Weekly Update: Saturday August 12 2023 to Saturday August 19 2023

Azure Updates *(29 new azure updates)*

Name	Link	Description	Publication Day	Category
Azure Sphere (Integrated) Public Preview	https://azure.microsoft.com/en-us/updates/azure-sphere-integrated-public-preview/	We are excited to announce the Public Preview of Azure Sphere (Integrated), a new management interface for Azure Sphere services that is natively integrated with Azure […]	Tuesday	Azure Updates
Public preview: New Monitoring and Logging Updates in Azure Firewall	https://azure.microsoft.com/en-us/updates/new-monitoring-and-logging-updates-in-azure-firewall/	Resource Health and Embedded Firewall Workbooks are now in public preview.	Tuesday	Azure Updates
Public Preview: Azure Backup now supports Cross Region Restore for PostgreSQL backups	https://azure.microsoft.com/en-us/updates/public-preview-azure-backup-now-supports-cross-region-restore-for-postgresql-backups/	Cross Region Restore for PostgreSQL backups fore Azure Backup customers is now supported and is available in multiple public regions.	Tuesday	Azure Updates
General Availability : Help API provides access to self-help diagnostics	https://azure.microsoft.com/en-us/updates/general-availability-help-api-provides-access-to-selfhelp-diagnostics/	Help API is now Generally Available! Help API provides you relevant and high-quality, self-help solutions to resolve issues with your Azure resource quickly and conveniently.	Tuesday	Azure Updates,Azure Portal
General availability: New Monitoring and Logging Updates in Azure Firewall	https://azure.microsoft.com/en-us/updates/general-availability-new-monitoring-and-logging-updates-in-azure-firewall/	Structured Logs and Latency Probe Metric are now in general availability.	Tuesday	Azure Updates
Public preview: Azure Mv3 Medium Memory (MM) Virtual Machines	https://azure.microsoft.com/en-us/updates/public-preview-azure-mv3-medium-memory-virtual-machines/	Get improved performance and higher reliability for your memory-optimized workloads with the public preview of the new generation Mv3 Medium Memory (MM) Virtual Machines.	Wednesday	Azure Updates
Generally available: Azure Load Testing in Japan East and Brazil South	https://azure.microsoft.com/en-us/updates/generally-available-azure-load-testing-in-japan-east-and-brazil-south/	Azure Load Testing is in generally available in Japan East and Brazil South.	Wednesday	Azure Updates,AzureLoadTesting
Public Preview: Azure NetApp Files Cloud Backup for Virtual Machines	https://azure.microsoft.com/en-us/updates/public-preview-azure-netapp-files-cloud-backup-for-virtual-machines/	Azure NetApp Files datastores now supports Cloud Backup for Virtual Machines in preview	Wednesday	Azure Updates,Azure NetApp Files

Azure Machine Learning – Public Preview for August	https://azure.microsoft.com/en-us/updates/azure-machine-learning-public-preview-for-august/	Two new features now available in PuPr enable you to work with improved data size and model support and generate a default Responsible AI dashboard for [...]	Thursday	Azure Updates
General Availability: Incremental snapshots for Premium SSD v2 Disk and Ultra Disk Storage	https://azure.microsoft.com/en-us/updates/general-availability-incremental-snapshots-for-premium-ssd-v2-disk-and-ultra-disk-storage-3/	Incremental snapshots for Premium SSD v2 and Ultra Disk Storage with instant restore capability are now generally available (GA)	Thursday	Azure Updates,Tag = AzurePortal
Public Preview: Storage auto-grow & online disk scaling for Azure Database for PostgreSQL Flexible Server	https://azure.microsoft.com/en-us/updates/public-preview-storage-autogrow-online-disk-scaling-for-azure-database-for-postgresql-flexible-server/	With auto-grow enabled, Azure Database for PostgreSQL Flexible Server will automatically increase the size of your provisioned storage.	Thursday	Azure Updates
General availability: 99th percentile latency metric in Azure Cache for Redis	https://azure.microsoft.com/en-us/updates/general-availability-99th-percentile-latency-metric-in-azure-cache-for-redis/	Debug server-side latency with a new Azure Cache for Redis metric.	Thursday	Azure Updates
General availability: Terraform support for Azure Cosmos DB for PostgreSQL	https://azure.microsoft.com/en-us/updates/general-availability-terraform-support-for-azure-cosmos-db-for-postgresql/	Now you can use Terraform for unified inventory and management operations for Azure Cosmos DB for PostgreSQL clusters.	Thursday	Azure Updates
General availability: Simplified flush operation for caches using active geo-replication	https://azure.microsoft.com/en-us/updates/general-availability-simplified-flush-operation-for-caches-using-active-georeplication/	Flush all data from active geo-replicated caches using the portal, PowerShell, or CLI.	Thursday	Azure Updates
Public Preview: Azure Active Directory integration with Azure Cosmos DB for PostgreSQL	https://azure.microsoft.com/en-us/updates/public-preview-azure-active-directory-integration-with-azure-cosmos-db-for-postgresql/	Now you can use Azure Active Directory (AAD) authentication on Azure Cosmos DB for PostgreSQL clusters.	Thursday	Azure Updates
Generally available: Init containers in Azure Container Apps	https://azure.microsoft.com/en-us/updates/generally-available-init-containers-in-azure-container-apps/	You can now use init containers with Azure Container Apps in production.	Thursday	Azure Updates
Generally available: Session affinity for Azure Container Apps	https://azure.microsoft.com/en-us/updates/generally-available-session-affinity-for-azure-container-apps/	Azure Container Apps now supports sticky sessions.	Thursday	Azure Updates
Generally available: Secrets volume mounts for Azure Container Apps	https://azure.microsoft.com/en-us/updates/generally-available-secrets-volume-mounts-for-azure-container-apps/	You can now mount secrets as volumes in Azure Container Apps.	Thursday	Azure Updates
Generally Available: Private Link service integration	https://azure.microsoft.com/en-us/updates/generally-available-private-link-service-integration/	You can now directly create a Private Link Service (PLS) for Kubernetes services via annotations in the service manifest file.	Thursday	Azure Updates
Generally available: Azure Key Vault references for secrets in Azure Container Apps	https://azure.microsoft.com/en-us/updates/generally-available-azure-key-vault-references-for-secrets-in-azure-container-apps/	You can now use Azure Key Vault references to access your secrets in Azure Container Apps.	Thursday	Azure Updates
Generally Available: Kubernetes 1.27 support in AKS	https://azure.microsoft.com/en-us/updates/generally-available-kubernetes-127-support-in-aks/	You can now take advantage of Kubernetes release 1.27 enhancements in production.	Thursday	Azure Updates

Name	Link	Description	Publication Day	Category
Generally Available: Durable Functions for Python v2 Programming Model	https://azure.microsoft.com/en-us/updates/generally-available-durable-functions-for-python-v2-programming-model/	You can now develop durable functions in Azure Functions using the Python v2 programming model	Thursday	Azure Updates
Generally Available: Application Insights integration for the Azure Functions .NET worker	https://azure.microsoft.com/en-us/updates/generally-available-application-insights-integration-for-the-azure-functions-net-worker/	.NET function apps using the isolated worker model can now better control how telemetry is emitted to Application Insights.	Thursday	Azure Updates,Azure Functions,Features,SDK and Tools
Generally Available: SDK type bindings in Azure Functions	https://azure.microsoft.com/en-us/updates/generally-available-sdk-type-bindings-in-azure-functions/	Azure Functions now supports binding to types from the Azure SDK, providing a richer development experience.	Thursday	Azure Updates,Azure Functions,Features,SDK and Tools
Public Preview: Azure Elastic SAN Updates: Private endpoints & shared volumes	https://azure.microsoft.com/en-us/updates/azure-elastic-san-updates-private-endpoints-shared-volumes/	Introducing the latest updates to Azure Elastic SAN (in preview), private endpoint support and volume sharing support via SCSI (Small Computer System Interface) Persistent Reservation.	Thursday	Azure Updates,Tag=AzurePortal
Generally Available: Cross Origin Resource Sharing (CORS) in Azure Container Apps	https://azure.microsoft.com/en-us/updates/generally-available-cross-origin-resource-sharing-cors-in-azure-container-apps/	You can now setup Cross Origin Resource Sharing (CORS) from the portal or through the CLI.	Thursday	Azure Updates
Public Preview: Custom NFSv4.1 ID Domain in Azure NetApp Files	https://azure.microsoft.com/en-us/updates/public-preview-custom-nfsv41-id-domain-in-azure-netapp-files/	Non-LDAP volumes can now be configured to use a custom authentication ID Domain that matches your NFS environment.	Friday	Azure Updates
General availability: Azure Front Door Standard/Premium in Azure Government	https://azure.microsoft.com/en-us/updates/general-availability-azure-front-door-standardpremium-in-azure-government/	Azure Front Door Standard/Premium is the new Azure native, modern cloud content delivery network (CDN) catering to both dynamic and static content delivery acceleration with enhanced [...]	Saturday	Azure Updates
Generally available: 40MB/s/TiB and 500MB/s/TiB performance tiers for Azure Managed Lustre	https://azure.microsoft.com/en-us/updates/generally-available-40mbstib-and-500mbstib-performance-tiers-for-azure-managed-lustre/	Azure Managed Lustre now offers two new performance tiers, offering tailored solutions and added cost and performance flexibility for various workload sizes: 40MB/s/TiB and 500MB/s/TiB	Saturday	Azure Updates

Introduction to Azure OpenAI Service	https://learn.microsoft.com/en-us/training/modules/explore-azure-openai	With Azure OpenAI, you can build solutions against OpenAI artificial intelligence models within Azure.	Wednesday	Microsoft Learn,Azure ai-services,Azure Bot Service,Azure Machine Learning
Choose the correct data type in your C# code	https://learn.microsoft.com/en-us/training/modules/csharp-choose-data-type	Choose the correct data type in your C# code	Wednesday	Microsoft Learn,.NET,Visual Studio Code
Create a release pipeline in Azure Pipelines	https://learn.microsoft.com/en-us/training/modules/create-release-pipeline	Set up a continuous delivery (CD) pipeline that automates the process of deploying your application.	Wednesday	Microsoft Learn,Azure,Azure DevOps
Boost sales performance with Microsoft Sales Copilot	https://learn.microsoft.com/en-us/training/modules/boost-sales-performance	Learn how to boost sales performance with Microsoft Sales Copilot.	Wednesday	Microsoft Learn,Dynamics 365 Sales,sales-copilot
Case study: Design security solutions for applications and data	https://learn.microsoft.com/en-us/training/modules/case-study-design-security-solutions-applications-data	Apply your cybersecurity architect skills on a real business scenario in the area of securing applications and data. You will analyze design requirements, answer conceptual and [...]	Wednesday	Microsoft Learn,entra,entra Active Directory Domain Services,entra Azure Active Directory,entra Azure Active Directory Connect,entra Azure Active Directory Pass-through Authentication
Create and consume Azure AI Services	https://learn.microsoft.com/en-us/training/modules/create-manage-cognitive-services	Create and consume Azure AI Services	Wednesday	Microsoft Learn,Azure ai-services
Manage transportation management in Dynamics 365 Supply Chain Management	https://learn.microsoft.com/en-us/training/modules/configure-transportation-management-dyn365-supply-chain-mgmt	The Transportation management module in Dynamics 365 Supply Chain Management helps you find the most efficient way to deliver goods to your customers. Transportation management calculates [...]	Wednesday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Supply Chain Management
Accelerate high-performance	https://learn.microsoft.com/en-us/training/modules/accelerate-storage-	Accelerate NFS storage for HPC workloads by using	Thursday	Microsoft Learn,Azure,Azure HPC Cache

computing storage by using Azure HPC Cache	with-hpc-cache	Azure HPC Cache.		
Describe the general capabilities of Dynamics 365 Supply Chain Management	https://learn.microsoft.com/en-us/training/modules/identify-general-capabilities-of-microsoft-dynamics	This module introduces learners to the core capabilities of Dynamics 365 Supply Chain Management, and discusses warehouse and inventory management and manufacturing.	Thursday	Microsoft Learn,Dynamics 365,Dynamics 365 Supply Chain Management
Describe manufacturing strategies in Dynamics 365 Supply Chain Management	https://learn.microsoft.com/en-us/training/modules/explore-manufacturing-strategies-microsoft-dynamics	This module discusses the capabilities of Microsoft Dynamics 365 Supply Chain management used to control the day-to-day operations of a warehouse, including costing methods, warehouse configuration [...]	Thursday	Microsoft Learn,Dynamics 365,Dynamics 365 Supply Chain Management
Describe the general ledger in Dynamics 365 Finance	https://learn.microsoft.com/en-us/training/modules/explore-general-ledger-dynamics-365	This module introduces you to the chart of accounts and financial dimensions. You also look at periodic financial processes, such as financial period closes, year-end 1099 [...]	Thursday	Microsoft Learn,Dynamics 365 Finance
Describe Dynamics 365 Commerce clienteling capabilities and Dynamics 365 Fraud Protection	https://learn.microsoft.com/en-us/training/modules/explore-microsoft-dynamics-365-fraud-protection	Learn about how Commerce can help organizations provide personalized and targeted shopping experiences in both business-to-business (B2B) and business-to-consumer (B2C) models.	Thursday	Microsoft Learn,Dynamics 365,Dynamics 365 Fraud Protection
Describe warehouse and inventory management capabilities in Dynamics 365 Supply Chain Management	https://learn.microsoft.com/en-us/training/modules/explore-warehouse-inventory-management-capabilities	This module discusses the capabilities of Microsoft Dynamics 365 Supply Chain management used to control the day-to-day operations of a warehouse, including costing methods, warehouse configuration [...]	Thursday	Microsoft Learn,Dynamics 365,Dynamics 365 Supply Chain Management
Plan and implement privileged access	https://learn.microsoft.com/en-us/training/modules/plan-implement-privileged-access	Ensuring that administrative roles are protected and managed to increase your Azure solution security is a must. Explore how to use PIM to protect your data [...]	Thursday	Microsoft Learn,Azure,entra Azure Active Directory
Describe personnel management capabilities in Dynamics 365 Human Resources	https://learn.microsoft.com/en-us/training/modules/explore-personnel-management-capabilities-microsoft	This learning path introduces learners to the Dynamics 365 Human Resources application. Learn about core human resources capabilities as compensation and benefits, compliance management, performance management [...]	Thursday	Microsoft Learn,Dynamics 365,Dynamics 365 Human Resources
Upgrade and migrate Windows Server IaaS virtual machines	https://learn.microsoft.com/en-us/training/modules/upgrade-migrate-windows-server-iaas-virtual-machines	Learn to migrate a workload running in Windows Server to an infrastructure as a service (IaaS) virtual machine (VM) and to Windows Server 2022 by using [...]	Thursday	Microsoft Learn,Azure,Azure Cloud Shell,Azure Portal,Azure Storage,Azure Virtual Machines

Describe features and tools for managing and deploying Azure resources	https://learn.microsoft.com/en-us/training/modules/describe-features-tools-manage-deploy-azure-resources	This module discusses tools and features that assist in managing and deploying resources within Azure.	Thursday	Microsoft Learn,Azure
Connect Microsoft 365 Defender to Microsoft Sentinel	https://learn.microsoft.com/en-us/training/modules/connect-microsoft-defender-365-to-azure-sentinel	Connect Microsoft 365 Defender to Microsoft Sentinel	Thursday	Microsoft Learn,Azure,Azure Microsoft Sentinel,Microsoft 365 m365-defender,microsoft-defender Microsoft Defender for Cloud,microsoft-defender Microsoft Defender for IoT
Describe Dynamics 365 Human Resources core capabilities	https://learn.microsoft.com/en-us/training/modules/explore-microsoft-dynamics-365-human-resources	Describe Dynamics 365 Human Resources core capabilities	Thursday	Microsoft Learn,Dynamics 365,Dynamics 365 Human Resources
Describe features and tools in Azure for governance and compliance	https://learn.microsoft.com/en-us/training/modules/describe-features-tools-azure-for-governance-compliance	This module describes features and tools that are helpful for governing and maintaining compliance within Azure.	Thursday	Microsoft Learn,Azure
Introduction to Azure Virtual Networks	https://learn.microsoft.com/en-us/training/modules/introduction-to-azure-virtual-networks	In this module, you'll learn how to design and implement fundamental Azure Networking resources such as virtual networks, public and private IPs, DNS, virtual network peering, [...]	Thursday	Microsoft Learn,Azure DNS,Azure Virtual Network
Describe accounts payable and accounts receivable in Dynamics 365 Finance	https://learn.microsoft.com/en-us/training/modules/explore-accounts-payable-accounts-receivable-microsoft	This module introduces you to the chart of accounts and financial dimensions. You also look at periodic financial processes, such as financial period closes, year-end 1099 [...]	Thursday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance
Explore Autonomous Intelligence	https://learn.microsoft.com/en-us/training/modules/explore-autonomous-intelligence	Learn Autonomous Intelligence technologies and evaluate when to use it.	Thursday	Microsoft Learn,Azure,Project Bonsai
Introduction to Kubernetes	https://learn.microsoft.com/en-us/training/modules/intro-to-kubernetes	Get acquainted with the Kubernetes open-source container-orchestration system for automating application deployment, scaling, and management.	Thursday	Microsoft Learn,Azure,Azure Kubernetes Service
Build an industrial strength brain	https://learn.microsoft.com/en-us/training/modules/build-industrial-brain	Learn the concept of Machine Teaching to create a modular brain with an example.	Thursday	Microsoft Learn,Azure,Project Bonsai
Explore the art of selecting use cases for winning Autonomous AI	https://learn.microsoft.com/en-us/training/modules/explore-select-use-cases	Learn to identify use cases for Autonomous AI.	Thursday	Microsoft Learn,Azure,Project Bonsai
Explore Automated Intelligence	https://learn.microsoft.com/en-us/training/modules/explore-automated-intelligence	Learn automated intelligence methods and evaluate when to use it.	Thursday	Microsoft Learn,Azure,Project Bonsai
Explore brain design patterns	https://learn.microsoft.com/en-us/training/modules/explore-brain-design-pattern	Learn AI brain design patterns and evaluate when to use them.	Thursday	Microsoft Learn,Azure,Project Bonsai

Teach AI like you would a human with Project Bonsai	https://learn.microsoft.com/en-us/training/modules/teach-ai-with-project-bonsai	Learn the concept of Project Bonsai and use to teach AI with an example of balancing ball.	Thursday	Microsoft Learn,Azure
Migrate on-premises Windows Server instances to Azure IaaS virtual machines	https://learn.microsoft.com/en-us/training/modules/migrate-premises-windows-server-instances-azure-iaas-virtual-machines	You'll be able to plan a migration and select appropriate server migration tools. You will also learn how to use Azure Migrate, how to assess physical [...]	Thursday	Microsoft Learn,Azure,Azure Cloud Shell,Azure Portal,Azure Virtual Machines
Introduction to Machine Teaching	https://learn.microsoft.com/en-us/training/modules/intro-machine-teaching	Learn the concept of Machine Teaching and evaluate when to use it.	Thursday	Microsoft Learn,Azure,Project Bonsai
Describe cost management in Azure	https://learn.microsoft.com/en-us/training/modules/describe-cost-management-azure	This module describes cost management methods and tools for Azure consumption.	Thursday	Microsoft Learn,Azure
Describe reporting and integration capabilities in finance and operations apps	https://learn.microsoft.com/en-us/training/modules/describe-report-integration-use-finance-operations-apps	This module discusses the general capabilities of the finance and operations apps, including built-in reporting and integration with other Microsoft products such as Microsoft Excel, Microsoft [...]	Thursday	Microsoft Learn,Dynamics 365
Implement Datacenter Firewall and Software Load Balancer on Azure Stack HCI	https://learn.microsoft.com/en-us/training/modules/implement-firewall-load-balancer	Learn how Azure Stack HCI software defined networking (SDN) helps implement network traffic filtering and load balancing.	Thursday	Microsoft Learn,Azure,Azure Stack HCI
Describe Dynamics 365 Commerce capabilities	https://learn.microsoft.com/en-us/training/modules/explore-microsoft-dynamics-365-commerce-capabilities	This module introduces you to the core capabilities of Microsoft Dynamics 365 Commerce including channel management, distributed order management, and product assortments.	Thursday	Microsoft Learn,Dynamics 365,Dynamics 365 Commerce
Create a language model with Azure AI Language	https://learn.microsoft.com/en-us/training/modules/create-language-model-with-language-understanding	Create a language model with Azure AI language	Thursday	Microsoft Learn,Azure,Azure Bot Service,Azure SDKs
Explore expense management, fixed asset management, and budgeting in Dynamics 365 Finance	https://learn.microsoft.com/en-us/training/modules/explore-expense-management-fixed-asset-management	This module introduces you to the chart of accounts and financial dimensions. You also look at periodic financial processes, such as financial period closes, year-end 1099 [...]	Thursday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance
Guided project – Calculate final GPA	https://learn.microsoft.com/en-us/training/modules/guided-project-calculate-final-gpa	Gain experience developing an application that will calculate and display results based on given data.	Thursday	Microsoft Learn,.NET
Describe monitoring tools in Azure	https://learn.microsoft.com/en-us/training/modules/describe-monitoring-tools-azure	This module describes tools that help monitor Azure utilization and status.	Thursday	Microsoft Learn,Azure
Describe the finance and operations apps	https://learn.microsoft.com/en-us/training/modules/get-introduced-finance-operations-apps	This module discusses the general capabilities of the Microsoft Dynamics 365 suite of finance and operations apps, including	Thursday	Microsoft Learn,Dynamics 365

		use cases and descriptions of the user interfaces.		
Use managed data stores in a cloud-native ASP.NET Core microservices app	https://learn.microsoft.com/en-us/training/modules/microservices-data-aspnet-core	This module guides you through implementing Azure-managed data stores in an ASP.NET Core microservices app.	Friday	Microsoft Learn,.NET ASP.NET Core,Azure,Azure Cache for Redis,Azure Container Registry,Azure Cosmos DB,Azure Kubernetes Service
Develop secure IoT Solutions for Azure Sphere with IoT Hub	https://learn.microsoft.com/en-us/training/modules/develop-secure-iot-solutions-azure-sphere-iot-hub	Develop highly secure IoT solutions with Azure Sphere, Azure RTOS and Azure IoT Hub	Friday	Microsoft Learn,Azure IoT Hub
Choose a client application to use in a Privileged Access Workstation (PAW) with threat modeling	https://learn.microsoft.com/en-us/training/modules/threat-modeling-secured-environment	Learn how to threat model a client application for security risks and find ways to reduce or eliminate them before installing it into a secured environment.	Friday	Microsoft Learn,Azure,Azure Security Center for IoT,Microsoft 365 Security Center,microsoft-defender Microsoft Defender for Cloud,microsoft-defender Microsoft Defender for Cloud Apps
Introduction to Azure Sphere	https://learn.microsoft.com/en-us/training/modules/intro-azure-sphere	University of Oxford	Friday	Microsoft Learn,Azure IoT Edge
Deploy a pre-built module to the Edge device	https://learn.microsoft.com/en-us/training/modules/deploy-prebuilt-module-edge-device	University of Oxford	Friday	Microsoft Learn,Azure IoT Hub
Run Cognitive Services on IoT Edge	https://learn.microsoft.com/en-us/training/modules/run-cognitive-services-iot-edge	University of Oxford	Friday	Microsoft Learn,Azure IoT Hub
Choose a distribution channel for a HoloLens app	https://learn.microsoft.com/en-us/training/modules/choose-distribution-hololens-app	Learn how to choose a distribution channel for your HoloLens app.	Friday	Microsoft Learn,HoloLens
Object detection on Edge devices with Live Video Analytics using YOLO model	https://learn.microsoft.com/en-us/training/modules/object-detection-iot-edge-live-video-analytics	This module helps learner to deploy object detection solution using Live Video Analytics on IoT Edge.	Friday	Microsoft Learn,Azure IoT Hub
Challenge project – Building an Augmented Reality app for HoloLens 2	https://learn.microsoft.com/en-us/training/modules/challenge-project-building-augmented-reality-app-hololens-2	This module is a challenge project where you'll build an Augmented Reality app for HoloLens 2. It will guide a developer on how to build an [...]	Friday	Microsoft Learn,HoloLens
Control variable scope and logic using code blocks in C#	https://learn.microsoft.com/en-us/training/modules/csharp-code-blocks	Use code blocks with more confidence, understanding how they impact the visibility and accessibility of both higher and lower-level constructs in your code.	Friday	Microsoft Learn,.NET,Visual Studio Code
Choose a deployment scenario for HoloLens device management	https://learn.microsoft.com/en-us/training/modules/choose-deployment-strategy-hololens	Learn how to choose a deployment scenario for managing HoloLens devices.	Friday	Microsoft Learn,HoloLens
Create an image recognition solution with Azure IoT Edge and Azure Cognitive Services	https://learn.microsoft.com/en-us/training/modules/create-image-recognition-solution-iot-edge-cognitive-services	This is a computer vision solution using Azure IoT Edge	Friday	Microsoft Learn,Azure IoT Edge
Monitor your hybrid and multicloud machines through	https://learn.microsoft.com/en-us/training/modules/monitor-azure-arc-enabled-servers	Understand the monitoring capabilities of Azure Arc-enabled servers. Learn about	Friday	Microsoft Learn,Azure,Azure Monitor,azure-arc

Azure Arc-enabled servers		the benefits of and how to onboard Azure Arc-enabled servers to Azure Logs and Metrics, VM [...]		
Develop secure IoT solutions for Azure Sphere, Azure RTOS and Azure IoT Central	https://learn.microsoft.com/en-us/training/modules/develop-secure-iot-solutions-azure-sphere-iot-central	Develop highly secure IoT solutions with Azure Sphere, Azure RTOS and Azure IoT Central	Friday	Microsoft Learn,Azure IoT Central
Void detection on Edge devices with Live Video Analytics using own images and video	https://learn.microsoft.com/en-us/training/modules/void-detection-edge-devices-live-video-analytics	This module helps learner to deploy void detection solution using Live Video Analytics and Custom Vision	Friday	Microsoft Learn,Azure IoT Hub
Introduction to MLOps for IoT Edge	https://learn.microsoft.com/en-us/training/modules/intro-mlops-iot-edge	University of Oxford	Friday	Microsoft Learn,Azure IoT Edge
Introduction to Azure Sphere for industrial IoT connectivity	https://learn.microsoft.com/en-us/training/modules/intro-azure-sphere-iiot-connectivity-methods	This module introduces Azure Sphere connectivity methods	Friday	Microsoft Learn,Azure Sphere
Introduction to Azure IoT Hub	https://learn.microsoft.com/en-us/training/modules/introduction-to-iot-hub	University of Oxford	Friday	Microsoft Learn,Azure IoT Hub
Implement CI/CD for IoT Edge	https://learn.microsoft.com/en-us/training/modules/implement-cicd-iot-edge	This module implements CICD pipeline for edge devices	Friday	Microsoft Learn,Azure IoT Edge
Capture Web Application Logs with App Service Diagnostics Logging	https://learn.microsoft.com/en-us/training/modules/capture-application-logs-app-service	Learn about how to capture trace output from your Azure web apps. View a live log stream and download logs files for offline analysis.	Friday	Microsoft Learn,.NET ASP.NET Core,Azure
Image classification using Azure Sphere	https://learn.microsoft.com/en-us/training/modules/image-classification-azure-sphere	University of Oxford	Friday	Microsoft Learn,Azure IoT Edge
Introduction to Azure IoT	https://learn.microsoft.com/en-us/training/modules/introduction-iot	University of Oxford	Friday	Microsoft Learn,Azure IoT,Azure IoT Hub
Add looping logic to your code using the do-while and while statements in C#	https://learn.microsoft.com/en-us/training/modules/csharp-do-while	Add looping logic to your code using the do-while and while statements in C#	Friday	Microsoft Learn,.NET,Visual Studio Code
Introduction to Azure Functions for IoT	https://learn.microsoft.com/en-us/training/modules/intro-azure-functions-iot	Learn about Azure Functions for IoT. University of Oxford	Friday	Microsoft Learn,Azure IoT Hub
Implement and manage hybrid identity	https://learn.microsoft.com/en-us/training/modules/implement-manage-hybrid-identity	Creating a hybrid-identity solution to use your on-premises active directory can be challenging. Explore how to implement a secure hybrid-identity solution.	Friday	Microsoft Learn,Azure,entra,entra Active Directory Domain Services,entra Active Directory External Identities,entra Azure Active Directory,entra-workload-identities
Create and manage session host image for Azure Virtual Desktop	https://learn.microsoft.com/en-us/training/modules/create-manage-session-host-image	Create and manage session host image for Azure Virtual Desktop	Friday	Microsoft Learn,Azure,Azure Virtual Desktop,Azure Virtual Machines
Introduction to Azure Cognitive	https://learn.microsoft.com/en-us/training/modules/intro-to-azure-	Explore Azure Cognitive Search to discover how to	Friday	Microsoft Learn,Azure,Azure Cognitive Search

Search	search	create an index, import data, and query the index for better search results.		
Introduction to Azure IoT Edge	https://learn.microsoft.com/en-us/training/modules/introduction-iot-edge	University of Oxford	Friday	Microsoft Learn,Azure IoT Edge
Connecting IoT devices to Cognitive Services using Azure Functions	https://learn.microsoft.com/en-us/training/modules/connecting-iot-devices-cognitive-services-azure-functions	University of Oxford	Friday	Microsoft Learn,Azure IoT Hub
