Weekly Update: Saturday April 08 2023 to Saturday April 16 2023

Azure Updates *(30 new azure updates)*

Name	Link	Description	Publication Day	Category
Azure Monitor managed service for Prometheus has updated our AKS add-on to support Windows nodes	https://azure.microsoft.com/en-us/updates/azure-monitor-managed-service-for-prometheus-has-updated-our-aks-addon-to-support-windows-nodes/	Azure Monitor managed service for Prometheus has updated our AKS metrics add-on to support Prometheus metric collection from the Windows nodes in your AKS clusters.	Tuesday	Azure Updates
General Availability: NGINXaaS – Azure Native ISV Service	https://azure.microsoft.com/en-us/updates/general-availability-nginxaas-azure-native-isv-service/	Natively integrated software as a service (SaaS) solution for advanced traffic management and monitoring on Azure.	Tuesday	Azure Updates
Private Preview: Enable Trusted launch on your existing Azure Gen2 VMs	https://azure.microsoft.com/en-us/updates/enable-trusted-launch-on-existing-gen2vms-preview/	Use this preview to enable Trusted launch on your existing Gen2 VMs to improve foundational security of your Gen2 VMs.	Tuesday	Azure Updates
Public Preview: Azure Chaos Studio is now available in Sweden Central region	https://azure.microsoft.com/en-us/updates/public-preview-azure-chaos-studio-is-now-available-in-sweden-central-region/	Azure Chaos Studio is now available in Sweden Central region.	Tuesday	Azure Updates
Public Preview: Database-is-alive metrics for monitoring Azure Postgres Flexible Server database availability.	https://azure.microsoft.com/en-us/updates/public-preview-databaseisalive-metrics-for-monitoring-azure-postgres-flexible-server-database-availability/	Monitor the database availability for Azure Database for PostgreSQL – Flexible Server via Database-is-alive metric.	Thursday	Azure Updates
Azure VMware Solution now available in Qatar with AV36P	https://azure.microsoft.com/en-us/updates/azure-vmware-solution-now-available-in-qatar-with-av36p/	We are excited to announce that the Azure VMware Solution has gone live in Qatar Central and is now available to customers.	Thursday	Azure Updates
Generally Available: Azure VMware Solution Stretched Clusters with customer-managed keys	https://azure.microsoft.com/en-us/updates/generally-available-azure-vmware-solution-stretched-clusters-with-customermanaged-keys/	Stretched clusters for Azure VMware Solution (AVS) is now Generally Available, providing 99.99% uptime for mission critical applications that require the highest availability.	Thursday	Azure Updates
General Availability: App Configuration geo-replication	https://azure.microsoft.com/en-us/updates/general-availability-app-configuration-georeplication/	Replicate your application configuration data across supported regions to create redundancy, reduce latency, and distribute request load.	Thursday	Azure Updates
Public preview: Azure Container Apps supports user defined routes (UDR) and smaller subnets	https://azure.microsoft.com/en-us/updates/public-preview-azure-container-apps-supports-user-defined-routes-udr-and-smaller-subnets/	You can now define UDRs to manage how outbound traffic is routed for your container app environment's subnet	Thursday	Azure Updates

Public preview: Azure Functions V4 programming model for Node.js	https://azure.microsoft.com/en-us/updates/public-preview-azure-functions-v4-programming-model-for-nodejs/	Introducing a more intuitive and idiomatic experience for JavaScript and TypeScript developers writing Azure Functions apps	Thursday	Azure Updates
Generally available: Static Web Apps support for Python 3.10	https://azure.microsoft.com/en-us/updates/generally-available-static-web-apps-support-for-python-310/	You can now build Static Web Apps applications using Python 3.10	Thursday	Azure Updates
Generally Available: Azure Cosmos DB serverless container with 1 TB storage	https://azure.microsoft.com/en-us/updates/generally-available-azure-cosmos-db-serverless-container-with-1-tb-storage/	Get more flexibility and scalability with Azure Cosmos DB Serverless containers, now with expanded storage up to 1 TB and increased RU burstability.	Thursday	Azure Updates
Hotpatch now available for Windows Server VMs on Azure with desktop experience	https://azure.microsoft.com/en-us/updates/hotpatch-now-available-for-windows-server-vms-on-azure-with-desktop-experience/	Hotpatch is now available for Windows Server Azure edition VMs running the desktop experience, allowing you to patch and install updates to Windows Server virtual machines […]	Thursday	Azure Updates
Public Preview of query performance insight for Azure Database for PostgreSQL- Flexible Server	https://azure.microsoft.com/en-us/updates/public-preview-of-query-performance-insight-for-azure-database-for-postgresql-flexible-server/	Introducing the public preview of query performance insight for Azure Database for PostgreSQL – Flexible Server, a new feature to help you improve the overall performance […]	Thursday	Azure Updates
Public preview: Azure Container Apps offers new plan and pricing structure	https://azure.microsoft.com/en-us/updates/public-preview-azure-container-apps-offers-new-plan-and-pricing-structure/	You can now run your apps using serverless, consumption-based compute, and optionally run your apps on dedicated workload profiles that offer more CPU and memory if […]	Thursday	Azure Updates
Generally Available: New burstable SKUs for Azure Database for PostgreSQL – Flexible Server	https://azure.microsoft.com/en-us/updates/generally-available-new-burstable-skus-for-azure-database-for-postgresql-flexible-server/	Introducing new burstable SKU's (B4, B8, B12, B16, B20) for Azure Database for PostgreSQL Flexible Server, providing a cost-effective deployment solution for burstable workloads.	Thursday	Azure Updates
Azure SQL—Public preview updates for mid-April 2023	https://azure.microsoft.com/en-us/updates/azure-sql-public-preview-updates-for-midapril-2023/	Public preview enhancements and updates released for Azure SQL in mid-April 2023	Thursday	Azure Updates
General availability: Read replicas for Azure Database for PostgreSQL Flexible Server	https://azure.microsoft.com/en-us/updates/general-availability-read-replicas-for-azure-database-for-postgresql-flexible-server-2/	Improve performance and scale of read-intensive workloads with read replicas for Azure Database for PostgreSQL Flexible Server.	Thursday	Azure Updates
General availability: Azure DevOps 2023 Q1	https://azure.microsoft.com/en-us/updates/general-availability-azure-devops-2023-q1/	In Q1 we've delivered multiple features across our services. These included improvements on security and new features that have been prioritized based on customer feedback.	Thursday	Azure Updates
General availability: Improved scaling model for Azure Functions with Target Based Scaling	https://azure.microsoft.com/en-us/updates/general-availability-improved-scaling-model-for-azure-functions-with-target-based-scaling/	Scaling improvement for Service Bus, Event Hubs, Storage Queue, and Cosmos DB is now available for the Azure Functions Consumption and Premium plans.	Thursday	Azure Updates
General Availability: Azure App Health Extension – Rich Health States	https://azure.microsoft.com/en-us/updates/general-availability-azure-app-health-extension-rich-health-states/	Application Health Extension, Rich Health States allows for more detailed health reporting on your VM applications.	Thursday	Azure Updates,Features,vmss

Name	Link	Description	Publication Day	Category
Public preview: Node Resource Group (NRG) lockdown	https://azure.microsoft.com/en-us/updates/public-preview-node-resource-group-nrg-lockdown/	You can use this feature to stop unintended changes to AKS resources and reduce support issues.	Thursday	Azure Updates
mAzure Machine Learning – General Availability for April	https://azure.microsoft.com/en-us/updates/azure-machine-learning-general-availability-for-april/	New features now available in GA include the ability to customize your compute instance and configure a compute instance to automatically stop if it is inactive.	Thursday	Azure Updates
Azure SQL—General availability updates for mid-April 2023	https://azure.microsoft.com/en-us/updates/azure-sql-general-availability-updates-for-midapril-2023/	General availability enhancements and updates released for Azure SQL for mid-April 2023	Thursday	Azure Updates
Generally available: Azure Cosmos DB for PostgreSQL cluster compute start and stop	https://azure.microsoft.com/en-us/updates/generally-available-azure-cosmos-db-for-postgresql-cluster-compute-start-and-stop/	Stop and start compute on all cluster nodes to optimize cost of your Azure Cosmos DB for PostgreSQL clusters.	Thursday	Azure Updates
Public Preview: Performance troubleshooting workbooks for Azure Database for PostgreSQL Flexible Server	https://azure.microsoft.com/en-us/updates/public-preview-performance-troubleshooting-workbooks-for-azure-database-for-postgresql-flexible-server/	Save time by analyzing and troubleshooting common performance issues with Performance troubleshooting workbooks.	Thursday	Azure Updates
Generally available: Azure Cosmos DB for PostgreSQL REST APIs	https://azure.microsoft.com/en-us/updates/generally-available-azure-cosmos-db-for-postgresql-rest-apis/	Use REST APIs for all cluster operations to streamline your ongoing management experience with one or many clusters.	Thursday	Azure Updates
Generally Available: Azure Database for PostgreSQL – Flexible Server in the Australia Central region.	https://azure.microsoft.com/en-us/updates/generally-available-azure-database-for-postgresql-flexible-server-in-the-australia-central-region/	Introducing Azure Database for PostgreSQL – Flexible Server in Australia Central region. This expansion provides a simplified provisioning experience with the openness of the PostgreSQL database [...]	Thursday	Azure Updates
Use Stream Analytics to process exported data from Application Insights	https://azure.microsoft.com/en-us/updates/asa-applicationinsight/	Use Stream Analytics to process exported data from Application Insights	Friday	Azure Updates
Connect Azure Stream Analytics to Azure Data Explorer using managed private endpoint.	https://azure.microsoft.com/en-us/updates/asa-azuredataexplorer-managed-private-endpoint/	You can connect your Azure Stream Analytics job to Azure Data Explorer / Kusto clusters using managed private endpoints	Friday	Azure Updates

Guided project – Develop foreach and if-elseif-else structures to process array data in C#	https://learn.microsoft.com/en-us/training/modules/guided-project-arrays-iteration-selection	Gain experience developing a console app that implements arrays, foreach loops, and if statements to achieve app specifications.	Wednesday	Microsoft Learn,.NET,Visual Studio Code
Guided project – Develop conditional branching and looping structures in C#	https://learn.microsoft.com/en-us/training/modules/guided-project-develop-conditional-branching-looping	Guided project – Develop conditional branching and looping structures in C#	Wednesday	Microsoft Learn,.NET,.NET Framework,Visual Studio Code
Describe complementary Microsoft Power Platform solutions	https://learn.microsoft.com/en-us/training/modules/introduction-power-virtual-agents	In this module, learners will be introduced to the Microsoft Power Virtual Agents to build bots, Microsoft Power Pages to build rich websites, and AI Builder [...]	Wednesday	Microsoft Learn,Microsoft Power Platform,Microsoft Power Platform Power Apps,Microsoft Power Platform Power Virtual Agents
Introducing Microsoft Dynamics 365 Business Central	https://learn.microsoft.com/en-us/training/modules/intro-dynamics-365-business-central	Microsoft Dynamics 365 Business Central is built and optimized for small and medium businesses. It's an application for companies that have outgrown their entry-level business applications [...]	Thursday	Microsoft Learn,Dynamics 365,Dynamics 365 Business Central
Get started with the upgrade process from Dynamics AX 2012 to finance and operations apps	https://learn.microsoft.com/en-us/training/modules/get-started-upgrade-ax-2012-to-finance-operations	Learn about the upgrade process from Microsoft Dynamics AX 2012 to finance and operations apps.	Thursday	Microsoft Learn,Dynamics 365 Finance,Dynamics 365 Finance and Operations,Dynamics 365 Supply Chain Management
Get started with project sales management in Dynamics 365 Project Operations	https://learn.microsoft.com/en-us/training/modules/get-started-project-sales-management	The sales processes that are used in a project-based organization differ from the sales processes that are used in a product-based	Thursday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Finance and Operations,Dynamics 365 Project Operations,Dynamics 365 Sales

		organization. The reason is because [...]		
Get started with subscription billing in Dynamics 365 Finance	https://learn.microsoft.com/en-us/training/modules/get-started-subscription-billing-finance	Learn about subscription billing in Dynamics 365 Finance.	Thursday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance
Get started with Dynamics 365 Human Resources	https://learn.microsoft.com/en-us/training/modules/introduction-human-resources	With its modern benefits and programs, Microsoft Dynamics 365 Human Resources helps you attract and retain talent. This module helps you get started with Human Resources.	Thursday	Microsoft Learn,Dynamics 365,Dynamics 365 Human Resources
Get started with Dynamics 365 Guides	https://learn.microsoft.com/en-us/training/modules/get-started-guides	Microsoft Dynamics 365 Guides is the mixed reality application that displays step-by-step holographic instructions.	Thursday	Microsoft Learn,Dynamics 365,Dynamics 365 Guides,HoloLens
Getting started with Omnichannel for Customer Service	https://learn.microsoft.com/en-us/training/modules/getting-started-omnichannel	With Omnichannel for Dynamics 365 Customer Service, agents can service multiple customers across different channels directly from within their Dynamics 365 environment. This module introduces the [...]	Thursday	Microsoft Learn,Dynamics 365,Dynamics 365 Customer Service
Get started with Dynamics 365 Intelligent Order Management	https://learn.microsoft.com/en-us/training/modules/get-started-intelligent-order-management	With Microsoft Dynamics 365 Intelligent Order Management, customers can manage the orchestration of orders through to fulfillment. These capabilities enable organizations to orchestrate order flows across [...]	Thursday	Microsoft Learn,Dynamics 365,Dynamics 365 Commerce,Dynamics 365 Finance,Dynamics 365 Finance and Operations,Dynamics 365 Intelligent Order Management,Dynamics 365 Supply Chain Management
Work with Dynamics 365 Sales Insights	https://learn.microsoft.com/en-us/training/modules/working-with-sales-insights	Building a strong, long-term relationship with a customer takes time and effort. Account executives need to communicate with customers regularly and maintain a complete understanding of [...]	Thursday	Microsoft Learn,Dynamics 365,Dynamics 365 Sales
Create a unified customer profile in Dynamics 365 Customer Insights	https://learn.microsoft.com/en-us/training/modules/unified-customer-profile	Learn about creating a unified customer profile in Customer Insights.	Thursday	Microsoft Learn,Dynamics 365,Dynamics 365 Customer Insights
Configure chart of accounts in Dynamics 365 Finance	https://learn.microsoft.com/en-us/training/modules/configure-chart-accounts-dyn365-finance	In any Dynamics 365 Finance implementation project, the first step is to configure the General ledger module. All other modules post their related financial transactions into [...]	Thursday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Finance and Operations
Explore compliance in Microsoft 365	https://learn.microsoft.com/en-us/training/modules/explore-plan-compliance-microsoft-365	This module explores the tools Microsoft 365 provides to help ensure an organization's	Thursday	Microsoft Learn,Microsoft 365,Office 365

		regulatory compliance, including the Microsoft Purview compliance portal, Compliance Manager, and the Microsoft [...]		
Get started with B2B e-commerce in Dynamics 365 Commerce	https://learn.microsoft.com/en-us/training/modules/get-started-business-to-business-commerce	This module introduces the concepts, information, and processes for the e-commerce site that relates to the business-to-business processes in Dynamics 365 Commerce.	Thursday	Microsoft Learn,Dynamics 365,Dynamics 365 Commerce
Get started with configuration in Dynamics 365	https://learn.microsoft.com/en-us/training/modules/get-started-configuration-dynamics-365	Get started with configuration in Dynamics 365	Thursday	Microsoft Learn,Dynamics 365,Dynamics 365 Customer Service,Dynamics 365 Field Service,Dynamics 365 Marketing,Dynamics 365 Sales,Microsoft Power Platform Microsoft Dataverse
Get started with Dynamics 365 Commerce channels	https://learn.microsoft.com/en-us/training/modules/get-started-commerce-channels	Dynamics 365 Commerce delivers a complete omnichannel solution that unifies the operating system, in-store, and e-Commerce experiences to personalize customer engagement, increase employee productivity, optimize operations, [...]	Thursday	Microsoft Learn,Dynamics 365,Dynamics 365 Commerce
Get started with Success by Design for Dynamics 365	https://learn.microsoft.com/en-us/training/modules/success-by-design	Success by Design is the prescriptive guidance (approaches and best practices) for designing, building, and deploying a Microsoft Dynamics 365 solution.	Thursday	Microsoft Learn,Dynamics 365,Dynamics 365 Commerce,Dynamics 365 Customer Service,Dynamics 365 Field Service,Dynamics 365 Finance,Dynamics 365 Finance and Operations,Dynamics 365 Human Resources,Dynamics 365 Marketing,Dynamics 365 Project Operations,Dynamics 365 Sales,Dynamics 365 Supply Chain Management
Get started with Finance insights in Dynamics 365 Finance	https://learn.microsoft.com/en-us/training/modules/get-started-finance-insights	Learn how Finance insights works to help you make customer payment predictions, cash flow forecasts, and budget proposals.	Thursday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance
Introduction to Dynamics 365 Commerce	https://learn.microsoft.com/en-us/training/modules/dynamics-365-commerce-introduction	Microsoft Dynamics 365 Commerce unifies back-office, in-store, and digital experiences to personalize customer engagement, increase employee productivity, optimize operations, and deliver better business outcomes.	Thursday	Microsoft Learn,Dynamics 365,Dynamics 365 Commerce
Create tables, views, and temporary objects	https://learn.microsoft.com/en-us/training/modules/create-tables-views-temporary-objects	Create tables, views, and temporary objects	Thursday	Microsoft Learn,Azure SQL Database,Azure SQL Managed Instance,Azure SQL Server on Virtual Machines,Azure SQL Virtual Machines,SQL Server

Configure virtual networks	https://learn.microsoft.com/en-us/training/modules/configure-virtual-networks	Learn how to configure virtual networks and subnets, including IP addressing.	Thursday	Microsoft Learn,Azure Virtual Network
Encrypt public sector data in Azure	https://learn.microsoft.com/en-us/training/modules/encrypt-sector-data	Overview of the options available for managing encryption keys and encrypting data throughout its lifecycle, with special attention to public sector.	Thursday	Microsoft Learn,Azure,Azure Application Gateway,Azure Disk Encryption,Azure ExpressRoute,Azure Key Vault,Azure SQL Database,Azure Storage,Azure Virtual Network,Azure VPN Gateway,entra Azure Active Directory
Describe how to build applications with Microsoft Power Apps	https://learn.microsoft.com/en-us/training/modules/introduction-power-apps	In this module, learners will be introduced to Microsoft Power Apps and how to build both canvas and model-driven apps.	Thursday	Microsoft Learn,Microsoft Power Platform,Microsoft Power Platform Power Apps
Get started with Dynamics 365 Fraud Protection	https://learn.microsoft.com/en-us/training/modules/get-started-fraud-protection	Dynamics 365 Fraud Protection is a cloud-based solution that is designed for e-commerce, brick-and-mortar stores, and omnichannel merchants to help protect their revenue.	Thursday	Microsoft Learn,Dynamics 365,Dynamics 365 Fraud Protection
Get started with Asset Management for Dynamics 365 Supply Chain Management	https://learn.microsoft.com/en-us/training/modules/get-started-asset-management	Asset Management is an advanced module for managing assets and maintenance jobs in Dynamics 365 Supply Chain Management.	Thursday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance and Operations,Dynamics 365 Supply Chain Management
Implement Microsoft Purview Insider Risk Management	https://learn.microsoft.com/en-us/training/modules/implement-insider-risk-management	This module examines how Microsoft Purview Insider Risk Management helps organizations minimize internal risks by enabling them to detect, investigate, and act on malicious and inadvertent [...]	Thursday	Microsoft Learn,Microsoft 365,Office 365
Get started with Dynamics 365 Supply Chain Management	https://learn.microsoft.com/en-us/training/modules/get-started-supply-chain-management-dyn365-supply-chain-mgmt	Dynamics 365 Supply Chain Management empowers employees and organizations with the ability to obtain a unified view of inventory, warehouse, manufacturing, service, and logistics with predictive [...]	Thursday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance and Operations,Dynamics 365 Supply Chain Management
Get started with Dynamics 365 Finance	https://learn.microsoft.com/en-us/training/modules/get-started-financial-management-dyn365-finance	Dynamics 365 Finance empowers business users to adapt to rapidly changing business environments. It provides businesses everything they need to control finances and manage funds with [...]	Thursday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Finance and Operations
Introduction to the development environment for Dynamics 365 Business Central	https://learn.microsoft.com/en-us/training/modules/intro-development-environment	Do you want to start developing for Microsoft Dynamics 365 Business Central? If so, this module is for you. Learn	Thursday	Microsoft Learn,Dynamics 365,Dynamics 365 Business Central

		about the development environment that is [...]		
Automate Python deployments with Azure Pipelines	https://learn.microsoft.com/en-us/training/modules/deploy-python	Implement a CI/CD pipeline for Python.	Thursday	Microsoft Learn,Azure,Azure DevOps
Introduction to Azure Virtual Machine Scale Sets	https://learn.microsoft.com/en-us/training/modules/intro-to-azure-virtual-machine-scale-sets	Learn about what Azure Virtual Machine Scale Sets do, how they work, and when you should use Azure Virtual Machine Scale Sets as a solution for [...]	Thursday	Microsoft Learn,Azure,Azure Virtual Machine Scale Sets
Get started with the Dynamics 365 Field Service Mobile application	https://learn.microsoft.com/en-us/training/modules/get-started-mobile-app	Microsoft Dynamics 365 Field Service Mobile app provides workers with tools to serve customers in the field. It provides work orders, lists of customer assets, accounts, [...]	Thursday	Microsoft Learn,Dynamics 365,Dynamics 365 Field Service
Get started with Dynamics 365 Project Operations	https://learn.microsoft.com/en-us/training/modules/get-started-project-operations	Learn about Dynamics 365 Project Operations and how it empowers business users to adapt to rapidly changing business environments and manage the entire life cycle of [...]	Thursday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Finance and Operations,Dynamics 365 Project Operations
Create visualizations for Dynamics 365 Customer Service	https://learn.microsoft.com/en-us/training/modules/customer-service-visualizations	Learn how to create visualizations of Microsoft Dynamics 365 Customer Service data. Prepare for MB-230.	Thursday	Microsoft Learn,Dynamics 365,Dynamics 365 Customer Service
Get started with Engineering Change Management for Dynamics 365 Supply Chain Management	https://learn.microsoft.com/en-us/training/modules/get-started-engineering-change-management	Learn the basics of the Engineering Change Management for Dynamics 365 Supply Chain Management.	Thursday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance and Operations,Dynamics 365 Supply Chain Management
Create fiscal calendars, years, and periods in Dynamics 365 Finance	https://learn.microsoft.com/en-us/training/modules/create-fiscal-calendars-years-periods-dyn365-finance	When you record financial data in Dynamics 365 Finance, you must include the date of the transaction. By using a fiscal calendar and breaking it down [...]	Thursday	Microsoft Learn,Dynamics 365,Dynamics 365 Finance,Dynamics 365 Finance and Operations
Introduction to Microsoft Dynamics 365	https://learn.microsoft.com/en-us/training/modules/dynamics-365-introduction	Microsoft Dynamics 365 enables organizations to evolve from reactive business decisions to proactive insights that allow your employees to accelerate business results.	Thursday	Microsoft Learn,Dynamics 365,Microsoft Power Platform
Get started integrating finance and operations apps with Microsoft Power Platform	https://learn.microsoft.com/en-us/training/modules/get-started-integrate-finance-operations-power-platform	Learn about integrating finance and operations apps with Microsoft Power Platform.	Thursday	Microsoft Learn,Dynamics 365,Dynamics 365 Commerce,Dynamics 365 Finance,Dynamics 365 Finance and Operations,Dynamics 365 Supply Chain Management,Microsoft Power Platform Microsoft Dataverse
Create a survey project with	https://learn.microsoft.com/en-us/training/modules/work-customer-voice-projects	Learn about creating with Dynamics 365 Customer Voice projects.	Thursday	Microsoft Learn,Dynamics 365,Dynamics 365 Customer Voice

Dynamics 365 Customer Voice				
Get started with making Remote Assist calls	https://learn.microsoft.com/en-us/training/modules/remote-assist	Learn about Remote Assist.	Thursday	Microsoft Learn,Dynamics 365,Dynamics 365 Field Service,Dynamics 365 Remote Assist
Create custom experiences for agents with agent experience profiles in Customer Service	https://learn.microsoft.com/en-us/training/modules/agents-app-profile-manager	With agent experience profiles, your organization can create targeted app experiences for agents and supervisors who work with the Microsoft Dynamics 365 Customer Service workspace and [...]	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Customer Service
Build a scalable application with Virtual Machine Scale Sets	https://learn.microsoft.com/en-us/training/modules/build-app-with-scale-sets	Enable your application to automatically adjust to changes in load while minimizing costs with Virtual Machine Scale Sets.	Friday	Microsoft Learn,Azure,Azure Virtual Machine Scale Sets,Azure Virtual Machines
Introduction to Power Apps portals	https://learn.microsoft.com/en-us/training/modules/introduction-power-apps-portals	Introduction to Power Apps portals	Friday	Microsoft Learn,Microsoft Power Platform,Microsoft Power Platform Power Apps
Discover and use Web APIs with Power Apps	https://learn.microsoft.com/en-us/training/modules/discover-web-apis-power-apps	Build a custom connector using an OpenAPI document or Azure API Management to send data to and receive data from web APIs.	Friday	Microsoft Learn,Microsoft Power Platform,Microsoft Power Platform Power Apps
Transform business software authoring with fusion development teams	https://learn.microsoft.com/en-us/training/modules/transform-business-software-authoring-with-fusion-dev	Increase software development efficiency and productivity with fusion development teams.	Friday	Microsoft Learn,Microsoft Power Platform,Microsoft Power Platform Power Apps
Recognize text with AI Builder	https://learn.microsoft.com/en-us/training/modules/get-started-with-ai-builder-text-recognition	Learn about AI Builder Text recognition and how to use it with other Microsoft Power Platform products.	Friday	Microsoft Learn,Microsoft Power Platform,Microsoft Power Platform AI Builder,Microsoft Power Platform Power Automate
Publish and share in Power BI	https://learn.microsoft.com/en-us/training/modules/publish-share-power-bi	Publish and share your Power BI reports and dashboards to teammates in your organization or to everyone on the web.	Friday	Microsoft Learn,Microsoft Power Platform,Microsoft Power Platform Power BI
Automate GitHub by using GitHub Script	https://learn.microsoft.com/en-us/training/modules/automate-github-using-github-script	Learn to interact with the GitHub API from GitHub Actions by using GitHub Script.	Friday	Microsoft Learn,Azure,GitHub
Understanding Low Code as a Traditional Developer	https://learn.microsoft.com/en-us/training/modules/understanding-low-code-as-a-traditional-developer	Understand Power Fx and how to use it to build an app within Power Apps as a traditional developer	Friday	Microsoft Learn,Microsoft Power Platform,Microsoft Power Platform Power Apps
Guided project – Calculate and print student grades	https://learn.microsoft.com/en-us/training/modules/guided-project-calculate-print-student-grades	Guided project – Calculate and print student grades	Friday	Microsoft Learn,.NET
Design your migration to Azure	https://learn.microsoft.com/en-us/training/modules/design-your-migration-to-azure	Minimize the time and resources required to migrate your on-	Friday	Microsoft Learn,Azure,Azure Migrate

		premises environment to Azure. Assess your current systems with Azure Migrate, and migrate them with Azure Migrate [...]		
Introduction to Azure Site Recovery	https://learn.microsoft.com/en-us/training/modules/intro-to-azure-site-recovery	This module explains what Azure Site Recovery does, how it works, and when you should choose to use Azure Site Recovery as a solution to meet [...]	Friday	Microsoft Learn,Azure,Azure Site Recovery
Get started with Power Virtual Agents bots	https://learn.microsoft.com/en-us/training/modules/power-virtual-agents-bots	In this module, you'll be introduced to key concepts and will build a basic Microsoft Power Virtual Agents bot.	Friday	Microsoft Learn,Microsoft Power Platform,Microsoft Power Platform Power Virtual Agents
Configure bookable resources in Dynamics 365 Field Service	https://learn.microsoft.com/en-us/training/modules/configure-bookable-resources-urs-dynamics-field-service	Learn how to configure Field Service resources.	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Field Service
Work with codeunits in Dynamics 365 Business Central	https://learn.microsoft.com/en-us/training/modules/work-with-codeunits	Do you want to create your own codeunit and learn how to access the functions within that codeunit? If so, this module is the ideal place [...]	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Business Central
Implement Microsoft Purview Data Loss Prevention	https://learn.microsoft.com/en-us/training/modules/implement-data-loss-prevention-policies-microsoft-365	This module examines how organizations can use Microsoft Purview Data Loss Prevention to help protect sensitive data and define the protective actions that organizations can take [...]	Friday	Microsoft Learn,Microsoft 365,Office 365
Monitor an Azure Kubernetes Service cluster using Container insights in Azure Monitor	https://learn.microsoft.com/en-us/training/modules/aks-monitor	Monitor an Azure Kubernetes Service cluster using Container insights in Azure Monitor	Friday	Microsoft Learn,Azure,Azure Kubernetes Service,Azure Monitor
Perform basic operations on numbers in C#	https://learn.microsoft.com/en-us/training/modules/csharp-basic-operations	Perform basic operations on numbers in C#	Friday	Microsoft Learn,.NET
Store and retrieve data using literal and variable values in C#	https://learn.microsoft.com/en-us/training/modules/csharp-literals-variables	Store and retrieve data using literal and variable values in C#	Friday	Microsoft Learn,.NET
Implement Microsoft Purview Information Barriers	https://learn.microsoft.com/en-us/training/modules/create-information-barriers	This module examines how Microsoft Purview uses information barriers to restrict communication and collaboration in Microsoft Teams, SharePoint Online, and OneDrive for Business. MS-102	Friday	Microsoft Learn,Microsoft 365,Office 365
Explore Microsoft Purview Data Loss Prevention	https://learn.microsoft.com/en-us/training/modules/explore-examine-data-loss-prevention-microsoft-365	This module examines the data loss prevention features in Microsoft 365 that help organizations	Friday	Microsoft Learn,Microsoft 365,Office 365

		identify, monitor, report, and protect sensitive data through deep content analysis while [...]		
Core components of Power Pages	https://learn.microsoft.com/en-us/training/modules/power-pages-intro	Use Power Pages to create modern data-driven external-facing business websites. Extend Dataverse data to external and internal audiences such as customers, partners, and employees. Empower anyone [...]	Friday	Microsoft Learn,Dynamics 365,Microsoft Power Platform,Microsoft Power Platform Power Apps,Microsoft Power Platform power-pages
Explore Dynamics 365 Sales	https://learn.microsoft.com/en-us/training/modules/explore-dynamics-365-sales	This module introduces learners to Dynamics 365 Sales focusing on managing leads, lead qualification, opportunities and sales orders as part of the standard sales lifecycle.	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Sales
Get started with Microsoft Dataverse for Teams	https://learn.microsoft.com/en-us/training/modules/get-started-dataverse-teams	This module introduces Microsoft Dataverse for Teams and how you can build apps, workflows, chatbots, and dashboards in it. You will learn how to provision Dataverse [...]	Friday	Microsoft Learn,Microsoft Power Platform,Microsoft Power Platform Power Apps,Microsoft Power Platform Power Automate
Microsoft Cloud for Sustainability overview	https://learn.microsoft.com/en-us/training/modules/cloud-sustainability-overview	Learn about Microsoft Cloud for Sustainability, which helps organizations build more enduring IT infrastructures by identifying opportunities to replace tools, systems, and activities with more efficient [...]	Friday	Microsoft Learn,Industry Solutions,Industry Solutions mscloud-sustainability
Install and configure Visual Studio Code	https://learn.microsoft.com/en-us/training/modules/install-configure-visual-studio-code	Learn how to configure Visual Studio Code for C# and how to use this professional IDE to create and run console applications.	Friday	Microsoft Learn,.NET,Visual Studio Code
Get started with AI Builder	https://learn.microsoft.com/en-us/training/modules/get-started-with-ai-builder	This self-paced module helps you build an AI model from the beginning and shows how you can use it in your business without writing a single [...]	Friday	Microsoft Learn,Microsoft Power Platform,Microsoft Power Platform AI Builder,Microsoft Power Platform Power Automate
Guided project – Calculate final GPA	https://learn.microsoft.com/en-us/training/modules/guided-project-calculate-final-gpa	Guided project – Calculate final GPA	Friday	Microsoft Learn,.NET
Implement Storage Spaces and Storage Spaces Direct	https://learn.microsoft.com/en-us/training/modules/implement-storage-spaces-storage-spaces-direct	Implement Storage Spaces and Storage Spaces Direct	Friday	Microsoft Learn,Windows Server
Run functional tests in Azure Pipelines	https://learn.microsoft.com/en-us/training/modules/run-functional-tests-azure-pipelines	Run Selenium UI tests, a form of functional testing, in Azure Pipelines.	Friday	Microsoft Learn,Azure,Azure DevOps

Perform basic string formatting in C#	https://learn.microsoft.com/en-us/training/modules/csharp-basic-formatting	Perform basic string formatting in C#	Friday	Microsoft Learn,.NET
Write your first C# code	https://learn.microsoft.com/en-us/training/modules/csharp-write-first	Write your first C# code	Friday	Microsoft Learn,.NET
Introduction to Linux on Azure	https://learn.microsoft.com/en-us/training/modules/intro-to-azure-linux	Discover the unique benefits of running Linux on Azure, and how to run Linux-based applications and workloads in the cloud with Azure.	Friday	Microsoft Learn,Azure,Azure Linux Virtual Machines
Get started with Power Apps canvas apps	https://learn.microsoft.com/en-us/training/modules/get-started-with-powerapps	Learn the basics of Power Apps and how you can use it in your organization.	Friday	Microsoft Learn,Microsoft Power Platform,Microsoft Power Platform Power Apps
Introduction to Power BI for Tableau users	https://learn.microsoft.com/en-us/training/modules/power-bi-tableau-intro	This module explores how Microsoft Power BI and Tableau connect to data and help you build visualizations.	Friday	Microsoft Learn,Microsoft Power Platform,Microsoft Power Platform Power BI
Learn the AL statements in Dynamics 365 Business Central	https://learn.microsoft.com/en-us/training/modules/al-statements	Do you want to know how to use basic AL statements? This module shows you how to use conditional statements, compound statements, and comments when developing [...]	Friday	Microsoft Learn,Dynamics 365,Dynamics 365 Business Central
