Get to know your Dynamics 365 customers	https://learn.microsoft.com/en-us/training/modules/get-know-dynamics-365-customers	Learn how you can get to know your customers and their industries, use a roadmap, and get testimonies.	Wednesday	Microsoft Learn,Dynamics 365,Dynamics 365 Business Central,Dynamics 365 Customer Service,Dynamics 365 Field Service,Dynamics 365 Finance,Dynamics 365 Human Resources,Dynamics 365 Intelligent Order Management,Dynamics 365 Marketing,Dynamics 365 Project Operations,Dynamics 365 Sales,Dynamics 365 Supply Chain Management,Microsoft Power Platform dataverse,Microsoft Power Platform Power Apps,Microsoft Power Platform Power Automate
Work with extensions for finance and operations apps and Microsoft Power Platform	https://learn.microsoft.com/en-us/training/modules/extensions-finance-operations-power-platform	This module introduces the finance and operations apps and Microsoft Dataverse capabilities, including dual-write and virtual entities and tables.	Wednesday	Microsoft Learn,Dynamics 365,Dynamics 365 Commerce,Dynamics 365 Finance,Dynamics 365 Supply Chain Management,Microsoft Power Platform dataverse
Evaluate requirements for Dynamics 365 projects	https://learn.microsoft.com/en-us/training/modules/evaluate-requirements-dynamics-365-projects	Learn to evaluate project requirements for Dynamics 365.	Wednesday	Microsoft Learn,Dynamics 365,Dynamics 365 Business Central,Dynamics 365 Customer Service,Dynamics 365 Field Service,Dynamics 365 Finance,Dynamics 365 Human Resources,Dynamics 365 Intelligent Order Management,Dynamics 365 Marketing,Dynamics 365 Project Operations,Dynamics 365 Sales,Dynamics 365 Supply Chain Management,Microsoft Power Platform dataverse,Microsoft Power Platform Power Apps,Microsoft Power Platform Power Automate
Application lifecycle management for Dynamics 365	https://learn.microsoft.com/en-us/training/modules/application-lifecycle-management-dynamics-365	An ALM (Application lifecycle management) strategy is in place to provide guidance and support to the team that's deploying Dynamics 365 applications.	Wednesday	Microsoft Learn,Dynamics 365,Dynamics 365 Business Central,Dynamics 365 Customer Service,Dynamics 365 Field Service,Dynamics 365 Finance,Dynamics 365 Human Resources,Dynamics 365 Intelligent Order Management,Dynamics 365 Marketing,Dynamics 365 Project Operations,Dynamics 365 Sales,Dynamics 365 Supply Chain Management,Microsoft Power Platform dataverse,Microsoft Power Platform Power Apps,Microsoft Power Platform Power Automate
Get started integrating finance and operations apps with Microsoft Power Platform	https://learn.microsoft.com/en-us/training/modules/get-started-integrate-finance-operations-power-platform	Learn about integrating finance and operations apps with Microsoft Power Platform.	Wednesday	Microsoft Learn,Dynamics 365,Dynamics 365 Commerce,Dynamics 365 Finance,Dynamics 365 Supply Chain Management,Microsoft Power Platform dataverse
Review the security model for your Dynamics 365 solutions	https://learn.microsoft.com/en-us/training/modules/fast-track-security	A security strategy is key to solutions, and a Security model workshop will help verify that the customer's security model is comprehensive and that it will [...]	Wednesday	Microsoft Learn,Dynamics 365,Dynamics 365 Commerce,Dynamics 365 Customer Service,Dynamics 365 Field Service,Dynamics 365 Finance,Dynamics 365 Human Resources,Dynamics 365 Marketing,Dynamics 365 Project

				Operations,Dynamics 365 Sales,Dynamics 365 Supply Chain Management
Business intelligence and analytics design for Dynamics 365 solutions	https://learn.microsoft.com/en-us/training/modules/bi-analytics-design-dynamics-365	The Business intelligence and analytics design workshop is for implementation projects that have significant business intelligence and analytics requirements and need guidance and best practices for [...]	Wednesday	Microsoft Learn,Dynamics 365,Dynamics 365 Commerce,Dynamics 365 Customer Service,Dynamics 365 Field Service,Dynamics 365 Finance,Dynamics 365 Human Resources,Dynamics 365 Marketing,Dynamics 365 Project Operations,Dynamics 365 Sales,Dynamics 365 Supply Chain Management
Plan a testing strategy for your Dynamics 365 solution	https://learn.microsoft.com/en-us/training/modules/test-strategy	Testing strategy, identifying gaps in testing plans, and potential risks are discussed in this module.	Wednesday	Microsoft Learn,Dynamics 365,Dynamics 365 Commerce,Dynamics 365 Customer Service,Dynamics 365 Field Service,Dynamics 365 Finance,Dynamics 365 Human Resources,Dynamics 365 Marketing,Dynamics 365 Project Operations,Dynamics 365 Sales,Dynamics 365 Supply Chain Management
Create a data migration strategy for Dynamics 365 solutions	https://learn.microsoft.com/en-us/training/modules/data-migration	The overall goal of the Success by Design framework is to ensure a successful customer outcome for each implementation. The Data migration strategy workshop is designed [...]	Wednesday	Microsoft Learn,Dynamics 365,Dynamics 365 Commerce,Dynamics 365 Customer Service,Dynamics 365 Field Service,Dynamics 365 Finance,Dynamics 365 Human Resources,Dynamics 365 Marketing,Dynamics 365 Project Operations,Dynamics 365 Sales,Dynamics 365 Supply Chain Management
Present Business Applications designs to stakeholders	https://learn.microsoft.com/en-us/training/modules/present-business-applications-designs	In this module, you'll learn about the various types of communication and presentations that you can expect on a project.	Wednesday	Microsoft Learn,Dynamics 365,Dynamics 365 Business Central,Dynamics 365 Customer Service,Dynamics 365 Field Service,Dynamics 365 Finance,Dynamics 365 Human Resources,Dynamics 365 Intelligent Order Management,Dynamics 365 Marketing,Dynamics 365 Project Operations,Dynamics 365 Sales,Dynamics 365 Supply Chain Management,Microsoft Power Platform dataverse,Microsoft Power Platform Power Apps,Microsoft Power Platform Power Automate
Design and build mobile apps for finance and operations apps	https://learn.microsoft.com/en-us/training/modules/design-build-mobile-apps-finance-operations	We live in a digital age, and it's difficult to imagine a day without smart devices. You use mobile apps almost every day for your social [...]	Wednesday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Supply Chain Management
Compare integrations in finance and operations apps with Dynamics AX 2012	https://learn.microsoft.com/en-us/training/modules/compare-integration-ax-2012-finance-operations	If you are upgrading Dynamics AX 2012 to finance and operations apps, you should understand Dynamics 365 integration concepts and scenarios that are available.	Wednesday	Microsoft Learn,Dynamics 365 Finance,Dynamics 365 Supply Chain Management

Get started with Success by Design for Dynamics 365	https://learn.microsoft.com/en-us/training/modules/success-by-design	Success by Design is the prescriptive guidance (approaches and best practices) for designing, building, and deploying a Microsoft Dynamics 365 solution.	Wednesday	Microsoft Learn,Dynamics 365,Dynamics 365 Commerce,Dynamics 365 Customer Service,Dynamics 365 Field Service,Dynamics 365 Finance,Dynamics 365 Human Resources,Dynamics 365 Marketing,Dynamics 365 Project Operations,Dynamics 365 Sales,Dynamics 365 Supply Chain Management
Work with analytics and reporting in finance and operations apps	https://learn.microsoft.com/en-us/training/modules/work-analytics-reporting-finance-operations	Business leaders can make important decisions in their company if they have accurate insight into the underlying financial and operational data. Without data visibility, business leaders [...]	Wednesday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Supply Chain Management
Dynamics 365 solution architecture best practices for integration	https://learn.microsoft.com/en-us/training/modules/solution-architecture-integration-patterns	The integration strategy is an essential part of any implementation.	Wednesday	Microsoft Learn,Dynamics 365,Dynamics 365 Commerce,Dynamics 365 Finance,Dynamics 365 Human Resources,Dynamics 365 Project Operations,Dynamics 365 Supply Chain Management
Determine the implementation approach for your Dynamics 365 project	https://learn.microsoft.com/en-us/training/modules/determine-implementation-approach-dynamics-365	This module explores the advantages that an implementation methodology provides and the common types that are used for Dynamics 365 projects.	Wednesday	Microsoft Learn,Dynamics 365,Dynamics 365 Business Central,Dynamics 365 Customer Service,Dynamics 365 Field Service,Dynamics 365 Finance,Dynamics 365 Human Resources,Dynamics 365 Intelligent Order Management,Dynamics 365 Marketing,Dynamics 365 Project Operations,Dynamics 365 Sales,Dynamics 365 Supply Chain Management,Microsoft Power Platform dataverse,Microsoft Power Platform Power Apps,Microsoft Power Platform Power Automate
Work with tools and best practices to integrate finance and operations apps with Microsoft Power Platform	https://learn.microsoft.com/en-us/training/modules/tools-finance-operations-power-platform	This module introduces you to the monitoring, troubleshooting, and performance tools of finance and operations apps and the dual-write function in Microsoft Dataverse.	Wednesday	Microsoft Learn,Dynamics 365,Dynamics 365 Commerce,Dynamics 365 Finance,Dynamics 365 Supply Chain Management,Microsoft Power Platform dataverse
FastTrack Customer Success Program for finance and operations	https://learn.microsoft.com/en-us/training/modules/fasttrack-customer-success-program	The Microsoft FastTrack service is intended to ease your project implementation by offering guidance on best practices and answering your how-to questions from Microsoft engineering resources, [...]	Wednesday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Supply Chain Management

		journey through a finance and operations [...]		
Post go-live strategy for Dynamics 365 solutions	https://learn.microsoft.com/en-us/training/modules/post-go-live-dynamics-365	The Post go-live workshop gives the implementation team the opportunity to confirm that the solution has delivered the objectives that were initially set.	Wednesday	Microsoft Learn,Dynamics 365,Dynamics 365 Commerce,Dynamics 365 Customer Service,Dynamics 365 Field Service,Dynamics 365 Finance,Dynamics 365 Human Resources,Dynamics 365 Marketing,Dynamics 365 Project Operations,Dynamics 365 Sales,Dynamics 365 Supply Chain Management
Dual-write implementation for Dynamics 365 solutions	https://learn.microsoft.com/en-us/training/modules/dual-write-dynamics-365	The Dual-write implementation workshop guides you through key points to help identify and resolve potential blockers to a successful dual-write implementation.	Wednesday	Microsoft Learn,Dynamics 365,Dynamics 365 Commerce,Dynamics 365 Customer Service,Dynamics 365 Field Service,Dynamics 365 Finance,Dynamics 365 Human Resources,Dynamics 365 Marketing,Dynamics 365 Project Operations,Dynamics 365 Sales,Dynamics 365 Supply Chain Management
Explore extensions and the extension framework in finance and operations apps	https://learn.microsoft.com/en-us/training/modules/explore-extensions-framework-finance-operations	Finance and operations apps are customized by using extensions, which let you add functionality to model elements and source code in the Application Object Tree (AOT) [...]	Wednesday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Supply Chain Management
Key differences between Dynamics AX 2012 and finance and operations apps	https://learn.microsoft.com/en-us/training/modules/difference-ax2012-finance-operations	Key differences between Dynamics AX 2012 and finance and operations apps	Wednesday	Microsoft Learn,Dynamics 365 Finance,Dynamics 365 Supply Chain Management
Get started with Lifecycle Services for finance and operations apps	https://learn.microsoft.com/en-us/training/modules/get-started-lifecycle-services-finance-operations	This module describes the overall functionality of lifecycle services for finance and operations apps.	Wednesday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Supply Chain Management
Feature management in finance and operations apps	https://learn.microsoft.com/en-us/training/modules/feature-management-finance-operations	The Feature management experience provides a workspace where you can view a list of features that have been delivered in each release. You can use the [...]	Wednesday	Microsoft Learn,Dynamics 365,Dynamics 365 Commerce,Dynamics 365 Finance,Dynamics 365 Supply Chain Management
Business process mapping for Dynamics 365	https://learn.microsoft.com/en-us/training/modules/business-process-mapping-dynamics-365	In this module, you'll learn how to use techniques, such as shadowing, to discover a customer's business process. Additionally, you'll explore how to map the business [...]	Wednesday	Microsoft Learn,Dynamics 365,Dynamics 365 Business Central,Dynamics 365 Customer Service,Dynamics 365 Field Service,Dynamics 365 Finance,Dynamics 365 Human Resources,Dynamics 365 Intelligent Order Management,Dynamics 365 Marketing,Dynamics 365 Project Operations,Dynamics 365 Sales,Dynamics 365 Supply Chain Management,Microsoft Power Platform dataverse,Microsoft Power

				Platform Power Apps,Microsoft Power Platform Power Automate
Test your Dynamics 365 implementation	https://learn.microsoft.com/en-us/training/modules/test-dynamics-365-implementation	Testing is essential in building any kind of system that includes business applications with Dynamics 365.	Wednesday	Microsoft Learn,Dynamics 365,Dynamics 365 Business Central,Dynamics 365 Customer Service,Dynamics 365 Field Service,Dynamics 365 Finance,Dynamics 365 Human Resources,Dynamics 365 Intelligent Order Management,Dynamics 365 Marketing,Dynamics 365 Project Operations,Dynamics 365 Sales,Dynamics 365 Supply Chain Management,Microsoft Power Platform dataverse,Microsoft Power Platform Power Apps,Microsoft Power Platform Power Automate
Plan and implement security in finance and operations apps	https://learn.microsoft.com/en-us/training/modules/plan-implement-security-finance-operations	If you understand the security architecture of finance and operations apps, you can customize it to fit the requirements of your business. finance and operations apps, [...]	Wednesday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Supply Chain Management
Digitally transform with Dynamics 365	https://learn.microsoft.com/en-us/training/modules/digitally-transform-with-dynamics-365	Digital transformation is the integration of digital technology into all areas of a business. The goal of digital transformation is to change how organizations operate and [...]	Wednesday	Microsoft Learn,Dynamics 365,Dynamics 365 Business Central,Dynamics 365 Customer Service,Dynamics 365 Field Service,Dynamics 365 Finance,Dynamics 365 Human Resources,Dynamics 365 Intelligent Order Management,Dynamics 365 Marketing,Dynamics 365 Project Operations,Dynamics 365 Sales,Dynamics 365 Supply Chain Management,Microsoft Power Platform dataverse,Microsoft Power Platform Power Apps,Microsoft Power Platform Power Automate
Get to know the project team for Dynamics 365 implementations	https://learn.microsoft.com/en-us/training/modules/project-team-dynamics-365-implementation	Implementing Dynamics 365 projects can be large and intricate, often involving the use of skills and knowledge from many individuals.	Wednesday	Microsoft Learn,Dynamics 365,Dynamics 365 Business Central,Dynamics 365 Customer Service,Dynamics 365 Field Service,Dynamics 365 Finance,Dynamics 365 Human Resources,Dynamics 365 Intelligent Order Management,Dynamics 365 Marketing,Dynamics 365 Project Operations,Dynamics 365 Sales,Dynamics 365 Supply Chain Management,Microsoft Power Platform dataverse,Microsoft Power Platform Power Apps,Microsoft Power Platform Power Automate
Implement application lifecycle management in finance and operations apps	https://learn.microsoft.com/en-us/training/modules/application-lifecycle-finance-operations	Application Lifecycle Management (ALM) is the management of computer programs, which includes managing requirements, software architecture, software development, software maintenance, change management, continuous integration, project management, [...]	Wednesday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Human Resources,Dynamics 365 Project Operations,Dynamics 365 Supply Chain Management

Create a solution blueprint for Dynamics 365 solutions	https://learn.microsoft.com/en-us/training/modules/solution-blueprint	A Solution blueprint workshop is part of Success by Design. This module focuses on creating the blueprint, and conducting the workshop to create it.	Wednesday	Microsoft Learn,Dynamics 365,Dynamics 365 Commerce,Dynamics 365 Customer Service,Dynamics 365 Field Service,Dynamics 365 Finance,Dynamics 365 Human Resources,Dynamics 365 Marketing,Dynamics 365 Project Operations,Dynamics 365 Sales,Dynamics 365 Supply Chain Management
Updates and upgrades for finance and operations apps	https://learn.microsoft.com/en-us/training/modules/upgrades-updates-finance-operations-apps	The world of enterprise resource planning (ERP) is continuously evolving and helping customers scale up in productivity and streamline their operations. The evolution of finance and [...]	Wednesday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Supply Chain Management
Prepare data for migration to finance and operations apps	https://learn.microsoft.com/en-us/training/modules/prepare-data-migration-finance-operations	When it is time to migrate data, the more you know, the easier it is to control operational complexity and reduce costs. Your customer's business continuity [...]	Wednesday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Supply Chain Management
Document your Dynamics 365 solution for the customer	https://learn.microsoft.com/en-us/training/modules/document-dynamics-365-solution-customer	Documentation includes instructions for using and maintaining the Dynamics 365 systems that you've built and deployed.	Wednesday	Microsoft Learn,Dynamics 365,Dynamics 365 Business Central,Dynamics 365 Customer Service,Dynamics 365 Field Service,Dynamics 365 Finance,Dynamics 365 Human Resources,Dynamics 365 Intelligent Order Management,Dynamics 365 Marketing,Dynamics 365 Project Operations,Dynamics 365 Sales,Dynamics 365 Supply Chain Management,Microsoft Power Platform dataverse,Microsoft Power Platform Power Apps,Microsoft Power Platform Power Automate
Data integrations with finance and operations apps	https://learn.microsoft.com/en-us/training/modules/data-integrations-finance-operations	Integrations are an important component of implementing finance and operations apps. By implementing recurring integrations, you can enable the exchange of documents or files between finance [...]	Wednesday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Supply Chain Management
Design and plan an implementation of finance and operations apps	https://learn.microsoft.com/en-us/training/modules/design-plan-implementation-finance-operations	This module describes how to design and plan an implementation of finance and operations apps using Lifecycle Services.	Wednesday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Supply Chain Management
Gap solution design for Dynamics 365 solutions	https://learn.microsoft.com/en-us/training/modules/gap-solution-design-dynamics-365	The Gap solution design workshop is designed for implementations that have critical requirements that the standard system doesn't support.	Wednesday	Microsoft Learn,Dynamics 365,Dynamics 365 Commerce,Dynamics 365 Customer Service,Dynamics 365 Field Service,Dynamics 365 Finance,Dynamics 365 Human Resources,Dynamics 365 Marketing,Dynamics 365 Project Operations,Dynamics 365

				Sales,Dynamics 365 Supply Chain Management
Consume business events in finance and operations apps	https://learn.microsoft.com/en-us/training/modules/business-events-finance-operations	Business events provide a mechanism that lets external systems receive notifications from finance and operations apps. In this way, the systems can perform business actions in [...]	Wednesday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Supply Chain Management
Prepare to go-live with finance and operations apps	https://learn.microsoft.com/en-us/training/modules/prepare-go-live-finance-operations	All your hard work becomes a success by moving the implemented solution in finance and operations apps to the production environment. You want a happy customer, [...]	Wednesday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Supply Chain Management
Dynamics 365 solution architecture best practices for business intelligence and reporting	https://learn.microsoft.com/en-us/training/modules/business-intelligence-patterns-finance-operations	This module helps solution architects become aware of common pitfalls (anti-patterns) to avoid them.	Wednesday	Microsoft Learn,Dynamics 365,Dynamics 365 Commerce,Dynamics 365 Finance,Dynamics 365 Human Resources,Dynamics 365 Project Operations,Dynamics 365 Supply Chain Management
Use key concepts and setup to integrate finance and operations apps with Microsoft Power Platform	https://learn.microsoft.com/en-us/training/modules/key-concepts-integrate-finance-operations-power-platform	Learn about key concepts and setup to integrate Finance and operations apps.	Wednesday	Microsoft Learn,Dynamics 365,Dynamics 365 Commerce,Dynamics 365 Finance,Dynamics 365 Human Resources,Dynamics 365 Supply Chain Management,Microsoft Power Platform dataverse
Get started with the extensibility framework in finance and operations apps	https://learn.microsoft.com/en-us/training/modules/get-started-extensibility-finance-operations	Because finance and operations apps is a cloud solution, development of elements and code has evolved for organizations to take continuous updates of the application.	Wednesday	Microsoft Learn,Dynamics 365 Finance,Dynamics 365 Supply Chain Management
Identify data integration patterns and scenarios in finance and operations apps	https://learn.microsoft.com/en-us/training/modules/integration-patterns-finance-operations	As a developer, you are generally part of the data integration scenarios during and after a finance and operations apps implementation. This module explores web application [...]	Wednesday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Supply Chain Management
Dynamics 365 solution architecture best practices for data migration	https://learn.microsoft.com/en-us/training/modules/solution-architecture-data-migration	Learn about how migration of data is an essential part of any implementation.	Wednesday	Microsoft Learn,Dynamics 365,Dynamics 365 Commerce,Dynamics 365 Finance,Dynamics 365 Human Resources,Dynamics 365 Supply Chain Management
Integration design for Dynamics 365 solutions	https://learn.microsoft.com/en-us/training/modules/integration	The Integration workshop is part of Success by Design. This module discusses integration strategy and how the Integration workshop will help verify that the project's integration [...]	Wednesday	Microsoft Learn,Dynamics 365,Dynamics 365 Commerce,Dynamics 365 Customer Service,Dynamics 365 Field Service,Dynamics 365 Finance,Dynamics 365 Human Resources,Dynamics 365 Marketing,Dynamics 365 Project Operations,Dynamics 365

				Sales,Dynamics 365 Supply Chain Management
Design the Dynamics 365 deployment	https://learn.microsoft.com/en-us/training/modules/design-dynamics-365-deployment	Learn how to design the Dynamics 365 deployment.	Wednesday	Microsoft Learn,Dynamics 365,Dynamics 365 Business Central,Dynamics 365 Customer Service,Dynamics 365 Field Service,Dynamics 365 Finance,Dynamics 365 Human Resources,Dynamics 365 Intelligent Order Management,Dynamics 365 Marketing,Dynamics 365 Project Operations,Dynamics 365 Sales,Dynamics 365 Supply Chain Management,Microsoft Power Platform dataverse,Microsoft Power Platform Power Apps,Microsoft Power Platform Power Automate
Work with data management in finance and operations apps	https://learn.microsoft.com/en-us/training/modules/work-data-management-finance-operations	You can export or import data in finance and operations apps by using the Data management workspace. Validate the data by staging the source data, and [...]	Wednesday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Supply Chain Management
Implement a performance strategy for Dynamics 365 solutions	https://learn.microsoft.com/en-us/training/modules/solution-performance	A solution performance strategy in Dynamics 365 is important, and we discuss it in this module. We also cover configuration and customizations, and the impact they may have [...]	Wednesday	Microsoft Learn,Dynamics 365,Dynamics 365 Commerce,Dynamics 365 Customer Service,Dynamics 365 Field Service,Dynamics 365 Finance,Dynamics 365 Human Resources,Dynamics 365 Marketing,Dynamics 365 Project Operations,Dynamics 365 Sales,Dynamics 365 Supply Chain Management
Compare reporting and analytics in finance and operations apps with Dynamics AX 2012	https://learn.microsoft.com/en-us/training/modules/compare-analytics-ax-2012-finance-operations	An important step in your upgrade journey is to determine how you will provide your users with the reporting and analytics that they need to make [...]	Wednesday	Microsoft Learn,Dynamics 365 Finance,Dynamics 365 Supply Chain Management
Design for accessibility in Dynamics 365	https://learn.microsoft.com/en-us/training/modules/design-accessibility-dynamics-365	Learn about designing for accessibility.	Wednesday	Microsoft Learn,Dynamics 365,Dynamics 365 Business Central,Dynamics 365 Customer Service,Dynamics 365 Field Service,Dynamics 365 Finance,Dynamics 365 Human Resources,Dynamics 365 Intelligent Order Management,Dynamics 365 Marketing,Dynamics 365 Project Operations,Dynamics 365 Sales,Dynamics 365 Supply Chain Management,Microsoft Power Platform Microsoft Dataverse,Microsoft Power Platform Power Apps,Microsoft Power Platform Power Automate
Work with performance and monitoring tools in finance and operations apps	https://learn.microsoft.com/en-us/training/modules/performance-monitoring-finance-operations	Learn how to use performance tools and Lifecycle Services environment monitoring tools to enhance your validation and testing	Wednesday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Supply Chain Management

		experience in finance and operations apps.		
Microsoft Accessibility Features and Tools	https://learn.microsoft.com/en-us/training/modules/accessibility-features	This module highlights how to find and use key accessibility features and tools built into Microsoft products such as Windows 10, Microsoft PowerPoint, and Microsoft Translator.	Wednesday	Microsoft Learn,Microsoft 365
Automate Azure tasks using scripts with PowerShell	https://learn.microsoft.com/en-us/training/modules/automate-azure-tasks-with-powershell	Learn how to install Azure PowerShell on Linux, macOS, or Windows and then connect to Azure and manage your resources.	Wednesday	Microsoft Learn,Azure,Azure PowerShell
Apply basic performance optimization in finance and operations apps	https://learn.microsoft.com/en-us/training/modules/apply-basic-performance-optimization-finance-operations	By optimizing your development for performance, you can ensure that your work is useful and appreciated by users. As a finance and operations apps developer, you [...]	Wednesday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Supply Chain Management
Develop an Application Lifecycle Management strategy for Dynamics 365 solutions	https://learn.microsoft.com/en-us/training/modules/application-lifecycle-management-strategy	In this module, we discuss ALM strategy and how the ALM Workshop helps verify that a customer's ALM plans are comprehensive, and support their initial implementation [...]	Wednesday	Microsoft Learn,Dynamics 365,Dynamics 365 Customer Service,Dynamics 365 Field Service,Dynamics 365 Marketing,Dynamics 365 Sales
Implement role-based security in finance and operations apps	https://learn.microsoft.com/en-us/training/modules/role-security-finance-operations	Finance and operations apps use role-based security to assign access to components in the system. A user who is assigned to a security role has access [...]	Wednesday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Supply Chain Management
Explore Azure Automation with DevOps	https://learn.microsoft.com/en-us/training/modules/explore-azure-automation-devops	Explore Azure Automation with DevOps	Wednesday	Microsoft Learn,Azure,Azure Artifacts,Azure Boards,Azure Cloud Services,Azure DevOps,Azure Pipelines,Azure Repos,Azure Test Plans,GitHub
Tools for code and data upgrade from Dynamics AX 2012 to finance and operations apps	https://learn.microsoft.com/en-us/training/modules/tools-code-data-upgrade-ax-2012-finance-operations	Microsoft supports upgrades from Dynamics AX 2012 R2 and R3 to finance and operations apps. All tools to upgrade are generally available.	Wednesday	Microsoft Learn,Dynamics 365 Finance,Dynamics 365 Supply Chain Management
Design data models for Dynamics 365 solutions	https://learn.microsoft.com/en-us/training/modules/data-models	A data model workshop is part of Success by Design. This module will provide a basic description of data modeling for Microsoft Dynamics 365 and insight [...]	Wednesday	Microsoft Learn,Dynamics 365,Dynamics 365 Commerce,Dynamics 365 Customer Service,Dynamics 365 Field Service,Dynamics 365 Finance,Dynamics 365 Human Resources,Dynamics 365 Marketing,Dynamics 365 Project Operations,Dynamics 365 Sales,Dynamics 365 Supply Chain Management
Translate Dynamics 365 apps and documentation	https://learn.microsoft.com/en-us/training/modules/dynamics-translation-service	To translate your Microsoft Dynamics 365 solutions and documentation, or add language support for	Wednesday	Microsoft Learn,Dynamics 365,Dynamics 365 Business Central,Dynamics 365 Commerce,Dynamics 365 Customer

with Dynamics 365 Translation Service		existing Dynamics 365 products, you can use Microsoft Dynamics 365 Translation Service [...]		Service,Dynamics 365 Field Service,Dynamics 365 Finance,Dynamics 365 Sales,Dynamics 365 Supply Chain Management
Get started with the upgrade process from Dynamics AX 2012 to finance and operations apps	https://learn.microsoft.com/en-us/training/modules/get-started-upgrade-ax-2012-to-finance-operations	Learn about the upgrade process from Microsoft Dynamics AX 2012 to finance and operations apps.	Wednesday	Microsoft Learn,Dynamics 365 Finance,Dynamics 365 Supply Chain Management
Cutover strategy for Dynamics 365 solutions	https://learn.microsoft.com/en-us/training/modules/cutover-strategy-dynamics-365	This module will help ensure that a good approach is in place for the planning, incremental readiness, testing, and implementation of the cutover.	Wednesday	Microsoft Learn,Dynamics 365,Dynamics 365 Commerce,Dynamics 365 Customer Service,Dynamics 365 Field Service,Dynamics 365 Finance,Dynamics 365 Human Resources,Dynamics 365 Marketing,Dynamics 365 Project Operations,Dynamics 365 Sales,Dynamics 365 Supply Chain Management
Discover the Dynamics 365 landscape	https://learn.microsoft.com/en-us/training/modules/discover-dynamics-365-landscape	In this module, you'll explore the high-level capabilities of several of these apps and learn how they fit in with a greater Microsoft solution.	Wednesday	Microsoft Learn,Dynamics 365,Dynamics 365 Business Central,Dynamics 365 Customer Service,Dynamics 365 Field Service,Dynamics 365 Finance,Dynamics 365 Human Resources,Dynamics 365 Intelligent Order Management,Dynamics 365 Marketing,Dynamics 365 Project Operations,Dynamics 365 Sales,Dynamics 365 Supply Chain Management,Microsoft Power Platform dataverse,Microsoft Power Platform Power Apps,Microsoft Power Platform Power Automate
Monitor the health and performance of your web apps	https://learn.microsoft.com/en-us/training/modules/monitor-health-performance-of-your-web-applications	Learn how to monitor your solution for performance and issues.	Thursday	Microsoft Learn,Azure,Azure Monitor
Monitor app performance	https://learn.microsoft.com/en-us/training/modules/monitor-app-performance	Monitor app performance	Thursday	Microsoft Learn,Azure Monitor
Host a web application with Azure App Service	https://learn.microsoft.com/en-us/training/modules/host-a-web-app-with-azure-app-service	Create a website using C#, Java, Python or Node.js and deploy it through the hosted web app platform in Azure App Service.	Thursday	Microsoft Learn,Azure,Azure App Service,Azure Portal
Using GitHub Copilot with Python	https://learn.microsoft.com/en-us/training/modules/introduction-copilot-python	Use GitHub Copilot with Visual Studio Code to make changes and updates to a Python application.	Thursday	Microsoft Learn,GitHub
Deploy Azure infrastructure by using JSON ARM templates	https://learn.microsoft.com/en-us/training/modules/create-azure-resource-manager-template-vs-code	Write JSON Azure Resource Manager templates by using Visual Studio Code to deploy your infrastructure to Azure consistently and reliably.	Thursday	Microsoft Learn,Azure,Azure Resource Manager,Azure Storage Accounts,Visual Studio Code
Create a full stack application by using React and	https://learn.microsoft.com/en-us/training/modules/build-web-api-minimal-spa	Learn how to create a full stack application by using	Thursday	Microsoft Learn,.NET,.NET ASP.NET Core,Visual Studio Code

minimal API for ASP.NET Core		React and minimal API for ASP.NET Core.		
Manage data assets in the Microsoft Purview Data Catalog	https://learn.microsoft.com/en-us/training/modules/manage-data-assets-in-microsoft-purview-data-catalog	This module will teach you how to use the Microsoft Purview Data Catalog to manage your scanned data assets, curate a business glossary, and browse assets […]	Thursday	Microsoft Learn,Azure,Microsoft Purview
Describe the authentication capabilities of Microsoft Entra ID	https://learn.microsoft.com/en-us/training/modules/explore-authentication-capabilities	Describe the authentication capabilities of Microsoft Entra ID	Thursday	Microsoft Learn,Azure,entra,entra Azure Active Directory
Train and evaluate classification models	https://learn.microsoft.com/en-us/training/modules/train-evaluate-classification-models	Train and evaluate classification models	Thursday	Microsoft Learn,Azure
Guided project – Work with variable data in C#	https://learn.microsoft.com/en-us/training/modules/guided-project-work-variable-data-c-sharp	Guided project – Work with variable data in C#	Thursday	Microsoft Learn,.NET,Visual Studio Code
Create and explore the Responsible AI dashboard for a model in Azure Machine Learning	https://learn.microsoft.com/en-us/training/modules/manage-compare-models-azure-machine-learning	Create and explore the Responsible AI dashboard for a model in Azure Machine Learning using the Python SDK v2.	Thursday	Microsoft Learn,Azure Machine Learning
Guided project – Calculate final GPA	https://learn.microsoft.com/en-us/training/modules/guided-project-calculate-final-gpa	Gain experience developing an application that will calculate and display results based on given data.	Thursday	Microsoft Learn,.NET
Integrate a Power Apps app with Power Automate – Online Workshop	https://learn.microsoft.com/en-us/training/modules/integrate-power-apps-online-workshop	Follow the steps to integrate a Power Apps app into Power Automate.	Thursday	Microsoft Learn,Microsoft Power Platform Power Apps,Microsoft Power Platform Power Automate
Create a model-driven Power Apps app for machine ordering – Online Workshop	https://learn.microsoft.com/en-us/training/modules/power-apps-model-driven-apps-online-workshop	Learn how to build a Power Apps model-driven app.	Thursday	Microsoft Learn,Microsoft Power Platform,Microsoft Power Platform Power Apps
Create a machine ordering Power Apps canvas app – Online Workshop	https://learn.microsoft.com/en-us/training/modules/power-apps-canvas-app-online-workshop	Learn how to build the Microsoft Power Platform solution, starting with a Power Apps canvas app.	Thursday	Microsoft Learn,Microsoft Power Platform,Microsoft Power Platform Power Apps
Use Power Apps Instrumentation with Application Insights	https://learn.microsoft.com/en-us/training/modules/instrumentation-app-insights	This module explores how to set up a Microsoft Power Apps canvas app to send telemetry to Application Insights.	Thursday	Microsoft Learn,Azure Monitor,Microsoft Power Platform,Microsoft Power Platform dataverse,Microsoft Power Platform Power Apps
Create a Dataverse table for the machine ordering app – Online workshop	https://learn.microsoft.com/en-us/training/modules/dataverse-lab-manual-online-workshop	Learn about Microsoft Dataverse tables and columns and how to connect data to a canvas app.	Thursday	Microsoft Learn,Microsoft Power Platform Power Apps,Microsoft Power Platform Power Automate
Describe Microsoft's Service Trust portal and privacy capabilities	https://learn.microsoft.com/en-us/training/modules/describe-compliance-management-capabilities-microsoft	Describe Microsoft's Service Trust portal and privacy capabilities	Friday	Microsoft Learn,Microsoft Priva
Create a web API with ASP.NET Core	https://learn.microsoft.com/en-us/training/modules/build-web-api-	Create a RESTful service with ASP.NET Core	Friday	Microsoft Learn,.NET,.NET ASP.NET Core

controllers	aspnet-core	controllers that supports create, read, update, delete (CRUD) operations.		
Introduction to GitHub in Visual Studio Code	https://learn.microsoft.com/en-us/training/modules/introduction-to-github-visual-studio-code	Learn to use the GitHub integration in Visual Studio Code, including authentication, publishing repos, and viewing your repo timeline.	Friday	Microsoft Learn,Azure,GitHub
Train and evaluate clustering models	https://learn.microsoft.com/en-us/training/modules/train-evaluate-cluster-models	Clustering is a type of machine learning that is used to group similar items into clusters.	Friday	Microsoft Learn,Azure
Secure your Azure resources with Azure role-based access control (Azure RBAC)	https://learn.microsoft.com/en-us/training/modules/secure-azure-resources-with-rbac	Learn how to use Azure role-based access control to effectively manage your team's access to Azure resources.	Friday	Microsoft Learn,Azure,Azure Portal,Azure Role-based access control,entra Azure Active Directory
Build data models in finance and operations apps	https://learn.microsoft.com/en-us/training/modules/build-tables-finance-operations	The data model in finance and operations apps consists of tables, views, queries, and other components. These components are important in development. All data in finance [...]	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Supply Chain Management
Control Azure services with the CLI	https://learn.microsoft.com/en-us/training/modules/control-azure-services-with-cli	Learn the steps to install the Azure CLI locally, create a website, and manage Azure resources using the CLI.	Friday	Microsoft Learn,Azure,Azure CLIs
Deploy and update applications	https://learn.microsoft.com/en-us/training/modules/deploy-applications	In this module, you'll master deploying applications using Intune, Configuration Manager, Group Policy, and Microsoft Store Apps. These powerful tools and techniques will equip you to [...]	Friday	Microsoft Learn,Intune,intune configuration-manager,Microsoft Edge,Windows
Get started with lakehouses in Microsoft Fabric	https://learn.microsoft.com/en-us/training/modules/get-started-lakehouses	Get started with lakehouses in Microsoft Fabric	Friday	Microsoft Learn,fabric
Guided project – Develop foreach and if-elseif-else structures to process array data in C#	https://learn.microsoft.com/en-us/training/modules/guided-project-arrays-iteration-selection	Gain experience developing a console app that implements arrays, foreach loops, and if statements to achieve app specifications.	Friday	Microsoft Learn,.NET,Visual Studio Code
Enroll devices using Microsoft Intune	https://learn.microsoft.com/en-us/training/modules/enroll-devices-use-intune	Students will learn how to configure and setup Intune to more easily manage Windows, Android, and iOS devices.	Friday	Microsoft Learn,entra Azure Active Directory
Describe access management capabilities of Microsoft Entra ID	https://learn.microsoft.com/en-us/training/modules/explore-access-management-capabilities	Describe access management capabilities of Microsoft Entra ID	Friday	Microsoft Learn,Azure,entra,entra Azure Active Directory

Guided project – Develop conditional branching and looping structures in C#	https://learn.microsoft.com/en-us/training/modules/guided-project-develop-conditional-branching-looping	Guided project – Develop conditional branching and looping structures in C#	Friday	Microsoft Learn,.NET,Visual Studio Code
Describe the identity protection and governance capabilities of Microsoft Entra	https://learn.microsoft.com/en-us/training/modules/describe-identity-protection-governance-capabilities	Describe the identity protection and governance capabilities of Microsoft Entra	Friday	Microsoft Learn,Azure,entra,entra Azure Active Directory
Get tips and tricks for teaching DP-100: Designing and implementing a data science solution on Azure	https://learn.microsoft.com/en-us/training/modules/get-tips-tricks-for-teaching-dp-100-designing-implementing-data-science-solution	Learn tips and tricks about preparing for your first DP-100 teaching session, which labs to use, when and how to introduce technical topics, as well as [...]	Friday	Microsoft Learn,Azure
Control variable scope and logic using code blocks in C#	https://learn.microsoft.com/en-us/training/modules/csharp-code-blocks	Use code blocks with more confidence, understanding how they impact the visibility and accessibility of both higher and lower-level constructs in your code.	Friday	Microsoft Learn,.NET,Visual Studio Code
Accept your identity in the anti-racism journey	https://learn.microsoft.com/en-us/training/modules/accept-your-identity-anti-racism-journey	This module dives into personal identities, specifically discussing race, and how those identities have shaped our personal belief systems. This is the third module in a [...]	Friday	Microsoft Learn,flip,Office OneNote
Use Azure Synapse serverless SQL pool to query files in a data lake	https://learn.microsoft.com/en-us/training/modules/query-data-lake-using-azure-synapse-serverless-sql-pools	Use Azure Synapse serverless SQL pool to query files in a data lake	Friday	Microsoft Learn,Azure Synapse Analytics
Describe the function and identity types of Microsoft Entra ID	https://learn.microsoft.com/en-us/training/modules/explore-basic-services-identity-types	Describe the function and identity types of Microsoft Entra ID	Friday	Microsoft Learn,Azure,entra,entra Azure Active Directory
