operations apps	https://docs.microsoft.com/en-us/training/modules/perform-uat-finance-operations	User acceptance testing is an important step in the go-live preparation. You can use RSAT to automate test cases.	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Finance and Operations,Dynamics 365 Supply Chain Management
Design and build mobile apps for finance and operations apps	https://docs.microsoft.com/en-us/training/modules/design-build-mobile-apps-finance-operations	We live in a digital age, and it's difficult to imagine a day without smart devices. You use mobile apps almost every day for your social [...]	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Finance and Operations,Dynamics 365 Supply Chain Management
Feature management in finance and operations apps	https://docs.microsoft.com/en-us/training/modules/feature-management-finance-operations	The Feature management experience provides a workspace where you can view a list of features that have been delivered in each release. You can use the [...]	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Commerce,Dynamics 365 Finance,Dynamics 365 Finance and Operations,Dynamics 365 Supply Chain Management
Dynamics 365 solution architecture best practices for performance	https://docs.microsoft.com/en-us/training/modules/solution-architecture-performance	Learn how to build an efficient system by using scenario-based approaches and guidance on good patterns (best practices) and anti-patterns (common pitfalls).	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Commerce,Dynamics 365 Finance,Dynamics 365 Finance and Operations,Dynamics 365 Human Resources,Dynamics 365 Project Operations,Dynamics 365 Supply Chain Management
Plan and configure the global address book in finance and operations apps	https://docs.microsoft.com/en-us/training/modules/plan-config-global-address-book-finance-operations	The global address book (GAB) is a centralized repository for master data that must be stored for all internal and external persons and organizations that the [...]	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Finance and Operations,Dynamics 365 Supply Chain Management
Get started with a finance and operations implementation project	https://docs.microsoft.com/en-us/training/modules/get-started-implementation-project	The implementation lifecycle for finance and operations will help you to understand the best practices recommended to accomplishing a successful journey through a finance and operations [...]	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Finance and Operations,Dynamics 365 Supply Chain Management
Work with data management in finance and operations apps	https://docs.microsoft.com/en-us/training/modules/work-data-management-finance-operations	You can export or import data in finance and operations apps by using the Data management workspace. Validate the data by staging the source data, and [...]	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Finance and Operations,Dynamics 365 Supply Chain Management
Manage source code by using version control in finance and operations apps	https://docs.microsoft.com/en-us/training/modules/manage-source-code-version-control-finance-operations	When you're collaborating with other developers, it's important to manage your source code by using version control. For finance and operations apps, source code is managed [...]	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Finance and Operations,Dynamics 365 Supply Chain Management
Get started with B2B e-commerce in Dynamics 365 Commerce	https://docs.microsoft.com/en-us/training/modules/get-started-business-to-business-commerce	This module introduces the concepts, information, and processes for the e-commerce site that relates to the business-to-business processes in Dynamics 365 Commerce.	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Commerce
Get started with subscription billing in Dynamics 365 Finance	https://docs.microsoft.com/en-us/training/modules/get-started-subscription-billing-finance	Learn about subscription billing in Dynamics 365 Finance.	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance
Work with tools and best practices to integrate finance and operations apps with Microsoft Power Platform	https://docs.microsoft.com/en-us/training/modules/tools-finance-operations-power-platform	This module introduces you to the monitoring, troubleshooting, and performance tools of finance and operations apps and the dual-write function in Microsoft Dataverse.	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Commerce,Dynamics 365 Finance,Dynamics 365 Finance and Operations,Dynamics 365 Supply Chain Management,Microsoft Power Platform Microsoft Dataverse
Apply basic performance optimization in finance and operations apps	https://docs.microsoft.com/en-us/training/modules/apply-basic-performance-optimization-finance-operations	By optimizing your development for performance, you can ensure that your work is useful and appreciated by users. As a finance and operations apps developer, you [...]	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Finance and Operations,Dynamics 365 Supply Chain Management
Key differences between Dynamics AX 2012 and finance and operations apps	https://docs.microsoft.com/en-us/training/modules/difference-ax2012-finance-operations	Key differences between Dynamics AX 2012 and finance and operations apps	Friday	Microsoft Learn,Dynamics 365 Finance,Dynamics 365 Finance and Operations,Dynamics 365 Supply Chain Management
Implement data integration concepts and solutions for finance and operations apps	https://docs.microsoft.com/en-us/training/modules/integration-concepts-finance-operations	Connect to your finance and operations apps data by using data entities, where data is accessed outside of the application and with different endpoint and external [...]	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Finance and Operations,Dynamics 365 Supply Chain Management
Get started integrating finance and operations apps with Microsoft Power Platform	https://docs.microsoft.com/en-us/training/modules/get-started-integrate-finance-operations-power-platform	Learn about integrating finance and operations apps with Microsoft Power Platform.	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Commerce,Dynamics 365 Finance,Dynamics 365 Finance and Operations,Dynamics 365 Supply Chain Management,Microsoft Power Platform Microsoft Dataverse

FastTrack Customer Success Program for finance and operations	https://docs.microsoft.com/en-us/training/modules/fasttrack-customer-success-program	The Microsoft FastTrack service is intended to ease your project implementation by offering guidance on best practices and answering your how-to questions from Microsoft engineering resources, [...]	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Finance and Operations,Dynamics 365 Supply Chain Management
Explore the technical architecture of finance and operations apps	https://docs.microsoft.com/en-us/training/modules/explore-technical-architecture-finance-operations	To begin developing for finance and operations, you must understand the core concepts of development, including packages, models, and elements. Additionally, as a developer, you will [...]	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Finance and Operations,Dynamics 365 Supply Chain Management
Compare integrations in finance and operations apps with Dynamics AX 2012	https://docs.microsoft.com/en-us/training/modules/compare-integration-ax-2012-finance-operations	If you are upgrading Dynamics AX 2012 to finance and operations apps, you should understand Dynamics 365 integration concepts and scenarios that are available.	Friday	Microsoft Learn,Dynamics 365 Finance,Dynamics 365 Finance and Operations,Dynamics 365 Supply Chain Management
Implement application lifecycle management in finance and operations apps	https://docs.microsoft.com/en-us/training/modules/application-lifecycle-finance-operations	Application Lifecycle Management (ALM) is the management of computer programs, which includes managing requirements, software architecture, software development, software maintenance, change management, continuous integration, project management, [...]	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Finance and Operations,Dynamics 365 Supply Chain Management
Scale container applications in Azure Kubernetes Services using KEDA	https://docs.microsoft.com/en-us/training/modules/aks-app-scale-keda	Explore what your options are for autoscaling Kubernetes resources, earning when to use each and the know-how to implement KEDA	Friday	Microsoft Learn,Azure,Azure Container Registry,Azure Kubernetes Service
Introduction to Azure Monitor	https://docs.microsoft.com/en-us/training/modules/intro-to-azure-monitor	Learn what Azure Monitor is and where you would use it.	Friday	Microsoft Learn,Azure,Azure Monitor
Deploy Express.js to Azure App Service	https://docs.microsoft.com/en-us/training/modules/javascript-deploy-expressjs-app-service	Deploy an Express.js web app with APIs to Azure App Service.	Friday	Microsoft Learn,Azure,Azure App Service
Configure virtual networks	https://docs.microsoft.com/en-us/training/modules/configure-virtual-networks	You will learn to configure virtual networks and subnets, including IP addressing.	Friday	Microsoft Learn,Azure Virtual Network
Protect your identities with Azure AD Identity Protection	https://docs.microsoft.com/en-us/training/modules/protect-identities-with-aad-idp	Use the advanced detection and remediation of identity-based threats to protect your Azure Active Directory identities and applications from compromise.	Friday	Microsoft Learn,Azure,Azure Active Directory
Identify security vulnerabilities in your codebase with CodeQL	https://docs.microsoft.com/en-us/training/modules/codebase-representation-codeql	In this module, you'll learn about CodeQL. You'll review information about how CodeQL enables you to analyze the code in your GitHub repository and identify security [...]	Friday	Microsoft Learn,GitHub
Identify abnormal time-series data with Anomaly Detector	https://docs.microsoft.com/en-us/training/modules/identify-abnormal-time-series-data-anomaly-detector	Learn how to detect anomalies in real-time from an IoT time-series data stream using univariate Azure Anomaly Detector API. In addition, users will learn how to [...]	Friday	Microsoft Learn,Azure,Azure Anomaly Detector,Azure Cloud Services,Azure Cognitive Services,Azure IoT Hub
Introduction to Azure Backup	https://docs.microsoft.com/en-us/training/modules/intro-to-azure-backup	Evaluate whether Azure Backup is appropriate to use for your backup needs and describe how the features of Azure Backup work to provide backup solutions for [...]	Friday	Microsoft Learn,Azure Backup
Build a Python daemon app that calls a protected API using the Microsoft identity platform	https://docs.microsoft.com/en-us/training/modules/build-daemon-python	Build a Python daemon app that authenticates and acquires tokens from Azure Active Directory (Azure AD) as itself and calls a secure web API.	Friday	Microsoft Learn,Azure
Introduction to Microsoft Graph PowerShell	https://docs.microsoft.com/en-us/training/modules/introduction-to-microsoft-graph-powershell	Evaluate whether Microsoft Graph PowerShell is appropriate to automate your business processes	Friday	Microsoft Learn,Microsoft Graph microsoft-graph-powershell-sdk
Explore relational database services in Azure	https://docs.microsoft.com/en-us/training/modules/explore-provision-deploy-relational-database-offerings-azure	Explore relational database services in Azure	Friday	Microsoft Learn,Azure
Introduction to application provisioning	https://docs.microsoft.com/en-us/training/modules/introduction-to-app-provisioning	By the end of this module, you'll be able to describe how application provisioning works to automatically provision users and evaluate whether application provisioning is appropriate [...]	Friday	Microsoft Learn,Azure
Train a machine learning model for predictive maintenance by	https://docs.microsoft.com/en-us/training/modules/predictive-maintenance-model-builder	In this module, you'll learn how to use ML.NET Model Builder to train and consume a machine learning model for predictive maintenance.	Friday	Microsoft Learn,.NET

using ML.NET Model Builder				
Create dashboards in Azure Data Explorer	https://docs.microsoft.com/en-us/training/modules/create-dashboards-azure-data-explorer	Learn how to create dashboards in Azure Data Explorer. You'll add tiles and visualizations, and then share the dashboard with others.	Friday	Microsoft Learn,Azure,Azure Data Explorer
Code scanning with GitHub CodeQL	https://docs.microsoft.com/en-us/training/modules/code-scanning-with-github-codeql	Learn how to use CodeQL, a powerful static analysis tool, to implement code scanning on GitHub.	Friday	Microsoft Learn,GitHub
Construct Internet of Things devices using the .NET IoT Libraries	https://docs.microsoft.com/en-us/training/modules/create-iot-device-dotnet	In this module, you'll learn how to read environmental sensors and activate relays using the .NET IoT Libraries.	Friday	Microsoft Learn,.NET
Choose a bot-building tool	https://docs.microsoft.com/en-us/training/modules/choose-bot-building-tool	Identify the different tools available from Microsoft that you can use to create bots. Learn about Azure Bot Service, Microsoft Power Visual Agents, QnA Maker, and […]	Friday	Microsoft Learn,Azure,Azure Bot Service
Deploy Express.js web app with MongoDB database to Azure App Service	https://docs.microsoft.com/en-us/training/modules/javascript-deploy-expressjs-app-service-with-database	Learn how to create, configure and deploy an Express.js (Node.js) web app with a MongoDB database to Azure App Service.	Friday	Microsoft Learn,Azure,Azure App Service,Azure Cosmos DB
Introduction to Azure Space	https://docs.microsoft.com/en-us/training/modules/introduction-to-azure-space	Explore some of the ins and outs of the space industry and how it's quickly changing.	Friday	Microsoft Learn,Azure
Authenticate users in a Node web app by using Azure Active Directory B2C	https://docs.microsoft.com/en-us/training/modules/authenticate-users-node-web-app-use-azure-active-directory-b2c	Learn how to authenticate users into a web app by using Azure Active Directory B2C	Friday	Microsoft Learn,Azure Active Directory External Identities,Microsoft Authentication Library for Node
Choose the best networking plugin for AKS	https://docs.microsoft.com/en-us/training/modules/choose-network-plugin-aks	Learn how to choose between Azure CNI and kubenet, two networking plugin options for an Azure Kubernetes Service cluster.	Friday	Microsoft Learn,Azure Kubernetes Service
Deploy Microsoft Purview and scan an Azure Data Lake resource using the Azure portal	https://docs.microsoft.com/en-us/training/modules/deploy-microsoft-purview-scan-data-resources	This module will teach you how to deploy a Microsoft Purview account in your subscription, register and scan an Azure Data Lake resource, and apply permissions […]	Friday	Microsoft Learn,Azure,Azure Microsoft Purview
Characterize an unfamiliar dataset with Azure Data Explorer	https://docs.microsoft.com/en-us/training/modules/characterize-data-azure-data-explorer	Use Azure Data Explorer to characterize an unfamiliar dataset. Explore the schema of the data, run queries to examine the range of the data, and share […]	Friday	Microsoft Learn,Azure,Azure Data Explorer
GitHub administration for GitHub Advanced Security	https://docs.microsoft.com/en-us/training/modules/github-administration-github-advanced-security	Understand where GitHub Advanced Security fits in your software development lifecycle and how to enable and roll it out in your organization	Friday	Microsoft Learn,GitHub
Set up inventory planning in Dynamics 365 Business Central	https://docs.microsoft.com/en-us/training/modules/set-up-inventory-planning-dynamics-365-business-central	Do you want to use inventory planning in Business Central? This module provides information about how to set up items for inventory planning. It also will […]	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Business Central
Manage finance and operations apps implementations by using Lifecycle Services	https://docs.microsoft.com/en-us/training/modules/manage-lifecycle-services-finance-operations	Lifecycle Services helps you host finance and operations apps environments. It provides repeatable processes to support consistent success with each delivery. Lifecycle Services is available to […]	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Finance and Operations,Dynamics 365 Supply Chain Management
Implement role-based security in finance and operations apps	https://docs.microsoft.com/en-us/training/modules/role-security-finance-operations	Finance and operations apps use role-based security to assign access to components in the system. A user who is assigned to a security role has access […]	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Finance and Operations,Dynamics 365 Supply Chain Management
Get started with the extensibility framework in finance and operations apps	https://docs.microsoft.com/en-us/training/modules/get-started-extensibility-finance-operations	Because finance and operations apps is a cloud solution, development of elements and code has evolved for organizations to take continuous updates of the application.	Friday	Microsoft Learn,Dynamics 365 Finance,Dynamics 365 Finance and Operations,Dynamics 365 Supply Chain Management
Updates and upgrades for finance and operations apps	https://docs.microsoft.com/en-us/training/modules/upgrades-updates-finance-operations-apps	The world of enterprise resource planning (ERP) is continuously evolving and helping customers scale up in productivity and streamline their operations. The evolution of finance and […]	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Finance and Operations,Dynamics 365 Supply Chain Management
Connect to Microsoft Power Platform services with finance and operations apps	https://docs.microsoft.com/en-us/training/modules/connect-power-platform-finance-operations	Microsoft Power Platform services like Power Apps and Power Automate, and the Common Data Model are tools that you can use to create efficient ways to […]	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Finance and Operations,Dynamics 365 Supply Chain Management
Build reports for	https://docs.microsoft.com/en-	Organizations have a lot of data. When an	Friday	Microsoft Learn,Dynamics 365,Dynamics 365

finance and operations apps	us/training/modules/build-reports-finance-operations	organization grows, its ability to provide context for all that data becomes increasingly crucial. Reports can organize data [...]		Finance,Dynamics 365 Finance and Operations,Dynamics 365 Supply Chain Management
Build forms and optimize form performance in finance and operations apps	https://docs.microsoft.com/en-us/training/modules/build-forms-optimize-finance-operations	Forms are created and managed in Visual Studio and will display to the user as web pages. This module explains how forms are created and managed [...]	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Finance and Operations,Dynamics 365 Supply Chain Management
Start developing for finance and operations apps by using Visual Studio	https://docs.microsoft.com/en-us/training/modules/customize-visual-studio-finance-operations	Visual Studio is the integrated development environment (IDE) for finance and operations apps. Developers can create deployable packages that contain projects and elements that are stored [...]	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Finance and Operations,Dynamics 365 Supply Chain Management
Personalize finance and operations apps	https://docs.microsoft.com/en-us/training/modules/personalize-finance-operations	By personalizing the user interface in finance and operations apps, you can empower employees of an organization to work more efficiently. Personalization helps department managers to [...]	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Finance and Operations,Dynamics 365 Supply Chain Management
Set up batch jobs in finance and operations apps	https://docs.microsoft.com/en-us/training/modules/setup-batch-jobs-finance-operations	By using batch jobs, you can avoid slowing down your computer or the server during typical working hours. You can run many tasks in finance and [...]	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Finance and Operations,Dynamics 365 Supply Chain Management
Prepare to go-live with finance and operations apps	https://docs.microsoft.com/en-us/training/modules/prepare-go-live-finance-operations	All your hard work becomes a success by moving the implemented solution in finance and operations apps to the production environment. You want a happy customer, [...]	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Finance and Operations,Dynamics 365 Supply Chain Management
Build tables in finance and operations apps	https://docs.microsoft.com/en-us/training/modules/build-tables-finance-operations	While tables aren't always viewable to a user in finance and operations apps, they are important in development. All data in finance and operations apps is [...]	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Finance and Operations,Dynamics 365 Supply Chain Management
Build a Form Recognizer custom skill for Azure Cognitive Search	https://docs.microsoft.com/en-us/training/modules/build-form-recognizer-custom-skill-for-azure-cognitive-search	Learn how to use an Azure Form Recognizer solution as a custom skill to enrich content in an Azure Cognitive Search pipeline.	Friday	Microsoft Learn,Azure Cognitive Services,Azure Form Recognizer
Monitor and maintain Azure Active Directory	https://docs.microsoft.com/en-us/training/modules/monitor-maintain-azure-active-directory	Azure AD audit and diagnostic logs provide a rich view into how users are accessing your Azure solution. Learn to monitor, troubleshoot, and analyze sign-in data.	Friday	Microsoft Learn,Azure,Azure Active Directory
Create a composed Form Recognizer model	https://docs.microsoft.com/en-us/training/modules/create-composed-form-recognizer-model	Learn how to assemble custom models into composed solutions that can analyze different types of your own documents.	Friday	Microsoft Learn,Azure Cognitive Search,Azure Form Recognizer
Plan, implement, and administer Conditional Access	https://docs.microsoft.com/en-us/training/modules/plan-implement-administer-conditional-access	Conditional Access gives a fine granularity of control over which users can do specific activities, access which resources, and how to ensure data and systems are [...]	Friday	Microsoft Learn,Azure,Azure Active Directory
Security Monitoring and Governance	https://docs.microsoft.com/en-us/training/modules/security-monitoring-and-governance	Security Monitoring and Governance	Friday	Microsoft Learn,Azure,Azure Artifacts,Azure Boards,Azure Cloud Services,Azure DevOps,Azure Pipelines,Azure Repos,Azure Test Plans,GitHub
Configure Azure DNS	https://docs.microsoft.com/en-us/training/modules/configure-azure-dns	You will learn how to configure Azure DNS including custom domain names and record sets.	Friday	Microsoft Learn,Azure DNS
Use Microsoft 365 services with model-driven apps in Dynamics 365 customer engagement apps	https://docs.microsoft.com/en-us/training/modules/use-services-model-driven-apps	Learn to use Microsoft 365 services with model-driven apps in Dynamics 365 customer engagement apps .	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Sales
Plan items in Dynamics 365 Business Central	https://docs.microsoft.com/en-us/training/modules/plan-items-dynamics-365-business-central	Once all item planning options are set, you can use the requisition or planning worksheet to have Business Central create planning suggestions. This module explains how [...]	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Business Central
Getting started with Omnichannel for Customer Service	https://docs.microsoft.com/en-us/training/modules/getting-started-omnichannel	With Omnichannel for Dynamics 365 Customer Service, agents can service multiple customers across different channels directly from within their Dynamics 365 environment. This module introduces the [...]	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Customer Service
Set up inventory replenishment in Dynamics 365 Business Central	https://docs.microsoft.com/en-us/training/modules/set-up-inventory-replenishment-dynamics-365-business-central	Do you want to know how to get started with inventory replenishment in Business Central? This module will focus on how to set up requisition management [...]	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Business Central
Work with workflows in	https://docs.microsoft.com/en-us/training/modules/create-use-	Some organizations require that specific processes are approved by a user other	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Finance and

finance and operations apps	workflows-finance-operations	than the person who enters the record. These workflow processes might require manual approval, […]		Operations,Dynamics 365 Supply Chain Management
Consume business events in finance and operations apps	https://docs.microsoft.com/en-us/training/modules/business-events-finance-operations	Business events provide a mechanism that lets external systems receive notifications from finance and operations apps. In this way, the systems can perform business actions in […]	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Finance and Operations,Dynamics 365 Supply Chain Management
