Weekly Update: Saturday March 11 2023 to Saturday March 18 2023

Azure Updates *(40 new azure updates)*

Name	Link	Description	Publication Day	Category
Public Preview: Azure Chaos Studio now available in	https://azure.microsoft.com/en-us/updates/public-preview-azure-chaos-studio-now-available-in/	Azure Chaos Studio is now available in East Asia region.	Tuesday	Azure Updates
Generally available: Immutable vaults for Azure Backup	https://azure.microsoft.com/en-us/updates/azure-backup-immutable-vaults-ga/	Immutable vaults help you protect your backups against threats like ransomware attacks and malicious actors by ensuring that your backup data cannot be deleted before its [...]	Tuesday	Azure Updates
Public preview: Illumio for Azure Firewall	https://azure.microsoft.com/en-us/updates/public-preview-illumio-for-azure-firewall/	Illumio for Azure Firewall enables organizations to understand application traffic and dependencies and apply consistent protection across environments – limiting exposure, containing breaches, and improving efficiency.	Tuesday	Azure Updates
General availability: Ephemeral OS disks supports encryption at host using customer managed keys	https://azure.microsoft.com/en-us/updates/general-availability-ephemeral-os-disks-supports-hostbased-encryption-using-customer-managed-key/	Create Ephemeral VMs with customer managed key encryption types for encryption at host.	Tuesday	Azure Updates
Public preview: Azure Cognitive Service for Vision Powers State-of-the-Art Computer Vision Development	https://azure.microsoft.com/en-us/updates/public-preview-azure-cognitive-service-for-vision-powers-stateoftheart-computer-vision-development/	Extract robust insights from images and video content across multiple industry domains	Wednesday	Azure Updates
Public Preview: Change data capture for Azure Cosmos DB analytical store	https://azure.microsoft.com/en-us/updates/public-preview-change-data-capture-for-azure-cosmos-db-analytical-store/	Build CDC data flows from Azure Cosmos DB analytical store, at no RUs cost, with Azure Synapse Analytics or Azure Data Factory.	Thursday	Azure Updates
General Availability of Azure Hybrid Benefit for SQL Server on Azure VMware Solution	https://azure.microsoft.com/en-us/updates/general-availability-of-azure-hybrid-benefit-for-sql-server-on-azure-vmware-solution/	Customers can now take advantage of the unlimited virtualization licensing capability included with the SQL Server Software Assurance with Azure Hybrid Benefit for SQL Server on [...]	Thursday	Azure Updates
General Availability: Migration feature with Azure Database for PostgreSQL – Flexible Server	https://azure.microsoft.com/en-us/updates/general-availability-migration-feature-with-azure-database-for-postgresql-flexible-server-2/	Use the new migration tool to migrate workloads from Single to Flexible Server on Azure Database for PostgreSQL, a managed service running the open-source Postgres database [...]	Thursday	Azure Updates
Public preview: Database connections support in	https://azure.microsoft.com/en-us/updates/public-preview-database-connections-support-in-azure-	You can now make REST or GraphQL requests to a built-in	Thursday	Azure Updates

Azure Static Web Apps	static-web-apps/	`/data-api` endpoint to retrieve and modify contents of a connected database, without having to write [...]		
Public Preview – Backup for Azure Kubernetes Service (AKS)	https://azure.microsoft.com/en-us/updates/backupforakspublicpreview/	Azure Backup is announcing public preview of Backup for AKS allowing customers to protect their applications by providing ability to backup and restore AKS clusters.	Thursday	Azure Updates
Generally available: Azure Firewall Basic	https://azure.microsoft.com/en-us/updates/generally-available-azure-firewall-basic/	Azure Firewall Basic provides cost-effective, enterprise-grade network security for small and medium businesses (SMBs).	Thursday	Azure Updates
Generally available: Metric charts support for split-by operations on multiple dimensions	https://azure.microsoft.com/en-us/updates/generally-available-metric-charts-support-for-splitby-operations-on-multiple-dimensions/	Azure Portal metric charts will now enable customers to analyze metrics on their Azure resources by supporting the split-by operator on more than one dimension.	Thursday	Azure Updates
Generally available: ContainerLogV2 Schema in Azure Monitor container insights	https://azure.microsoft.com/en-us/updates/generally-available-containerlogv2-schema-in-azure-monitor-container-insights/	Azure Monitor container insights now offers a new, lightweight schema for the container logs in ContainerLogV2	Thursday	Azure Updates
Azure SQL—Public preview updates for mid-March 2023	https://azure.microsoft.com/en-us/updates/azure-sql-public-preview-updates-for-midmarch-2023/	Public preview enhancements and updates released for Azure SQL in mid-March 2023	Thursday	Azure Updates
Public Preview: Performance Plus for Azure Disk Storage	https://azure.microsoft.com/en-us/updates/public-preview-performance-plus-for-azure-disk-storage/	Boost Azure Disk Storage IOPS and throughput with Performance Plus	Thursday	Azure Updates
Generally available: Azure Ultra Disk Storage in Brazil Southeast, South Africa North and UAE North	https://azure.microsoft.com/en-us/updates/generally-available-azure-ultra-disk-storage-in-brazil-southeast-south-africa-north-and-uae-north/	Now available in Brazil Southeast, South Africa North and UAE North region, Azure Ultra Disk Storage provides high performance along with sub-millisecond latency for your most [...]	Thursday	Azure Updates
Public Preview: Collect Syslog from AKS nodes using Azure Monitor container insights	https://azure.microsoft.com/en-us/updates/public-preview-collect-syslog-from-aks-nodes-using-azure-monitor-container-insights-2/	Customers can now collect Syslog from their AKS Clusters using Azure Monitor container insights	Thursday	Azure Updates
New Azure Arc integration with Datadog simplifies hybrid and multi-cloud observability	https://azure.microsoft.com/en-us/updates/new-azure-arc-integration-with-datadog-simplifies-hybrid-and-multicloud-observability/	Today, we're delivering enhanced observability and management with the general availability of the enhanced Azure Arc integration with Datadog.	Thursday	Azure Updates
General Availability: Support for pg_hint_plan and semver extensions in Azure Database for PostgreSQL – Flexible Server	https://azure.microsoft.com/en-us/updates/general-availability-support-for-pghintplan-and-semver-extensions-in-azure-database-for-postgresql-flexible-server/	Use the newly available pg_hint_plan extension to tweak PostgreSQL execution plans and semver extension to do semantic versioning in Azure Database for PostgreSQL – Flexible Server.	Thursday	Azure Updates
Public preview: Data API builder instantly creates modern REST and GraphQL endpoints for modern databases	https://azure.microsoft.com/en-us/updates/public-preview-data-api-builder-instantly-creates-modern-rest-and-graphql-endpoints-for-modern-databases/	Improve development velocity and efficiency via modern REST and GraphQL API using the new data API builder with support for multiple Azure databases.	Thursday	Azure Updates
Azure Red Hat OpenShift version 4.11 now available	https://azure.microsoft.com/en-us/updates/azure-red-hat-openshift-version-411-now-available/	Take advantage of the features in OpenShift version 4.11.	Thursday	Azure Updates
Generally Available: Durable Functions	https://azure.microsoft.com/en-us/updates/generally-available-durable-functions-	You can now use an identity-based connection to access Azure	Thursday	Azure Updates

support of managed identity for Azure Storage	support-of-managed-identity-for-azure-storage/	Storage, instead of embedding secrets in connection strings.		
Generally available: New Azure Monitor audit logging policy released	https://azure.microsoft.com/en-us/updates/generally-available-new-azure-monitor-audit-logging-policy-released/	Azure Monitor is announcing the release of new Azure Policy built-in policies and initiatives for enabling platform logging of audit events for Azure services.	Thursday	Azure Updates
Public preview: Azure Database for MySQL connector for Power Apps, Logic Apps	https://azure.microsoft.com/en-us/updates/public-preview-azure-database-for-mysql-connector-for-power-apps-logic-apps/	Use the Azure Database for MySQL – Flexible Server connector to connect to MySQL data and build with Power Apps and Logic Apps.	Thursday	Azure Updates
Azure Machine Learning – March 2023 Region Expansion Announcement	https://azure.microsoft.com/en-us/updates/azure-machine-learning-march-2023-region-expansion-announcement/	Azure Machine Learning is now Generally Available in the UK West region.	Thursday	Azure Updates
Azure Machine Learning – Public Preview updates for March 2023	https://azure.microsoft.com/en-us/updates/azure-machine-learning-public-preview-updates-for-march-2023/	New feature now available in Public Preview includes the ability to receive troubleshooting documentation on failed environment builds and shorten the training phase of large-scale distributed [...]	Thursday	Azure Updates
Public Preview: Selective Disk Backup and Restore in Enhanced Policy for Azure VM Backup	https://azure.microsoft.com/en-us/updates/preview-selectivedisk-enhancedpolicy/	We are adding the "Selective Disk Backup and Restore" capability in Enhanced Policy of Azure VM Backup.	Thursday	Azure Updates
Generally available: Azure Digital Twins Data history supports Graph updates	https://azure.microsoft.com/en-us/updates/generally-available-azure-digital-twins-data-history-supports-graph-updates/	The Azure Digital Twins Data history now supports historizing twin property updates, twin lifecycle events, and relationship lifecycle events.	Thursday	Azure Updates
Azure Red Hat OpenShift March Updates	https://azure.microsoft.com/en-us/updates/azure-red-hat-openshift-march-updates/	Expanded regional availability and several new features for workload optimization, enhanced security, and performance.	Thursday	Azure Updates
Public preview: Azure Static Web Apps support for A Record	https://azure.microsoft.com/en-us/updates/public-preview-azure-static-web-apps-support-for-a-record/	You can now add an APEX custom domain to your Static Web Apps with A Records	Thursday	Azure Updates
Public Preview: PgBouncer monitoring metrics for Azure Database for PostgreSQL – Flexible Server	https://azure.microsoft.com/en-us/updates/public-preview-pgbouncer-monitoring-metrics-for-azure-database-for-postgresql-flexible-server/	Monitor the PgBouncer process health for Azure Database for PostgreSQL – Flexible Server via Azure Monitor metrics and write custom alert rules on these metrics.	Friday	Azure Updates
Now available: Azure Kubernetes Service Edge Essentials	https://azure.microsoft.com/en-us/updates/now-available-azure-kubernetes-service-edge-essentials/	Azure Kubernetes Service Edge Essentials is a Microsoft supported lightweight Kubernetes distribution that is fine tuned to run on edge devices with constrained resources.	Friday	Azure Updates
Generally available: Azure Monitor integration with Azure Container Apps	https://azure.microsoft.com/en-us/updates/generally-available-azure-monitor-integration-with-azure-container-apps/	You can now choose different destinations for your Azure Container Apps logs	Friday	Azure Updates
Azure Machine Learning – Generally availability updates for March 2023	https://azure.microsoft.com/en-us/updates/azure-machine-learning-generally-availability-updates-for-march-2023/	New features now available in GA include the ability to visualize timeseries models, and create a Compute Instance on behalf of another user.	Friday	Azure Updates

Azure Load Testing support for JMeter 5.5	https://azure.microsoft.com/en-us/updates/azure-load-testing-support-for-jmeter-55/	Azure Load Testing now uses Apache JMeter version 5.5 for running load tests.	Friday	Azure Updates
General Availability: Performance workbooks for Azure PostgreSQL – Flexible Server	https://azure.microsoft.com/en-us/updates/general-availability-performance-workbooks-for-azure-postgresql-flexible-server/	New troubleshooting experiences via monitor workbooks for Azure PostgreSQL – Flexible Server	Friday	Azure Updates
Azure SQL—General availability updates for mid-March 2023	https://azure.microsoft.com/en-us/updates/azure-sql-general-availability-updates-for-midmarch-2023/	General availability enhancements and updates released for Azure SQL in mid-March 2023	Friday	Azure Updates
Preview: JSON support for Active Geo-Replication on Azure Cache for Redis	https://azure.microsoft.com/en-us/updates/preview-json-support-for-active-georeplication-on-azure-cache-for-redis/	Work with JSON-style documents synced across multiple regions.	Friday	Azure Updates
Generally available: Azure SQL Database offline migrations in Azure SQL Migration extension	https://azure.microsoft.com/en-us/updates/generally-available-azure-sql-database-offline-migrations-in-azure-sql-migration-extension/	The Azure SQL Migration extension allows offline database migrations of on-premises and cloud SQL Server databases to Azure SQL Database, providing a comprehensive modernization experience in [...]	Friday	Azure Updates
Public preview: Accelerated Connections for Network Virtual Appliances now in Azure Marketplace	https://azure.microsoft.com/en-us/updates/public-preview-accelerated-connections-for-network-virtual-appliances-now-in-azure-marketplace/	Accelerated Connections is a new product that enhances Accelerated Networking enabled vNICs, enabling customers to increase connections per second and improve performance in multiple active connection [...]	Saturday	Azure Updates

The solutions use Flux v2 and Argo CD.	Sunday	Azure Architecture,updated
Autonomous Vehicle Operations (AVOps) design guide	https://learn.microsoft.com/azure/architecture/guide/machine-learning/avops-design-guide	Get an overview about using Azure services to build an Autonomous Vehicle Operations (AVOps) solution.	Saturday	Azure Architecture,new
Create an Autonomous Vehicle Operations (AVOps) solution	https://learn.microsoft.com/azure/architecture/solution-ideas/articles/avops-architecture	Learn about an architecture that you can use to build automated driving solution by using Azure services.	Saturday	Azure Architecture,new
DevOps checklist	https://learn.microsoft.com/azure/architecture/checklist/dev-ops	Use this checklist to assess your DevOps culture and process. DevOps integrates development, QA, and IT operations into a unified set of processes.	Saturday	Azure Architecture,updated

Microsoft Learn *(100 new or modified learn modules)*

Name	Link	Description	Publication Day	Category
Using Azure NetApp Files application groups with SAP HANA	https://learn.microsoft.com/en-us/training/modules/azure-netapp-files-sap-hana	This module helps you understand Microsoft Azure NetApp Files and how to use the service with virtual machines running SAP HANA.	Tuesday	Microsoft Learn,Azure NetApp Files,Azure Virtual Machines
Introducing Microsoft Dynamics 365 Business Central	https://learn.microsoft.com/en-us/training/modules/intro-dynamics-365-business-central	Microsoft Dynamics 365 Business Central is built and optimized for small and medium businesses. It's an application for companies	Tuesday	Microsoft Learn,Dynamics 365,Dynamics 365 Business Central

		that have outgrown their entry-level business applications [...]		
Create emails, text messages, and push notifications in Dynamics 365 Marketing	https://learn.microsoft.com/en-us/training/modules/marketing-emails-texts-push	Learn to create emails, text messages, and push notifications in Dynamics 365 Marketing.	Tuesday	Microsoft Learn,Dynamics 365 Marketing
Introduction to Content Moderator	https://learn.microsoft.com/en-us/training/modules/intro-to-content-moderator	Discover how Content Moderator can evaluate text, images, and video, for appropriateness.	Tuesday	Microsoft Learn,Azure,Azure Cloud Services,Azure Cognitive Services
Introduction to Azure Advisor	https://learn.microsoft.com/en-us/training/modules/intro-to-azure-advisor	Introduction to Azure Advisor and how to get recommendations for Azure services.	Tuesday	Microsoft Learn,Azure,azure advisor
Secure your data with Azure SQL	https://learn.microsoft.com/en-us/training/modules/azure-sql-secure-data	Secure your data with Azure SQL	Tuesday	Microsoft Learn,Azure,Azure SQL Database
Language understanding in Azure Health Bot	https://learn.microsoft.com/en-us/training/modules/health-bot-language-understanding	Language Understanding plays a fundamental role in the working of Azure Health Bot.	Tuesday	Microsoft Learn,Azure
Automate Deployment of SAP on Azure	https://learn.microsoft.com/en-us/training/modules/automate-deployment-of-sap-azure	After this module, you will be able to run automated deployments of SAP on Azure infrastructure.	Tuesday	Microsoft Learn,Azure,Azure CLIs,Azure Cloud Shell,Azure Resource Manager,Azure SAP HANA on Azure Large Instances
Explore Windows Editions	https://learn.microsoft.com/en-us/training/modules/explore-windows-editions	This module explains Windows editions' features, reasons to choose them, and installation methods. Learners will understand various Windows versions and their installation processes. MD-102	Tuesday	Microsoft Learn,Windows,Windows 10,Windows windows-11
Get started with testing in Python	https://learn.microsoft.com/en-us/training/modules/python-get-started-testing	Use Python's standard library module to write unit tests, and then get exposed to the concepts of other types of testing and how to apply them.	Tuesday	Microsoft Learn,Azure
Introduction to Azure Functions for IoT	https://learn.microsoft.com/en-us/training/modules/intro-azure-functions-iot	Learn about Azure Functions for IoT. University of Oxford	Tuesday	Microsoft Learn,Azure IoT Hub
Introduction to Immersive Reader	https://learn.microsoft.com/en-us/training/modules/intro-to-immersive-reader	Immersive Reader is a tool that embeds reading, math, and text comprehension capabilities into applications. Immersive Reader is an inclusively designed tool that implements proven techniques [...]	Tuesday	Microsoft Learn,Azure,Azure Cognitive Services,Azure Immersive Reader
Manage device authentication	https://learn.microsoft.com/en-us/training/modules/administer-device-authentication	In this module, you learn about device authentication and management in Azure Active Directory. MD-102	Tuesday	Microsoft Learn,Azure
Configure and use built-in master planning in Dynamics 365 Supply Chain Management	https://learn.microsoft.com/en-us/training/modules/configure-use-master-planning-dyn365-supply-chain-mgmt	Businesses in any market, such as retail, manufacturing, distribution, services, and public sector organizations, need functionality to help them	Tuesday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance and Operations,Dynamics 365 Supply Chain Management

		plan for demand and supply of products [...]		
Work with SharePoint Content using the SharePoint Framework	https://learn.microsoft.com/en-us/training/modules/sharepoint-spfx-spcontent	Learn how to work with SharePoint content in SharePoint Framework projects.	Tuesday	Microsoft Learn,Microsoft 365,Office SharePoint Framework
Design a data storage solution for non-relational data	https://learn.microsoft.com/en-us/training/modules/design-data-storage-solution-for-non-relational-data	Azure Architects design and recommend non-relational data storage solutions.	Tuesday	Microsoft Learn,Azure Blob Storage,Azure Disk Storage,Azure Storage,Azure Storage Accounts
Examine threat vectors and data breaches	https://learn.microsoft.com/en-us/training/modules/examine-threat-vectors-data-breaches	This module examines the types of threat vectors and their potential outcomes that organizations must deal with on a daily basis and how users can enable [...]	Tuesday	Microsoft Learn,Microsoft 365,Office 365
Examine Azure Identity Protection	https://learn.microsoft.com/en-us/training/modules/examine-azure-identity-protection	This module examines how Azure Identity Protection provides organizations the same protection systems used by Microsoft to secure identities. MS-102	Tuesday	Microsoft Learn,Microsoft 365,Office 365
Create paginated reports	https://learn.microsoft.com/en-us/training/modules/create-paginated-reports-power-bi	Paginated reports allow report developers to create Power BI artifacts that have tightly controlled rendering requirements. Paginated reports are ideal for creating sales invoices, receipts, purchase [...]	Tuesday	Microsoft Learn,Microsoft Power Platform,Microsoft Power Platform Power BI
Explore security solutions in Microsoft 365 Defender	https://learn.microsoft.com/en-us/training/modules/explore-security-solutions-microsoft-365-defender	This module introduces you to several features in Microsoft 365 that can help protect your organization against cyberthreats, detect when a user or computer has been [...]	Tuesday	Microsoft Learn,Microsoft 365,Office 365
Explore messaging compliance in Microsoft 365	https://learn.microsoft.com/en-us/training/modules/explore-messaging-compliance-microsoft-365	Explore messaging compliance in Microsoft 365	Tuesday	Microsoft Learn,Microsoft 365,Office,Office 365,Office Exchange Server,Office Microsoft Exchange Online
Get started building with Power BI	https://learn.microsoft.com/en-us/training/modules/get-started-with-power-bi	Power BI is a collection of software services and applications that let you connect to all sorts of data sources and create compelling visuals and reports. [...]	Tuesday	Microsoft Learn,Microsoft Power Platform,Microsoft Power Platform Power BI
Customize a Dynamics 365 Business Central integration with Microsoft Dataverse	https://learn.microsoft.com/en-us/training/modules/custom-integration-business-central-dataverse	Learn how to customize your integration of Dynamics 365 Business Central and Dataverse.	Wednesday	Microsoft Learn,Dynamics 365,Dynamics 365 Business Central,Microsoft Power Platform Microsoft Dataverse
Challenge Project – Dynamics 365 Field Service	https://learn.microsoft.com/en-us/training/modules/challenge-project-d365-field-service	Configure Dynamics 365 Field Service to support a scenario for a fictional company. You will be provided high-level specifications on the requirements to complete this project.	Wednesday	Microsoft Learn,Dynamics 365 Field Service

Introduction to Azure Data Lake Storage Gen2	https://learn.microsoft.com/en-us/training/modules/introduction-to-azure-data-lake-storage	Discover how Data Lake Storage provides a repository where you can upload and store unstructured data bringing new efficiencies to processing big data analytics.	Wednesday	Microsoft Learn,Azure,Azure Data Lake
Introduction to data engineering on Azure	https://learn.microsoft.com/en-us/training/modules/introduction-to-data-engineering-azure	This module describes how Microsoft Azure provides a comprehensive platform for data engineering.	Wednesday	Microsoft Learn,Azure
Deploy a Voice channel in Dynamics 365 Customer Service	https://learn.microsoft.com/en-us/training/modules/get-started-voice-channel	The Voice channel in Microsoft Dynamics 365 Customer Service includes many different features and functionalities that call center agents and supervisors can use.	Wednesday	Microsoft Learn,Dynamics 365,Dynamics 365 Customer Service
Administer and configure Dynamics 365 Sales Professional	https://learn.microsoft.com/en-us/training/modules/administer-configure-d365-sales-professional	Connect with SharePoint, import data, manage users, and work with other activities in Dynamics 365 Sales Professional.	Wednesday	Microsoft Learn,Dynamics 365,Dynamics 365 Sales
Examine Microsoft Secure Score	https://learn.microsoft.com/en-us/training/modules/examine-microsoft-secure-score	This module examines how Microsoft Secure Score helps organizations understand what they've done to reduce the risk to their data and show them what they can [...]	Wednesday	Microsoft Learn,Microsoft 365,Office 365
Choose the best Azure IoT service for your application	https://learn.microsoft.com/en-us/training/modules/iot-fundamentals	Examine Azure IoT services, and choose the right service for your scenario. Prepare for AZ-900.	Wednesday	Microsoft Learn,Azure,Azure IoT Central,Azure IoT Hub
Examine Privileged Identity Management	https://learn.microsoft.com/en-us/training/modules/examine-privileged-identity-management	This module examines how Privileged Identity Management ensures users in your organization have just the right privileges to perform the tasks they need to accomplish. MS-102	Wednesday	Microsoft Learn,Microsoft 365,Office 365
Work with warehouse management in Dynamics 365 Supply Chain Management	https://learn.microsoft.com/en-us/training/modules/work-warehouse-management-dyn365-supply-chain-mgmt	The Warehouse management module in Dynamics 365 Supply Chain Management lets you manage warehouse processes in manufacturing, distribution, and retail industries. It has a wide range [...]	Wednesday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance and Operations,Dynamics 365 Supply Chain Management
Create and manage projects in Python	https://learn.microsoft.com/en-us/training/modules/python-create-manage-projects	Learn how to use virtual environments and packages as you create and manage projects in Python.	Wednesday	Microsoft Learn,Azure
Design data integration	https://learn.microsoft.com/en-us/training/modules/design-data-integration	Azure Architects design and recommend data integration solutions.	Wednesday	Microsoft Learn,Azure,Azure Blob Storage,Azure Data Factory,Azure Data Lake,Azure Databricks,Azure Stream Analytics,Azure Synapse Analytics
Understand Azure Active Directory	https://learn.microsoft.com/en-us/training/modules/understand-azure-active-directory	This module equips learners to describe Azure AD – a cloud-based identity and access management service. They'll compare it with AD	Wednesday	Microsoft Learn,Azure,entra Azure Active Directory,Windows Active Directory

		DS, understand its role as [...]		
Execute device profiles	https://learn.microsoft.com/en-us/training/modules/execute-device-profiles	Students learn about the various types of device profiles, and how to create and manage them.	Wednesday	Microsoft Learn,Intune,intune configuration-manager,Windows
Explore the Zero Trust security model	https://learn.microsoft.com/en-us/training/modules/explore-zero-trust-security-model	This module examines the concepts and principles of the Zero Trust security model, as well as how Microsoft 365 supports it, and how your organization can [...]	Wednesday	Microsoft Learn,Microsoft 365,Office 365
Get started with Jupyter notebooks for Python	https://learn.microsoft.com/en-us/training/modules/python-create-run-jupyter-notebook	Get started using Jupyter notebooks for Python programming.	Wednesday	Microsoft Learn,Visual Studio Code
Monitor the health of your Azure virtual machine by using Azure Metrics Explorer and metric alerts	https://learn.microsoft.com/en-us/training/modules/monitor-azure-vm-using-diagnostic-data	Learn how to monitor the health of your Azure VMs by using Azure Metrics Explorer and metric alerts.	Wednesday	Microsoft Learn,Azure,Azure Monitor,Azure Virtual Machines
Guided project – Develop foreach and if-elseif-else structures to process array data in C#	https://learn.microsoft.com/en-us/training/modules/guided-project-arrays-iteration-selection	Gain experience developing a console app that implements arrays, foreach loops, and if statements to achieve app specifications.	Wednesday	Microsoft Learn,.NET,Visual Studio Code
Enroll devices using Microsoft Intune	https://learn.microsoft.com/en-us/training/modules/enroll-devices-use-intune	Students will learn how to configure and setup Intune to more easily manage Windows, Android, and iOS devices.	Wednesday	Microsoft Learn,entra Azure Active Directory
Load data into a relational data warehouse	https://learn.microsoft.com/en-us/training/modules/load-optimize-data-into-relational-data-warehouse	Learn how to load tables in a relational data warehouse that is hosted in a dedicated SQL pool in Azure Synapse Analytics.	Wednesday	Microsoft Learn,Azure Synapse Analytics
Oversee device profiles	https://learn.microsoft.com/en-us/training/modules/oversee-device-profiles	This module introduces students to monitoring profiles to ensure correct assignments and resolving conflicts when multiple profiles are applied.	Wednesday	Microsoft Learn,Intune,intune configuration-manager,Windows
Customize Microsoft Dynamics 365 Business Central	https://learn.microsoft.com/en-us/training/modules/customize-dynamics-365-business-central	Business Central is a modern business platform that you can extend and customize to fit your specific needs with little to no code development. This module [...]	Wednesday	Microsoft Learn,Dynamics 365,Dynamics 365 Business Central
Deploy a Quarkus application to Azure Container Apps	https://learn.microsoft.com/en-us/training/modules/deploy-java-quarkus-azure-container-app-postgres	Create a Quarkus application, connect it to a PostgreSQL database, and then deploy to Azure Container Apps.	Wednesday	Microsoft Learn,Azure,Azure Container Apps,Azure Database for PostgreSQL
Design an application architecture	https://learn.microsoft.com/en-us/training/modules/design-application-architecture	Design an application architecture	Wednesday	Microsoft Learn,Azure App Configuration,Azure Cache for Redis,Azure Event Grid,Azure Event Hubs

Challenge project – Develop foreach and if-elseif-else structures to process array data in C#	https://learn.microsoft.com/en-us/training/modules/challenge-project-arrays-iteration-selection	Demonstrate your ability to update a console app that implements arrays, foreach loops, and if statements in response to a user requested feature update.	Wednesday	Microsoft Learn,.NET,Visual Studio Code
Maintain user profiles	https://learn.microsoft.com/en-us/training/modules/maintain-user-profiles	Students learn about the benefits of various Windows user profiles, how to manage them, and how to facilitate profile data synchronization across multiple devices.	Wednesday	Microsoft Learn,Intune,intune configuration-manager,Windows
Configure and work with quality control and quality management in Dynamics 365 Supply Chain Management	https://learn.microsoft.com/en-us/training/modules/configure-work-quality-control-dyn365-supply-chain-mgmt	An important factor that impacts a company's reputation in today's market is the quality of their goods and services. By having a standard procedure for checking [...]	Wednesday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance and Operations,Dynamics 365 Supply Chain Management
Work with AI visuals in Power BI	https://learn.microsoft.com/en-us/training/modules/ai-visuals-power-bi	This module describes the AI capabilities of Power BI.	Thursday	Microsoft Learn,Microsoft Power Platform,Microsoft Power Platform Power BI
Explore core data concepts	https://learn.microsoft.com/en-us/training/modules/explore-core-data-concepts	Explore core data concepts	Thursday	Microsoft Learn,Azure
Introduction to Entra Permissions Management	https://learn.microsoft.com/en-us/training/permissions-management/intro-to-entra-permissions-management	Permissions Management is a CIEM solution that provides complete visibility into permissions that are assigned to all identities.	Thursday	Microsoft Learn,entra,entra-permissions-management,Windows Active Directory
Create transactions in Store Commerce in Dynamics 365 Commerce	https://learn.microsoft.com/en-us/training/modules/create-transactions-pos	Transactions can be performed in Dynamics 365 Commerce Store Commerce to register sales and returns in several ways.	Thursday	Microsoft Learn,Dynamics 365,Dynamics 365 Commerce
Convert prospects in Dynamics 365 Sales to customers in Dynamics 365 Supply Chain Management	https://learn.microsoft.com/en-us/training/modules/convert-prospects-sales-customers	An important goal of most businesses is to convert prospects to customers and then maintain an ongoing business relationship with those customers. Integration of prospect-to-cash with [...]	Thursday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance and Operations,Dynamics 365 Sales,Dynamics 365 Supply Chain Management
Update Dynamics 365 Commerce	https://learn.microsoft.com/en-us/training/modules/update-commerce	One Version introduces a solution to the Dynamics 365 Commerce app's software as a service (SaaS) update model to give customers the opportunity to update their [...]	Thursday	Microsoft Learn,Dynamics 365,Dynamics 365 Commerce
Azure Health Bot in Microsoft Cloud for Healthcare	https://learn.microsoft.com/en-us/training/modules/azure-health-bot	Explore the Azure Health Bot and discover how healthcare organizations can use it to build and deploy AI-powered, compliant, conversational healthcare experiences at scale.	Thursday	Microsoft Learn,Industry Solutions,Industry Solutions Microsoft Cloud for Healthcare
Manage healthcare data with Care Management in Microsoft Cloud for Healthcare	https://learn.microsoft.com/en-us/training/modules/healthcare-care-management	Learn how to manage healthcare data with the Microsoft Cloud for Healthcare solution.	Thursday	Microsoft Learn,Industry Solutions,Industry Solutions Microsoft Cloud for Healthcare

Enable patients to access the Patient Access portal	https://learn.microsoft.com/en-us/training/modules/patient-access-service-center	Provide patients with access to their health data, appointment scheduling, and information through the Patient Access portal and the Patient Service Center.	Thursday	Microsoft Learn,Industry Solutions,Industry Solutions Microsoft Cloud for Healthcare
Get data in Power BI	https://learn.microsoft.com/en-us/training/modules/get-data	You'll learn how to retrieve data from a wide variety of data sources, including Microsoft Excel, relational databases, and NoSQL data stores. You'll also learn how [...]	Thursday	Microsoft Learn,Microsoft Power Platform,Microsoft Power Platform Power BI
Manage datasets in Power BI	https://learn.microsoft.com/en-us/training/modules/manage-datasets-power-bi	<div|With Microsoft Power BI, you can build multiple reports from a single dataset, meaning that if you change the dataset, all reports will be updated with [...]	Thursday	Microsoft Learn,Microsoft Power Platform,Microsoft Power Platform Power BI
Design a data model in Power BI	https://learn.microsoft.com/en-us/training/modules/design-model-power-bi	The process of creating a complicated data model in Power BI is straightforward. If your data is coming in from more than one transactional system, before [...]	Thursday	Microsoft Learn,Microsoft Power Platform,Microsoft Power Platform Power BI
Optimize a model for performance in Power BI	https://learn.microsoft.com/en-us/training/modules/optimize-model-power-bi	Performance optimization, also known as performance tuning, involves making changes to the current state of the data model so that it runs more efficiently. Essentially, when [...]	Thursday	Microsoft Learn,Microsoft Power Platform,Microsoft Power Platform Power BI
Work with Power BI visuals	https://learn.microsoft.com/en-us/training/modules/visuals-power-bi	Learn which Power BI visuals are right for your report to make it interactive and insightful. Format visuals, import custom visuals, or use R and Python [...]	Thursday	Microsoft Learn,Microsoft Power Platform,Microsoft Power Platform Power BI
Configure a retail store and Store Commerce in Dynamics 365 Commerce	https://learn.microsoft.com/en-us/training/modules/configure-retail-store-pos	Dynamics 365 Commerce allows for the centralized configuration and management of multiple Commerce channels.	Thursday	Microsoft Learn,Dynamics 365,Dynamics 365 Commerce
Introduction to Form Recognizer	https://learn.microsoft.com/en-us/training/modules/intro-to-form-recognizer	Form Recognizer enables automated data identification and extraction from your documents.	Thursday	Microsoft Learn,Azure,Azure Cognitive Services,Azure Form Recognizer
Build your first Azure IoT Central application to manage your coffee machines	https://learn.microsoft.com/en-us/training/modules/monitor-and-manage-device-with-iot-central	Create an Azure IoT Central application to monitor and manage an IoT device.	Friday	Microsoft Learn,Azure IoT Central
Solution Architect series: Evaluate Power Platform analytics and AI	https://learn.microsoft.com/en-us/training/modules/architect-analytics	Learn about reporting and analytics in Microsoft Power Platform.	Friday	Microsoft Learn,Microsoft Power Platform,Microsoft Power Platform AI Builder,Microsoft Power Platform Microsoft Dataverse,Microsoft Power Platform Power Apps,Microsoft Power Platform Power Automate,Microsoft Power Platform Power BI,Microsoft Power Platform Power Virtual Agents
Develop, test, and deploy an Azure	https://learn.microsoft.com/en-us/training/modules/develop-test-	Use Visual Studio together with a test framework to	Friday	Microsoft Learn,Azure,Azure Functions,Visual Studio IDE

Function with Visual Studio	deploy-azure-functions-with-visual-studio	create, deploy, and test an Azure Function.		
Design your site recovery solution in Azure	https://learn.microsoft.com/en-us/training/modules/design-your-site-recovery-solution-in-azure	Protect your applications and data from disasters with a well-designed site recovery solution.	Friday	Microsoft Learn,Azure,Azure Backup,Azure Site Recovery
Glint Foundations – Building People Success Habits	https://learn.microsoft.com/en-us/training/modules/glint-foundations-build-people-success-habits	Glint believes that when employees succeed, their organization succeeds. So how can you help your employees be happier and more successful at work? How you answer [...]	Friday	Microsoft Learn,Microsoft Viva
Administer endpoint applications	https://learn.microsoft.com/en-us/training/modules/administer-endpoint-applications	In this module, you're introduced to managing apps on Intune managed devices. The module will then conclude with an overview of how to use IE Mode [...]	Friday	Microsoft Learn,Intune,intune configuration-manager,Microsoft Edge,Windows
Protect your virtual machine settings with Azure Automation State Configuration	https://learn.microsoft.com/en-us/training/modules/protect-vm-settings-with-dsc	Learn how to protect your virtual machine settings with Azure Automation State Configuration	Friday	Microsoft Learn,Azure,Azure Automation,Azure Virtual Machines
Azure Health Bot scenario templates	https://learn.microsoft.com/en-us/training/modules/health-bot-template-scenarios	Learn how to enrich the capabilities of your bot by using the prebuilt scenario templates.	Friday	Microsoft Learn,Azure
Deliver consistent performance with Azure SQL	https://learn.microsoft.com/en-us/training/modules/azure-sql-performance	Deliver consistent performance with Azure SQL	Friday	Microsoft Learn,Azure,Azure SQL Database,Azure SQL Managed Instance
Introduction to Azure SQL	https://learn.microsoft.com/en-us/training/modules/azure-sql-intro	This module introduces Azure SQL. Learn about various deployment options and service tiers and what to use for your organization.	Friday	Microsoft Learn,Azure,Azure SQL Database,Azure SQL Managed Instance
Challenge project – Develop branching and looping structures in C#	https://learn.microsoft.com/en-us/training/modules/challenge-project-develop-branching-looping-structures-c-sharp	Challenge project – Develop branching and looping structures in C#	Friday	Microsoft Learn,.NET,.NET Framework,Visual Studio Code
Deploy highly available solutions by using Azure SQL	https://learn.microsoft.com/en-us/training/modules/azure-sql-high-availability	In this module, you'll learn how to deploy highly available solutions by using Azure SQL. You'll also look at architectures and how they affect availability.	Friday	Microsoft Learn,Azure,Azure SQL Database,Azure SQL Managed Instance
Test your Bicep code by using Azure Pipelines	https://learn.microsoft.com/en-us/training/modules/test-bicep-code-using-azure-pipelines	Build a deployment pipeline for Bicep infrastructure as code templates. Lint, validate, preview, and test your Bicep code by using Azure DevOps and Azure Pipelines.	Friday	Microsoft Learn,Azure DevOps,Azure Pipelines,Azure Resource Manager
Introduction to Azure VMware Solution	https://learn.microsoft.com/en-us/training/modules/intro-azure-vmware-solution	Learn about Azure VMware Solution to host your VMware workloads in Azure.	Friday	Microsoft Learn,Azure VMware Solution
Architect full-stack applications and automate	https://learn.microsoft.com/en-us/training/modules/automate-deployments-github-actions-azure	In the language of your choice (Node.js, Python, or .NET), deploy an end-to-end solution to solve the real-	Friday	Microsoft Learn,Azure App Service Static Web Apps,Azure DevOps,Azure Functions,Azure

deployments with GitHub		world scenario of catching the bus. You'll learn how [...]		Logic Apps,Azure SQL Database,Azure Web Apps,GitHub
Deploy serverless APIs with Azure Functions, Logic Apps, and Azure SQL Database	https://learn.microsoft.com/en-us/training/modules/deploy-backend-apis	In the language of your choice (Node.js, Python, or .NET), learn how to deploy an Azure Function that adds real-time data to an Azure SQL Database [...]	Friday	Microsoft Learn,Azure Functions,Azure Logic Apps,Azure SQL Database,GitHub
Deploy and configure servers, instances, and databases for Azure SQL	https://learn.microsoft.com/en-us/training/modules/azure-sql-deploy-configure	Deploy and configure servers, instances, and databases for Azure SQL	Friday	Microsoft Learn,Azure,Azure SQL Database,Azure SQL Managed Instance
Create smart assist solutions in Omnichannel for Dynamics 365 Customer Service	https://learn.microsoft.com/en-us/training/modules/create-smart-assist-omnichannel	Do you want to build custom bots and plug them into environments to provide relevant recommendations to agents? This module teaches you how to create adaptive [...]	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Customer Service
Architect modern applications using Azure SQL Database	https://learn.microsoft.com/en-us/training/modules/create-foundation-modern-apps	Break down a scenario for an application and build a multi-service solution based on the microservices approach. Learn how to use modern database capabilities to build [...]	Friday	Microsoft Learn,Azure Blob Storage,Azure DevOps,Azure SQL Database,GitHub
Explore identity and Azure AD	https://learn.microsoft.com/en-us/training/modules/explore-identity-azure-active-directory	This module will cover a wide view of the definition and available services for identity provided in the Microsoft Cloud from Azure AD to Microsoft 365. [...]	Friday	Microsoft Learn,Azure,entra Active Directory Domain Services,entra Active Directory External Identities,entra Azure Active Directory,entra-verified-id
Manage authentication for messaging	https://learn.microsoft.com/en-us/training/modules/manage-authentication-for-messaging	Manage authentication for messaging	Friday	Microsoft Learn,Microsoft 365,Office,Office 365,Office Exchange Server,Office Microsoft Exchange Online
Configure and perform the procure-to-purchase process in Dynamics 365 Supply Chain Management	https://learn.microsoft.com/en-us/training/modules/configure-perform-procure-purchase-dyn365-supply-chain-mgmt	Procure-to-purchase is the first step of the procure-to-pay process. Procure-to-purchase involves the procurement agent finding a vendor and requesting a material or service to be purchased.	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance and Operations,Dynamics 365 Supply Chain Management
Work with Dynamics 365 Sales Insights	https://learn.microsoft.com/en-us/training/modules/working-with-sales-insights	Building a strong, long-term relationship with a customer takes time and effort. Account executives need to communicate with customers regularly and maintain a complete understanding of [...]	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Sales
Overview of Dynamics 365 Sales Professional	https://learn.microsoft.com/en-us/training/modules/overview-d365-sales-professional	What is Dynamics 365 Sales Professional and how do I get started? Get started with the basics. See how Dynamics 365 Sales Professional helps you manage [...]	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Sales
Personalize the Microsoft Dynamics 365	https://learn.microsoft.com/en-us/training/modules/personalize-ui-dynamics-365-business-central	The user interface for Business Central can be optimized for personal use. This module explains and	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Business Central

Business Central user interface		demonstrates the personalization options that are available to users.		
Putting it all together with Azure SQL	https://learn.microsoft.com/en-us/training/modules/azure-sql-case-studies	Putting it all together with Azure SQL	Friday	Microsoft Learn,Azure,Azure SQL Database,Azure SQL Managed Instance
Glint Foundations – Getting to know People Success	https://learn.microsoft.com/en-us/training/modules/glint-foundations	Learn how Glint helps organizations develop and maintain an ongoing understanding of the total employee experience to have more impactful conversations with their employees and develop [...]	Friday	Microsoft Learn,Microsoft Viva
User interface essentials in Dynamics 365 Business Central	https://learn.microsoft.com/en-us/training/modules/user-interface-dynamics-365-business-central	Understanding the user interface is essential to the efficient use of Business Central. This module shows you the components and possibilities of the Business Central interface.	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Business Central
Manage user roles	https://learn.microsoft.com/en-us/training/modules/manage-user-roles	Manage user roles	Friday	Microsoft Learn,Microsoft 365,Office,Office 365,Office Exchange Server,Office Microsoft Exchange Online
Glint Foundations – Measuring People Success	https://learn.microsoft.com/en-us/training/modules/glint-foundations-measure-people-success	Learn how Glint helps organizations to measure People Success through Glint's validated taxonomy of measures and robust benchmarks.	Friday	Microsoft Learn,Microsoft Viva
Manage administrator roles	https://learn.microsoft.com/en-us/training/modules/manage-admin-roles	Manage administrator roles	Friday	Microsoft Learn,Microsoft 365,Office,Office 365,Office Exchange Server,Office Microsoft Exchange Online
Analyze role-based permissions	https://learn.microsoft.com/en-us/training/modules/exchange-setup-using-role-based-permissions	Analyze role-based permissions	Friday	Microsoft Learn,Microsoft 365,Office,Office 365,Office Exchange Server,Office Microsoft Exchange Online
Introduction to Azure Web Application Firewall	https://learn.microsoft.com/en-us/training/modules/introduction-azure-web-application-firewall	Describe how Azure Web Application Firewall protects Azure web applications from common attacks, including its features, how it's deployed, and its common use cases.	Saturday	Microsoft Learn,Azure Web Application Firewall
Start your free Dynamics 365 Business Central trial	https://learn.microsoft.com/en-us/training/modules/trial-dynamics-365-business-central	Do you want to try, explore, and evaluate Business Central? Do you need a Business Central trial to facilitate your learning process? This module provides information [...]	Saturday	Microsoft Learn,Dynamics 365,Dynamics 365 Business Central
Azure Health Bot case studies	https://learn.microsoft.com/en-us/training/modules/health-bot-case-studies	In this module, we'll discuss a few case studies for the Azure Health Bot service.	Saturday	Microsoft Learn,Azure
